### **Adventures in Space (Short stories by Chinese and English Science Fiction writers)**

Patrick Parrinder, Yao Haijun, Leah Cypess, Ronald Ferguson, Russell James, Alex Shvartsman, Amdì Silvestri, Allen Stroud, Eleanor Wood, Bao Shu, Zhao Haihong, Chen Zijun, Han Song, Wang Jinkang, He Xi, 2023-04-25 If you love the mission of science fiction, the interchange between cultures, the hopeful and inexorable trajectory of technology and ideas, you'll love this anthology of new stories from Chinese and English-language writers. An impressive joint project, this outstanding new anthology brings the best of Chinese and English-language science fiction in a mediation on the theme of Exploration in Space. New, emerging, established and much-lauded writers from both cultures are brought together to demonstrate that technology and humanity when they work together bring challenges, joy and benefits to all of humankind. From Bao Shu comes 'A Trip to the End', from Allen Stroud 'The First', from He Xi 'Never Meet Again in Life', from Amdì Silvestri 'A Minuet of Corpses' and under the guiding eye of Patrick Parrinder (President of the H.G. Wells society) and Yao Haijun (celebrated editor of Science Fiction World in China) thirteen authors create a series of worlds which will enthrall and entertain.

**Blockchain Chicken Farm** Xiaowei Wang, 2020-10-13 A New York Times Book Review Editors' Choice A brilliant and empathetic guide to the far corners of global capitalism. --Jenny Odell, author of How to Do Nothing From FSGO x Logic: stories about rural China, food, and tech that reveal new truths about the globalized world In Blockchain Chicken Farm, the technologist and writer Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Accompanied by humorous "Sinofuturist" recipes that frame meals as they transform under new technology, Blockchain Chicken Farm is an original and probing look into innovation, connectivity, and collaboration in the digitized rural world. FSG Originals x Logic dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech's reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past

doom and gloom. Our collaboration features four brief but provocative forays into the tech industry’s many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today.

*The Red Thread* Eleanor Liu,2011-03-26 The red string of fate, or the red thread of destiny is an East Asian belief originating in Chinese legend. According to this myth, the gods tie an invisible red string around the ankles of those who are destined to marry each other. The deity in charge of gthe red threadh is believed to be Yue Xia Lao (V) the old lunar matchmaker god in charge of marriages. The two connected are destined lovers, regardless of time, place or circumstances. This magical cord may stretch or tangle, but never break. This book recounts events and circumstances that shaped and determined the course of Eleanorfs life. Her childhood in a loving family, church, schooling, scouting, camping and friendships were all important. Her marriage to a Chinese man in 1950 was unusual in the South. Their work, studies, family, trips with anecdotes of people and places are included. Descriptions of China since 1973 recount the many changes she has witnessed and give a unique perspective.
