To The Storm Daiyun Yue, Carolyn Wakeman, 1987-03-16 *To the Storm* by Yue Daiyun and Carolyn Wakeman is the fascinating story of Yue Daiyun, a faculty member at Beijing University. Yue Daiyun was a revolutionary from her early school days. She had been a child during the anti-Japanese war and hated the Guomundang. Accepted as a student at Beida in 1948, she joined the Communist Party's underground Democratic youth League and became a Party member the following year and helped with the Liberation of Beijing. While a student at Beida, she served as a delegate at the Prague 2nd World Student Congress in 1950 and worked in the countryside on land reform in 1951-52. Then she graduated from Beida and became a faculty member in the literature department. She married her husband, Lao Tang, the day after their graduation. He obtained a faculty position in the philosophy department. Both were loyal to Chairman Mao and the goals of the Revolution. Their lives went smoothly for several years until 1958. Yue Daiyun taught Chinese literature and took part in many activities on campus. She read many Western books and supported the formation of a new literary magazine on campus. This eventually brought her into conflict with the authorities and the beginning of two decades of problems and persecution for her and her family. The Party had encouraged openness and criticism of its mistakes and deficiencies in the system. Yue Daiyun had taken part in the discussions, believing that she was helping to build a better China. Summoned to a meeting at her department one day, she was denounced as a rightist. She did not understand what she did wrong, but she was quickly relieved of her teaching duties and sent to the countryside to work and live with the peasants for two years. This was the first of her suspensions from teaching. Both Yue Daiyun and her husband, Lao Tang, were caught up in the persecution and violence of the Cultural Revolution. They had spent two years at a cadre school in Liyouhoz and when they returned to Beijing, Lao Tang was selected to work on a special task force called Liang Xiaio. This brought Lao Tang and the group into close association with Jiang Qing and the Gang of Four. When the Gang of Four was arrested, Lao Tang suffered through a year long investigation before being cleared. Throughout this time their family suffered from the persecution of others. In the end, the authorities admitted that they were wrong in their case against her and reinstated her Party membership. In this interesting autobiography, Yue Daiyun tells her story of the life she and her family lived during these somewhat violent and terror-filled years in China.

Out of the Howling Storm Beidao, 1993 Jervey Tervalon's novel about young people in South Central Los Angeles grows out of his experience teaching in a high school there and his pain at the death of one of his favorite students.

The Unceasing Storm Katherine Luo, 2018-03-31 Just over fifty years ago, China's Cultural Revolution began. The movement was intended to bring about a return to revolutionary Maoist beliefs and resulted in attacks on intellectuals and those believed to be counter-revolutionaries, capitalists and rightists; a large-scale purge in government posts; the appearance of a personality cult around Mao Zedong; and an estimated death count of between one and three million. When Katherine Luo moved from Hong Kong to mainland China in 1955 to study drama and opera, she hoped her ideals and patriotism might help to build her country. Like many citizens, she loved the motherland and admired its revolutionary leaders. After years of completely trusting the regime, rationalizing its decisions and betrayals, and criticizing herself for doubting the Party, she realized that no matter how much she loved China, it would never love her back because she had the wrong background—capitalist class origins and overseas connections. *The Unceasing Storm* describes Luo's personal struggles—among other things, she was expelled from university, forbidden to marry her first love, and accused of being a spy—but it is also the memoir of a generation, representative

of similar incidents occurring all over China. Luo's colleagues and famous artists were dogged by their backgrounds—the unluckiest in the “to be executed, imprisoned or placed under surveillance” category; family members and teachers were labelled rightists; friends and war heroes were imprisoned; careers were ruined, families separated, ordinary people lifted to power one morning and destroyed overnight. Some of those with stories to tell perished, of those who lived, many prefer to forget, and others burned all written records to avoid being incriminated. When the people involved in the revolution have all died, it will be all too easy to forget or pretend it never happened. The Unceasing Storm is one step towards creating a truthful record of contemporary China.

A Leaf in the Storm Yutang Lin, 1941 Modern China, from the outbreak of war until the evacuation of Hankow in the fall of 1938.

In the Eye of the China Storm Paul T.K. Lin, Eileen Chen Lin, 2011-08-04 Born in Vancouver in 1920 to immigrant parents, Lin became a passionate advocate for China while attending university in the United States. With the establishment of the People's Republic, and growing Cold War sentiment, Lin abandoned his doctoral studies, moving to China with his wife and two young sons. He spent the next fifteen years participating in the country's revolutionary transformation. In 1964, concerned by the political climate under Mao and determined to bridge the growing divide between China and the West, Lin returned to Canada with his family and was appointed head of McGill University's Centre for East Asian Studies. Throughout his distinguished career, Lin was sought after as an authority on China. His commitment to building bridges between China and the West contributed to the establishment of diplomatic relations between Canada and China in 1970, to US President Richard Nixon's visit to China in 1972, and to the creation of numerous cultural, academic, and trade exchanges. In the Eye of the China Storm is the story of Paul Lin's life and of his efforts - as a scholar, teacher, business consultant, and community leader - to overcome the mutual suspicion that distanced China from the West. A proud patriot, he was devastated by the Chinese government's violent suppression of student protestors at Tiananmen Square in June 1989, but never lost faith in the Chinese people, nor hope for China's bright future.

Heavy Storm and Gentle Breeze Tang JiaXuan, 2011-04-12 As China's policy decisions become increasingly significant as a bellwether of global economics, one of the nation's most prominent and long-serving diplomats comes forward to illuminate the powerful country's stance during some of the most important events of recent history. Tang Jiaxuan, born in 1938, served as a Foreign Minister of the People's Republic of China from 1998 to 2003, and as the State councilor from 2003 to 2008. Tang Jiaxuan uses his experience at the forefront of China's policies to make Heavy Storm and Gentle Breeze an indispensable guide for anyone interested the past—and future—of China's relationship with the world.

The Yellow Storm She Lao, 1951 Taking Xiaoyangjuan Hutong in Beijing during the Anti-Japanese War as the specific background, the novel focuses on Qi Family and is supplemented with Qian Family, Guan Family and other residents in the Hutong to depict the images of many ordinary people from all walks of life through the complicated conflicts and reflect the perplexed and contented social mentality of Beijing citizens in the eight-year Anti-Japanese War through their humiliating and miserable experience. The novel represents their slow, painful and difficult awakening progress when the country was ruined and the people were starving. Through the growth, emotion and life history of these small potatoes, it epically shows the 'grand themes': the cruelty of war, the destruction of war on human civilization and life, the ups and downs of national destiny and the national spirit.

The Storm Clouds Clear Over China Lifu Chen, 1994 Chen, who served Chiang Kai-shek loyally and capably, still believes that Chiang was the most suitable

person to lead China in those stormy decades. With candor and clarity he describes the personality clashes, the internal power struggles, economic reforms, and difficulties in handling foreign affairs that ultimately led to the defeat of the Kuomintang and the ignominious retreat of the Nationalist government to Taiwan in 1949.

Thunderstorm Tsao Yu, 2001 *Thunderstorm*, a four-act play by Tsao Yu, one of China's leading playwrights, has held the stage since it was produced in 1933. Its wide human appeal has drawn audiences from every walk of life all over China and it has even been made into a folk-opera. Here, for the first time, is an adequate English translation. The setting is the home of an industrialist in north China, where a family has come together with the inexorable fatality of a Greek drama. It is a play of tensions, and, in the twenty-four hours in which the action takes place, we watch these tensions mount and tauten as the tragic climax swiftly approached. Here, in miniature, we witness the disintegration of the fabric of the old society and the birth-pangs of the new. The head of the house, a self-made man whose preoccupation with success has made him insensible to the ties of blood and affection, still bears within him the stifling weight of the old feudal society. The younger generation are in rebellion against the decaying order which the older generation stand for, and the intensity of their reaction reveals new facets in the dramatic situation. The play is an accomplished example of the Western form of drama in China. The emotional conflicts and stresses which Tsao Yu handles with such finesse are skillfully interwoven and counterpoised in such a way that suspense is sustained to the final curtain. We are confident that English speaking readers will accord this play the welcome that one of the classics of twentieth-century drama deserves.

Vowing to avenge her former brothers in arms, she travels to Europe to train with the legendary Ezio Auditore. When she returns to the Middle Kingdom, her saber and her determination alone will not be enough to eliminate Zhang Yong: she will have to surround herself with allies and walk in the shadows to defeat the Eight Tigers.

Out of the Howling Storm Tony Barnstone, 1993 From the Beijing Spring of 1979 until the student uprisings of 1989 a new generation of poets flourished in China. Influenced by Western Modernism and increasingly daring in their challenges to state control of their art, these poets disguised political protest and

social commentary in shadowy images and metaphors, earning them the name Misty Poets. Rejecting the Social Realism prescribed by Maoist doctrine, they celebrated subjective experience and individuality, ushering in a new era of artistic expression that has been dampened but not extinguished by the Tiananmen Square massacre. This new anthology is the most comprehensive English sampling available of the work of the Misty Poets and their even younger proteges, many of whom now live in exile in the West, where they continue to reshape Chinese poetry and Literature. Editor Tony Barnstone offers a generous and representative sample of the work of more than a dozen poets. From more familiar writers such as Bei Dao and Duo Duo to such emerging figures as Zhang Zhen, Bei Ling, and Chou Ping (who composes many of his poems in English), these poets characterize the vibrant reawakening of Chinese poetry. Barnstone's substantial critical introduction places the poets in their cultural, historical, and political context.

Storm Clouds over the Pacific, 1931–1941 Peter Harmsen, 2018-12-01 “An excellent primer about World War II in Asia prior to the involvement of the United States”—part one of a fascinating history trilogy (New York Journal of Books). War in the Far East is a trilogy of books offering the most complete narrative yet written about the Pacific Theater of World War II, and the first truly international treatment of the epic conflict. Historian Peter Harmsen weaves together a complex and revealing narrative, including facets of the war that are often overlooked in historic narratives. He explores the war in subarctic conditions on the Aleutians; details the mass starvations in China, Indochina, and India; and offers a range of perspectives on the war experience, from the Oval Office to the blistering sands of Peleliu. Storm Clouds Over the Pacific begins the story long before Pearl Harbor, showing how the war can only be understood if ancient hatreds and long-standing geopolitics are taken into account. Harmsen demonstrates how Japan and China's ancient enmity led to increased tensions in the 1930s, which, in turn, exploded into conflict in 1937. The battles of Shanghai and Nanjing were followed by the Battle of Taierzhuang in 1938, China's only major victory. A war of attrition continued up to 1941, the year when Japan made the momentous decision to pursue all-out war. The infamous attack on Pearl Harbor catapulted the United States into the war, as the Japanese also overran British and Dutch territories throughout the western Pacific.

Storm Over Asia Robert Karr McCabe, 1967

China World Bank, 1999 This report builds on the framework laid out in the 1997 Country Economic Memorandum, China 2020: Development Challenges in the New Century, and its companion reports, which remain largely valid. This report focuses on the near term. The difficulty of dealing with China's main macroeconomic challenge, weakened domestic demand, has been compounded by the Asia crisis and the global economic slowdown. These challenges come at a critical juncture in China's structural reform program. Unemployment and demand for social protection has increased, and corporate debt pressures are building, in line with the transition to a more market-based economy. However, the country's large and partly insulated domestic economy has inoculated it to some degree against contagion from its less fortunate neighbors. Having weathered the storm so far, China can learn lessons from other countries that have experienced difficulties and, hence, mitigate against the risk of a crisis. The major policy issue for China is how to respond to near-term growth pressures in ways that reinforce structural reform and economic development. Policymakers have to focus on pro-growth reforms that support the development of the

labor-absorbing service sector. Also, enterprise restructuring and corporate governance strengthening must remain high priorities. Finally, China needs to support structural measures that increase household demand by raising rural incomes and supporting safety net programs.

Storm Clouds Over the Pacific, 1931-1941 Peter Harmsen,2023-06-15 This book is the first volume in a trilogy that will offer a more complete account of the Pacific War than any previously published. While keeping a focus on the decade leading up to Pearl Harbor, Storm Clouds Over the Pacific goes back centuries to examine the origins of enmity between Japan and China and trace the deep animosities that drove the immensely destructive war in the Asia Pacific, exploring the love-hate relationship between East Asia's two oldest civilizations, conditioned by shifting geopolitical winds. -- Back cover.
