The Circular Staircase Mary Roberts Rinehart,2022-08-15 The summer occupants of Sunnyside find the dead body of Arnold Armstrong, the son of the owner, on the circular staircase. Following the murder a bank failure is announced. Around these two events is woven a plot of absorbing interest.

The Wonderful Circles of Oz Ken Webster,Alex Duff,2022-07-27 With the world's economies impacted by coronavirus, billions are feeling social, environmental, and economic injustices. The call for a new, more just, more distributive economic story and system is louder and more urgent than ever. The Wonderful Circles of Oz provides both the framework and solutions for navigating towards an effective circular economy – the gateway to an abundant, autonomous, and democratic future. Widely regarded as one of the world's most engaging circular economy thought leaders, Ken Webster, together with creative writer, Alex Duff, use a storytelling approach based on The Wonderful Wizard of Oz to offer a new, accessible, and compelling narrative about the future direction of our economy. 'The harder you work, the more you'll improve your lot.' That's the simple story we've been sold over the last 40 years to justify how today's economy works. Yet extreme inequality, the devastation of our natural world, and the erosion of our communities tell us this economic story resembles a work of fiction and the way our extractive economy operates is not fit for purpose. Still a restoration narrative, a satisfying story about our future and how we'll get there, is slow to emerge. Using allegory, commentary, and reflection, this book helps speed the shift from an extractive economy of materials, energy, and finance to one based on an effective circular economy, which builds wealth as a stock of solutions accessible to all. The Wonderful Circles of Oz goes beyond tired debates (capital vs labour and market vs state) and blends fiction and non to effectively communicate the need for macro-economic system redesign. Exploring complex change and containing echoes of modern monetary theory, this book is a must for business professionals, students, and anyone with an interest in the circular economy.

The Boy and the Airplane Mark Pett,2013-04-02 A wordless picture book in which a boy comes up with an inventive solution for getting his toy airplane down from the roof.

Edison Edmund Morris,2019 From Pulitzer Prize-winning author Morris comes a revelatory new biography of Thomas Alva Edison, the most prolific genius in American history.

Only Revolutions Mark Z. Danielewski,2006 Moving back and forth in American history, a kaleidoscopic novel follows Hailey and Sam, two wayward teenagers, as they crash New Orleans parties, barrel up the Mississippi, head through the Badlands, and take on other adventures.

Circular Narratives in Modern European Literature Juan Luis Toribio Vazquez,2022-06-16 Breaking with linearity – the ruling narrative model in the Jewish-Christian tradition since the ancient world – many 20th-century European writers adopted circular narrative forms. Juan Luis Toribio Vazquez shows this trend was not a unified nor conscious movement, but rather a series of works arising sporadically in different countries at different times, using a variety of circular structures to express similar concerns and ideas about the world. This study also shows how the renewed understanding of narrative form leading to this circular trend was anticipated by Nietzsche's critiques of truth, knowledge, language and metaphysics, and especially by his related discussions of nihilism and the eternal recurrence. Starting with an analysis of the theory and genealogy of linear narrative, the author charts the emergence of Nietzsche's idea of eternal return, before then turning to the history of the circular narrative trend. This history is explored from its inception, in the works of August Strindberg,

Gertrude Stein and Azorín; through its development in the interwar years, by writers such as Raymond Queneau and Vladimir Nabokov; to its full flowering in the work of authors James Joyce or Samuel Beckett, among others; and its later employment by post-war writers, including Alain Robbe-Grillet, Italo Calvino and Maurice Blanchot. Through a series of close readings, the book aims to highlight the various ways in which narrative circularity serves to break with an essentially teleological and theological thinking. Finally, Toribio Vazquez concludes by proposing a new typology of non-linear narratives, which builds on the work of recent narratologists.

Circular Design for Fashion ELLEN MACARTHUR FOUNDATION. PUBLISHING,2021-12 At heart, this book aims to inspire fearless innovators committed to spearheading the future of fashion. It is for all of us looking to make a positive impact in an industry that we love and care about. It is increasingly acknowledged that the practice of design is not exclusive to designers, nor is it found only in studios. The materials, garments, services, shows, supply chains and stores that make up the fashion industry all work the way they do because of innumerable design decisions, made by creatives all over the world. Circular design goes far beyond rethinking single products or services, it has the potential to redefine how the entire fashion system operates. It's a chance for anyone in the fashion industry - regardless of job title - to support the shift to a circular economy where, by design, waste and pollution are eliminated, products and materials are circulated, and nature is regenerated. Circular design is a pioneering practice of design. It is the creative opportunity of the coming decade for the creatives, innovators, and pioneers who seek to reshape the fashion industry.

When the reclusive owner of a distinguished house is found dead inside the circular study, Gryce knows a complex web of passion and rage must run straight to the heart of the motive. And with the help of an ambitious young cop and the infamous Amelia Butterworth, this tale of betrayal and revenge seems ripe for the picking. But with one lonesome bird singing his heart out, can Gyrce crack the cryptic code and locate the killer? Book 9 in the 'Ebenezer Gryce' series, 'The Circular Study' weaves a rip-roaring tale of murder and deceit, celebrated today as one of the 'Ninety Classics of Crime Fiction'. Ideal for fans of Benedict Cumberbatch's 'Sherlock'. One of the first writers of detective fiction, Anna Katharine Green (1846-1935) was an American poet and novelist. Born in Brooklyn New York, her bestselling 'Ebenezer Gryce' series explores the trials and tribulations of the much-loved detective Gryce of the New York Metropolitan Police. Celebrated as popularising the detective genre a decade before Arthur Conan Doyle's 'Sherlock Holmes' mysteries, Green is remembered today as 'the mother of the detective novel'.

100 Essays I Don't Have Time to Write Sarah Ruhl,2014-09-02 100 Essays I Don't Have Time to Write is an incisive, idiosyncratic collection on life and theater from major American playwright Sarah Ruhl. This is a book in which chimpanzees, Chekhov, and child care are equally at home. A vibrant, provocative examination of the possibilities of the theater, it is also a map to a very particular artistic sensibility, and an unexpected guide for anyone who has chosen an artist's life. Sarah Ruhl is a mother of three and one of America's best-known playwrights. She has written a stunningly original book of essays whose concerns range from the most minimal and personal subjects to the most encompassing matters of art and culture. The titles themselves speak to the volume's uniqueness: On lice, On sleeping in the theater, On motherhood and stools (the furniture kind), Greek masks and Bell's palsy.

A Storybook Life Philip-Lorca DiCorcia,2003 The disparate photographs assembled here were made over the course of twenty years. None of them were originally intended to be used in this book. By ordering and shaping them I tried to investigate the possibilities of narrative both within a single image and especially in relation to the other photographs. *A Storybook Life* is an attempt to discover the possibilities of meaning in the interaction of seemingly unrelated images in the hope that content can constantly mutate according to both the external and internal condition of the viewer, but remain meaningful because of it's inherent, but latent content. The conscious and subconscious decisions made in editing the photographs is the real work of *A Storybook Life*. Phillip-Lorca diCorcia Phillip-Lorca diCorcia's pictures remind us, among other things, that we are each our own little universe of secrets, and vulnerable. Good art makes you see the world differently... wrote Michael Kimmelman in the New York Times. In the seventy odd pictures collected here by the artist the veracity of Mr. Kimmelman's observations is clearly apparent. We find ourselves landing somewhere in the story when we view these pictures, each of which is a clue and a cipher to the method and madness of *A Storybook Life*.

Tottie and Dot Tania McCartney,2015-03-17 Tottie and Dot are two little girls who live side by side. Life is very peaceful until one day the girls begin competing with each other to create the best house. As the story unfolds, jealousy takes hold and their competitive spirit gets increasingly out of control until ultimately, things collapse in a disastrous heap. Will Tottie and Dot realize the importance of their friendship before it's too late? Each girl's house is shown over a series of exquisitely illustrated double- page spreads - Tottie on the left and Dot on the right. The detailed illustrations perfectly complement the simple story line and will provide children aged 4-7 with hours of entertainment, as well as a valuable life lesson!

The Shortest Way to Hades Sarah Caudwell, 2023-04-04 Inheritance becomes deadly in this gripping literary puzzle—the second installment of the Hilary Tamar mysteries that began with *Thus Was Adonis Murdered*. “Sarah Caudwell is one of my very favorite mystery writers.”—A. J. Finn, *New York Times* bestselling author of *The Woman in the Window* Die first, pay later. It seemed the perfect way to avoid three million in taxes on a five-million-pound estate: change the trust arrangement. Everyone in the family agreed to support the heiress, the ravishing raven-haired Camilla Galloway, in her court petition—except dreary Cousin Deirdre, who suddenly demanded a small fortune for her signature. Then Deirdre had a terrible accident. That was when the young London barristers handling the trust—Cantrip, Selena, Timothy, Ragwort, and Julia—summoned their Oxford friend Professor Hilary Tamar to Lincoln’s Inn. Julia thinks it’s murder. Hilary demurs. Why didn’t the heiress die? But when the accidents escalate and they learn of the naked lunch at Uncle Rupert’s, Hilary the Scholar embarks on the most perilous quest of all: the truth. Don’t miss any of Sarah Caudwell’s riveting Hilary Tamar mysteries: **THUS WAS ADONIS MURDERED • THE SHORTEST WAY TO HADES • THE SIRENS SANG OF MURDER • THE SIBYL IN HER GRAVE**

God Is Not a Story Francesca Aran Murphy, 2007-07-19 This is a challenging critique of narrative theologies. Murphy argues that the widespread notion that the role of the theologian is to 'tell God's story' has not helped theology to advance the reality of its doctrines. She offers her own alternative approach, making use of cinema and film theory.
