Troia and the Troad Günther A. Wagner,Ernst Pernicka,Hans-Peter Uerpmann,2013-03-09 It is my pleasure to welcome you here on the occasion of the International Symposium, Landscape Troia between Earth History and Culture. The topic Troia has stimulated many scientists, historians and experts in the history of arts to interpret data and adjust concepts regarding the development of early Troia. In the past two decades the Heidelberg Academy of Sciences and Humanities has supported several research activities which are related to the Troia project. One of the aims of the archaeometry laboratory is to localize Aegean and Anatolian sources for the procurement of prehistoric metals such as gold, silver, lead, copper and tin. In particular in the Troad, numerous mining and smelting sites have been found and characterized, allowing one to investigate to which extent they might have been exploited by the ancient Troians. When analytically comparing ores and slags with Troian metal artifacts, early trade connections can be traced. The landscape around Troia underwent rather fast and drastic changes.

The Man of Genius Cesare Lombroso,1896

Research Methods for the Digital Humanities lewis levenberg,Tai Neilson,David Rheams,2018-11-04 This volume introduces the reader to the wide range of methods that digital humanities employ, and offers a practical guide to the study, interpretation, and presentation of cultural material and practices. In this instance, the editors consider digital humanities to include both the use of computing to understand cultural material in new ways, and the application of theories and methods from the humanities to interpret new technologies. Each chapter provides a step-by-step guide to cutting-edge methodologies so that students can make informed decisions about the methods they use, consider ethical practices, follow practical procedures, and present their work effectively. Readers will develop practical and reflexive understandings of the software and digital devices that they study and use for research, and the book will help new researchers collaborate and contribute to their scholarly communities, and to public discourse. As contemporary humanities work becomes increasingly interdisciplinary, and increasingly permeated by and with digital technologies, this volume helps new researchers navigate an evolving academic environment. Humanities and social sciences students will find this textbook an invaluable resource for assessing and creating digital projects.

Philosophy Here and Now Lewis Vaughn,2021-06 Philosophy Here and Now: Powerful Ideas in Everyday Life, Fourth Edition, is a topically organized hybrid text/reader that helps students understand, appreciate, and even do philosophy. The book emphasizes philosophical writing, reinforced with step by step coaching in how to write argumentative essays and supported by multiple opportunities to hone critical thinking. It shows students how philosophy applies to their own lives and brings the subject to life with engaging chapter ending literary selections, abundant illustrations, and a wealth of pedagogical features--

Animal Heroes Anthony Hill,2017-04-03 In Darwin in 1942, Gunner’s barking alerted an entire army base of impending air raids, well before the enemy planes appeared on radar. Following an ambush, Sarbi the explosive detection dog was held captive by the Taliban for over a year, before heading home a hero. And when 135000 horses left Australia for the First World War, why was General Bridges’ charger Sandy the only one to return home? Drawing from first-hand sources and interviews with those who were there, Anthony Hill brings to life the loyalty and courage of these animals, and the love their soldiers felt for them. From the donkeys that carried the wounded at Gallipoli to the dolphins that hunted underwater mines in Iraq, these animal heroes are at the heart of some of the most remarkable stories in Australia’s military history. This fully revised and updated edition features inspiring true stories of heroism and sacrifice, many of them never told before.

The Annenbergs John E. Cooney,1982 This is the colorful and dramatic biography of two of America's most controversial entrepreneurs: Moses Louis Annenberg, 'the racing wire king, ' who built his fortune in racketeering, invested it in publishing, and lost much of it in the biggest tax evasion case in United States history; and his son, Walter, launcher of TV Guide and Seventeen magazines and former ambassador to Great Britain.--Jacket.
