

Circles

James Burke

The Circles All Around Us Brad Montague,2021-05-18 The debut picture book from the creator of the viral sensation Kid President is a moving take on how we can create bigger and bigger circles of community and connections as we grow—now a New York Times bestseller! In the circles all around us, everywhere that we all go, there's a difference we can make and a love we can all show. This is the story of a circle. When we're first born, our circle is very small, but as we grow and build relationships, our circle keeps getting bigger and bigger to include family, friends, neighbors, community, and beyond. Brad Montague originally created Circles as an Instagram video adorably narrated by his kids, and now this picture book adaptation is the perfect way to start a conversation about how to expand our worlds with kindness and inclusivity—even if it seems scary or uncomfortable. This book makes an ideal new-baby, first-day-of-school, or graduation gift, or any milestone that celebrates someone's world getting bigger.

The Circles Kerry Armstrong,2008-05-06 Kerry Armstrong's The Circles is an indispensable guide Kerry Armstrong to help you sort through your feelings. Creating a spiritual journey of self-reflection, The Circles gives you the opportunity to examine -- without judgment -- how you feel about the people in your life and where they fall within your seven circles, or seven tribes. The wonderful thing about The Circles is that they are yours and yours alone, acting as a map of your heart as it is in constant motion. Learn to empower yourself and to find self-enlightenment through The Circles.

All We Can Save Ayana Elizabeth Johnson,Katharine K. Wilkinson,2021-07-20 NATIONAL BESTSELLER • Provocative and illuminating essays from women at the forefront of the climate movement who are harnessing truth, courage, and solutions to lead humanity forward. “A powerful read that fills one with, dare I say . . . hope?”—The New York Times NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SMITHSONIAN MAGAZINE There is a renaissance blooming in the climate movement: leadership that is more characteristically feminine and more faithfully feminist, rooted in compassion, connection, creativity, and collaboration. While it’s clear that women and girls are vital voices and agents of change for this planet, they are too often missing from the proverbial table. More than a problem of bias, it’s a dynamic that sets us up for failure. To change everything, we need everyone. All We Can Save illuminates the expertise and insights of dozens of diverse women leading on climate in the United States—scientists, journalists, farmers, lawyers, teachers, activists, innovators, wonks, and designers, across generations, geographies, and race—and aims to advance a more representative, nuanced, and solution-oriented public conversation on the climate crisis. These women offer a spectrum of ideas and insights for how we can rapidly, radically reshape society. Intermixing essays with poetry and art, this book is both a balm and a guide for knowing and holding what has been done to the world, while bolstering our resolve never to give up on one another or our collective future. We must summon truth, courage, and solutions to turn away from the brink and toward life-giving possibility. Curated by two climate leaders, the book is a collection and celebration of visionaries who are leading us on a path toward all we can save. With essays and poems by: Emily Atkin • Xiye Bastida • Ellen Bass • Colette Pichon Battle • Jainey K. Bavishi • Janine Benyus • adrienne maree brown • Régine Clément • Abigail Dillen • Camille T. Dungy • Rhiana Gunn-Wright • Joy Harjo • Katharine Hayhoe • Mary Annaïse Heglar • Jane Hirshfield • Mary Anne Hitt • Ailish Hopper • Tara Houska, Zhaabowekwe • Emily N. Johnston • Joan Naviyuk Kane • Naomi Klein • Kate Knuth • Ada Limón • Louise Maher-Johnson • Kate Marvel • Gina McCarthy • Anne Haven McDonnell • Sarah Miller • Sherri Mitchell, Weh’na Ha’mu Kwasset • Susanne C. Moser • Lynna Odel • Sharon Olds • Mary Oliver • Kate Orff • Jacqui Patterson • Leah Penniman • Catherine Pierce • Marge Piercy • Kendra Pierre-Louis • Varshini • Prakash • Janisse Ray • Christine E. Nieves Rodriguez • Favianna Rodriguez • Cameron Russell • Ash Sanders • Judith D. Schwartz • Patricia Smith • Emily Stengel • Sarah Stillman • Leah Cardamore Stokes • Amanda Sturgeon • Maggie Thomas • Heather McTeer Toney • Alexandria Villaseñor • Alice Walker • Amy Westervelt • Jane Zelikova

Little Book of Circle Processes Kay Pranis,2015-01-27 Our ancestors gathered around a fire in a circle, families gather around their kitchen tables in circles, and now we are gathering in circles as communities to solve problems. The practice draws on the ancient Native American tradition of a talking piece. Peacemaking Circles are used in neighborhoods to provide support for those harmed by crime and to decide sentences for those who commit crime, in schools to create positive classroom climates and resolve behavior problems, in the workplace to deal with conflict, and in social services to develop more organic support systems for people struggling to get their lives together. A title in The Little Books of Justice and Peacebuilding Series.

Circles of Adults Derek Wilson,Colin Newton,2006

Circles James Burke,2009-11-24 From the bestselling author of The Knowledge Web come fifty mesmerizing journeys into the history of technology, each following a chain of consequential events that ends precisely where it began. Whether exploring electromagnetic fields, the origin of hot chocolate, or DNA fingerprinting, these essays -- which originally appeared in James Burke's popular Scientific American column -- all illustrate the serendipitous and surprisingly circular nature of change. In Room with (Half) a View, for instance, Burke muses about the partly obscured railway bridge outside his home on the Thames. Thinking of the bridge engineer, who also built the steamship that laid the first transatlantic telegraph cable, causes him to recall Samuel Morse; which, in turn, conjures up Morse's neighbor, firearms inventor Sam Colt, and his rival, Remington. One dizzying connection after another leads to Karl Marx's daughter, who attended Socialist meetings with a trombonist named Gustav Holst, who once lived in the very house that blocks Burke's view of the bridge on the Thames. Burke's essays all evolve in this organic manner, highlighting the interconnectedness of seemingly unrelated events and innovations. Romantic poetry leads to brandy distillation; tonic water connects through Leibniz to the first explorers to reach the North Pole. Witty, instructive, and endlessly entertaining, Circles expands on the trademark style that has captivated James Burke fans for years. This unique collection is sure to stimulate and delight history buffs, technophiles, and anyone else with a healthy intellectual curiosity.

The Restorative Circles in Schools Bob Costello,Joshua Wachtel,Ted Wachtel,2010

Endless Perfect Circles Ian Walker,2020-07-27 A professional psychologist spent his entire life believing he had no ability or interest in sport. Then, in his forties, he became a champion ultradistance athlete before breaking the world record for the fastest bicycle crossing of Europe. This journey - made entirely alone and without any support crew - went from the northernmost point in the Arctic down to the very southernmost point in Spain. Averaging 377 kilometres each day and with up to 18 hours in the saddle at a time, the total distance of 6367 km was covered in well under 17 days, knocking more than two days off the previous record. It was a journey of ultimate self-reliance. Endless Perfect Circles is not just a tale of sleep deprivation and eating terrible food in supermarket car parks, it is also a celebration of how tough sporting challenges offer ordinary people a path to self-improvement. Weaving his own experiences together with psychological insights, Ian Walker demonstrates the rewards we can all find from setting ourselves difficult personal goals and working out how we will rise to meet these. When I ride, my mind is both crowded and empty. The practical part of me churns, thinking all the time about navigation, shops, food, weather and lodging, seeking information about those raw essentials of life and planning dozens of contingencies. But when I look back on any given ride, even one lasting many days, I would struggle to tell you a single thought that passed through my head, because the rest of my mind has been liberated. All of life’s needs have been simplified by the pure act of riding. About the author Ian Walker splits his time across two related worlds. By day, he is an environmental psychologist at the University of Bath, specialising in transport choices, traffic safety, energy consumption and water use. As you will see from his textbooks, he also teaches research methods and statistics at a whole range of levels from entry-level introductions up to doctoral level. Ian's professional interest in clean transport and traffic safety also extends into his personal life, where he takes part in ultradistance bicycle racing - an activity explored in his new book Endless Perfect Circles. This introduces readers to the extraordinary world of nonstop bicycle races that last for weeks at a time. It goes on to describe how Ian won a tough 4300-kilometre cycle race before breaking the Guinness World Record for the fastest ever bicycle crossing of Europe.

Circles David A. Adler,2016-07-30 Wheels, clocks and coins. Balls and buttons. Circles are everywhere, and one of the basic geometric shapes. In a book bursting with color and cheer, students can learn the fundamental properties of circles. Terms such as sector, chord and arc are clearly defined. Hands-on activities demonstrate how to find the radius, diameter, and area of a circle. With this handy and lively guide kids

can avoid spinning their wheels and get on the road to becoming geometry pros.

Collaborative Circles Michael P. Farrell,2003-11 Many artists, writers, and other creative people do their best work when collaborating within a circle of likeminded friends. Experimenting together and challenging one another, they develop the courage to rebel against the established traditions in their field. Out of their discussions they develop a new, shared vision that guides their work even when they work alone. In a unique study that will become a rich source of ideas for professionals and anyone interested in fostering creative work in the arts and sciences, Michael P. Farrell looks at the group dynamics in six collaborative circles: the French Impressionists; Sigmund Freud and his friends; C. S. Lewis, J. R. R. Tolkien, and the Inklings; social reformers Elizabeth Cady Stanton and Susan B. Anthony; the Fugitive poets; and the writers Joseph Conrad and Ford Maddox Ford. He demonstrates how the unusual interactions in these collaborative circles drew out the creativity in each member. Farrell also presents vivid narrative accounts of the roles played by the members of each circle. He considers how working in such circles sustains the motivation of each member to do creative work; how collaborative circles shape the individual styles of the persons within them; how leadership roles and interpersonal relationships change as circles develop; and why some circles flourish while others flounder.

Math Circles for Elementary School Students Natasha Rozhkovskaya,2014-11-05 The main part of this book describes the first semester of the existence of a successful and now highly popular program for elementary school students at the Berkeley Math Circle. The topics discussed in the book introduce the participants to the basics of many important areas of modern mathematics, including logic, symmetry, probability theory, knot theory, cryptography, fractals, and number theory. Each chapter in the first part of this book consists of two parts. It starts with generously illustrated sets of problems and hands-on activities. This part is addressed to young readers who can try to solve problems on their own or to discuss them with adults. The second part of each chapter is addressed to teachers and parents. It includes comments on the topics of the lesson, relates those topics to discussions in other chapters, and describes the actual reaction of math circle participants to the proposed activities. The supplementary problems that were discussed at workshops of Math Circle at Kansas State University are given in the second part of the book. The book is richly illustrated, which makes it attractive to its young audience. In the interest of fostering a greater awareness and appreciation of mathematics and its connections to other disciplines and everyday life, MSRI and the AMS are publishing books in the Mathematical Circles Library series as a service to young people, their parents and teachers, and the mathematics profession. Titles in this series are co-published with the Mathematical Sciences Research Institute (MSRI).

Circles Yusuke Yonezu,2015-04-01 This board book full of circles and clever cut-outs is a wonderful way to introduce babies and toddlers to shapes. Is it a balloon? An apple? A piece of candy or a flower? Read aloud and create a clever guessing game about shapes that will delight and stimulate the youngest readers. Circles are everywhere, and the shapes and colors found in everyday objects come to life when the pages of the book are turned. Learning shapes is a lot of fun when there are surprises involved—this die-cut board book from master artist and designer Yusuke Yonezu is full of them.

Moving Circles Disney Book Group,2010-05-04 This delightful interactive board book will delight your baby for hours of shape-learning fun, as they complete the picture with circles by moving the book around. Moving Circles invites young readers to identify circles from everyday life, including flipping pancakes, bubbles, and scoops of ice-cream.

Closing Circles Dana Januszka,Kristen Vincent,2012 Bringing the school day to a peaceful end enhances learning and reaffirms classroom community. Gather with your class for a 5- or 10-minute activity before dismissal and you'll all leave school feeling encouraged and competent. This book contains 50 easy-to-do activities for the end of the day: songs and chants, individual reflection questions, energetic cheers, silent cheers, quick partner and group chats, team or class challenges, quiet think time, and more. Use the activities as written or make them your own by adapting them to fit your students' mood or developmental needs. Handy size and spiral binding for easy classroom reference.

At Night We Walk in Circles Daniel Alarcón,2013-10-31 A breathtaking, suspenseful story of one man’s obsessive search to find the truth of another man’s downfall, from the author of The King Is Always Above the People, which was longlisted for the 2017 National Book Award for Fiction. Nelson’s life is not turning out the way he hoped. His girlfriend is sleeping with another man, his brother has left their South American country, leaving Nelson to care for their widowed mother, and his acting career can’t seem to get off the ground. That is, until he lands a starring role in a touring revival of The Idiot President, a legendary play by Nelson’s hero, Henry Nunez, leader of the storied guerrilla theater troupe Diciembre. And that’s when the real trouble begins. The tour takes Nelson out of the shelter of the city and across a landscape he’s never seen, which still bears the scars of the civil war. With each performance, Nelson grows closer to his fellow actors, becoming hopelessly entangled in their complicated lives, until, during one memorable performance, a long-buried betrayal surfaces to force the troupe into chaos. Nelson’s fate is slowly revealed through the investigation of the narrator, a young man obsessed with Nelson’s story—and perhaps closer to it than he lets on. In sharp, vivid, and beautiful prose, Alarcón delivers a compulsively readable narrative and a provocative meditation on fate, identity, and the large consequences that can result from even our smallest choices.

Circles ,2016

Around the Park Christianne C. Jones,2006 Examines circles. Take a walk through the park and see how many circles you can find.

Circles Veronica O'Leary,2013-06 Modern Tragic Love Story. Romance, Faith Suspense. Monumental revelation at conclusion. Recommended by U.S.R. Gold Seal of Literary Excellence.

Peacemaking Circles Kay Pranis,Barry Stuart,Mark Wedge,2013

Mathematical Circles Dmitry Fomin,Sergei Aleksandrovich Genkin,Dmitrii Vladimirovich Fomin,Ilia Itenberg,1996 What kind of book is this? It is a book produced by a remarkable cultural circumstance in the former Soviet Union which fostered the creation of groups of students, teachers, and mathematicians called mathematical circles. The work is predicated on the idea that studying mathematics can generate the same enthusiasm as playing a team sport - without necessarily being competitive. This book is intended for both students and teachers who love mathematics and want to study its various branches beyond the limits of school curriculum.
