Storm Chaser Mike Olbinski,2017-02-19 “Olbinski chases storms . . . capturing lightning, tornadoes and dramatic cloud formations in images that convey the awesome power and beauty of nature.” —International Business Times The storms that cross the Great Plains of North America each spring are some of nature’s most spectacular. They can also be some of the most dangerous. Most people who live in areas susceptible to these storms keep a close eye on the weather reports and take cover or evacuate when one is on the way. Storm chasers keep an even closer eye on the weather data, but for a different reason: they don’t run away when they see a storm approaching, they follow it! Professional photographer and Emmy Award winner, Mike Olbinski has chased storms throughout his native Arizona, as well as even further afield, including Texas, Oklahoma, Kansas, and Colorado. Whether he’s photographing lightning, tornadoes or even cloud formations, his remarkable images are able to convey nature in its most dramatic and impressive forms. With over 100 stunning colour photographs, this book brings together some of Mike’s most breathtaking images from the past five years as he describes his love of the open road and the thrill of capturing the perfect storm on film. “These pictures are truly fascinating; they show just how small we are and how little control we have over the environment and that these storms can pack a wallop. For fans of weather and spectacular photos, this is the book for you.” —San Francisco Book Review (5-star review) “A striking series of breath-taking pictures of nature lashing out from apocalyptic skies.” —Daily Mail Online

Creative Curriculum KS2 Lois Johnson,2012-09-12 Creative Curriculum, teaching across the curriculum using a story, is a flexible series of resources aimed at encouraging a more creative and cross-curricular approach to teaching. By putting a story at the centre of learning a stimulus is provided to a range of learning opportunities, thus increasing children's understanding and adding fun and enjoyment to the lesson. Teachers are provided with practical ways to incorporate the story in a range of cross-curricular activities. Lights in the Night, in the Creative Curriculum series is aimed at KS2 children and contains an adventure story about friendship and perseverance. The book contains: Fully illustrated story, Units covering Literacy, Numeracy, Science, PSHE, Art and Design and Music, Dance and Drama, Worksheets, Planning Sheets. A set of illustrations without text for the children to tell the story in their own words.

Storm Chaser David Mayhew,2017-08-15 The beauty of the sky is beyond comprehension. Never the same twice, it makes for unique images that depict a fleeting moment in time. In this book, David Mayhew strives to show the full array of Mother Nature’s moods from the color palette and limitless textures that are conjured up. Forecasting for skies, night or day, is as much an art as a science since weather is a living ecosystem, forever evolving. Adapting to its whim, David drifts wherever the wind carries him, feeling out the best light in order to capture an image that ideally depicts sensational displays of beauty. Mayhew’s photographs show the dramatic skies of tornadic storms and severe weather, the serenity of a sunset, the fascination of unique formations clouds can conjure up, and the mystery of the mesmerizing northern lights. If the purpose of art is to create an emotional response in the viewer, then surely readers will see why the skies are his muse. -- David Mayhew

Shelter in a Time of Storm Jelani M. Favors,2019-02-08 2020 Museum of African American History Stone Book Award 2020 Lillian Smith Book Award Finalist, 2020 Pauli Murray Book Prize For generations, historically Black colleges and universities (HBCUs) have been essential institutions for the African American community. Their nurturing environments not only provided educational advancement but also catalyzed the Black freedom struggle, forever altering the political destiny of the United States. In this book, Jelani M. Favors offers a history of HBCUs from the 1837 founding of Cheyney State University to the present, told through the lens of how they fostered student activism. Favors chronicles the development and significance of HBCUs through stories from institutions such as Cheyney State University, Tougaloo College, Bennett College, Alabama State University, Jackson State University, Southern University, and North Carolina A&T. He demonstrates how HBCUs became a refuge during the oppression of the Jim Crow era and illustrates the central role their campus communities played during the civil rights and Black Power movements. Throughout this definitive history of how HBCUs became a vital seedbed for politicians, community leaders, reformers, and activists, Favors emphasizes what he calls an unwritten second curriculum at HBCUs, one that offered students a grounding in idealism, racial consciousness, and cultural nationalism.
