Paper Dolls Katherine H. Adams,Michael L. Keene,2017-11-02 Paper dolls might seem the height of simplicity--quaint but simple toys, nothing more.

But through the centuries paper figures have reflected religious and political beliefs, notions of womanhood, motherhood and family, the dictates of fashion, approaches to education, individual self-image and self-esteem, and ideas about death. This book examines paper dolls and their symbolism--from icons made by priests in ancient China to printable Kim Kardashians on the Internet--to show how these ephemeral objects have an enduring and sometimes surprising presence in history and culture.

The End of the Chinese Dream Gerard Lemos, 2012-07-30 Glossy television images of happy, industrious, and increasingly prosperous workers show a bright view of life in twenty-first-century China. But behind the officially approved story is a different reality. Preparing this book Gerard Lemos asked hundreds of Chinese men and women living in Chongqing, an industrial mega-city, about their wishes and fears. The lives they describe expose the myth of China's harmonious society. Hundreds of millions of everyday people in China are beleaguered by immense social and health problems as well as personal, family, and financial anxieties--while they watch their communities and traditions being destroyed. Lemos investigates a China beyond the foreigners' beaten track. This is a revealing account of the thoughts and feelings of Chinese people regarding all facets of their lives, from education to health care, unemployment to old age, politics to wealth. Taken together, the stories of these men and women bring to light a broken society, one whose people are frustrated, angry, sad, and often fearful about the circumstances of their lives. The author considers the implications of these findings and analyzes how China's community and social problems threaten the ambitious nation's hopes for a prosperous and cohesive future. Lemos explains why protests will continue and a divided and self-serving leadership will not make people's dreams come true.

Chinese Women Traversing Diaspora Sharon K. Hom, 2013-07-04 The contributors to this volume were born in Beijing, Shanghai, and Hong Kong; they have been immigrants, foreign students, settlers, permanent residents, citizens, and--above all--travelers. They are both geographic inhabitants of various overseas diaspora Chinese communities as well as figurative inhabitants of imagined heterogeneous and hybrid communities. Their migratory histories are here presented as an interdisciplinary collection of texts in distinctive voices: law professor, journalist, historian, poet, choreographer, film scholar, tai-chi expert, translator, writer, literary scholar.

The Storm of Our Lives Tai Van Nguyen, 2009-10-21 This memoir vividly describes the struggle of one Vietnamese family and their seven day ordeal to escape persecution from Communist Vietnam. One of more than 840,000 “boat people” to have fled the war ravaged country, the author describes his family’s epic journey and the historical, cultural, social, economic, and political problems that led to his father’s decision to take his family away from their homeland. Drawing on his Catholic faith, Nguyen attests to the hardship and dangers that confronted the family in their journey and that did not end after his father died and the five children were forced to continue alone.

Never Forget National Humiliation Zheng Wang, 2014-03-04 How could the Chinese Communist Party (CCP) not only survive but even thrive, regaining the support of many Chinese citizens after the Tiananmen Square crackdown of 1989? Why has popular sentiment turned toward anti-Western nationalism despite the anti-dictatorship democratic movements of the 1980s? And why has China been more assertive toward the United States and Japan in foreign policy but relatively conciliatory toward smaller countries in conflict? Offering an explanation for these unexpected trends, Zheng Wang

follows the Communist government's ideological reeducation of the public, which relentlessly portrays China as the victim of foreign imperialist bullying during one hundred years of humiliation. By concentrating on the telling and teaching of history in today's China, Wang illuminates the thinking of the young patriots who will lead this rising power in the twenty-first century. Wang visits China's primary schools and memory sites and reads its history textbooks, arguing that China's rise should not be viewed through a single lens, such as economics or military growth, but from a more comprehensive perspective that takes national identity and domestic discourse into account. Since it is the prime raw material for constructing China's national identity, historical memory is the key to unlocking the inner mystery of the Chinese. From this vantage point, Wang tracks the CCP's use of history education to glorify the party, reestablish its legitimacy, consolidate national identity, and justify one-party rule in the post-Tiananmen and post-Cold War era. The institutionalization of this manipulated historical consciousness now directs political discourse and foreign policy, and Wang demonstrates its important role in China's rise.

A History of Modern Tibet, volume 2 Melvyn C. Goldstein,2007-08-01 It is not possible to fully understand contemporary politics between China and the Dalai Lama without understanding what happened—and why—during the 1950s. In a book that continues the story of Tibet's history that he began in his acclaimed *A History of Modern Tibet, 1913-1951: The Demise of the Lamaist State*, Melvyn C. Goldstein critically revises our understanding of that key period in midcentury. This authoritative account utilizes new archival material, including never before seen documents, and extensive interviews with Tibetans, including the Dalai Lama, and with Chinese officials. Goldstein furnishes fascinating and sometimes surprising portraits of these major players as he deftly unravels the fateful intertwining of Tibetan and Chinese politics against the backdrop of the Korean War, the tenuous Sino-Soviet alliance, and American cold war policy.
