Banned Books DK,2022-08-30 Immerse yourself in the stories behind the most shocking and infamous books ever published! Censorship of one form or another has existed almost as long as the written word, while definitions of what is deemed “acceptable” in published works have shifted over the centuries, and from culture to culture. Banned Books explores why some of the world’s most important literary classics and seminal non-fiction titles were once deemed too controversial for the public to read – whether for challenging racial or sexual norms, satirizing public figures, or simply being deemed unfit for young readers. From the banning of All Quiet on the Western Front and the repeated suppression of On the Origin of the Species, to 1984, Fahrenheit 45, Catcher in the Rye and Huckleberry Fin, this must-have volume examines the astonishing role that some banned books have played in changing history. Packed with eye-opening insights into the history of the written word, and the political and social climate during the period of suppression or censorship, this is a must-read for anyone interested in literature; creative writing; politics; history or the law. Delve into this compelling collection of the world’s most controversial books to discover: - Covers a broad range of genres and subject areas in fiction and non-fiction, ranging from Alice’s Adventures in Wonderland to Spycatcher - Offers informative insights into society, politics, law, and religious beliefs, in different countries around the world - Features images of first editions and specially commissioned illustrations of the books’ authors - Includes extracts from the banned books along with key quotations about them - Completely global in scope A must-have volume for avid readers and literary scholars alike, alongside those with an interest in the law, politics and censorship, Banned Books profiles a selection of the most infamous, intriguing and controversial books ever written, whilst offering a unique perspective on the history of the written word, with insights into the often surprising reasons books have been banned throughout history and across the world. Whether as a gift or self-purchase, this brilliant book is a must-have addition to the library of curious thinkers, borrowers and lifelong learners. If you enjoy Banned Books, then why not try Great Loves - the first title in DK’s quirky new hardback series, full of insightful and intriguing topics.

Business goals and social commitment. Shaping organisational capabilities. — Colombia’s Fundación Social, 1984-2011 Dávila Ladrón de Guevara, José Camilo,Dávila Ladrón De Guevara, Carlos,Grisales Rincón, Lina Aceneth,Schnarch González, David,2013-11-01 Corporations, business groups and other business organizations are increasingly concerned about social challenges that directly impact the future of capitalism. Colombia s Fundación Social (FS) a century-old Latin American business group has from its start operated under two different but closely intertwined rationales: as a market, profit-seeking player; and as a civil society organization practicing solidarity. Social aims are at the core of FS mission, and business firms are instrumental. Remarkably, despite decades of growth as a ranking business group, FS underlying objective remained grounded in concern for the poor: To fight the structural causes of poverty.

Enciclopedia Akal de Emblemas Españoles Ilustrados Antonio Bernat Vistarini,John T. Cull,Edward John Vodoklys,1999-05-27 La obra contiene, extractados, todos los libros de emblemas que se publicaron en español durante los siglos XVI y XVII. Se trata de un material de difícil acceso que de este modo se pone a disposición del lector, ya sea investigador o mero aficionado a la riquísima cultura simbólica cifrada en el género de la literatura emblemática. El libro se presenta en primera instancia como índice alfabético de los motivos iconográficos principales presentes en cada emblema. Pero, además, se podrá acceder a los emblemas mediante búsquedas realizadas a partir de los índices complementarios: de autores, lemas, fuentes y claves temáticas, aparte de los motivos iconográficos secundarios. Completa el volumen un glosario terminológico y de personajes que ayuda a la comprensión de los significados. El desarrollo de los estudios de emblemática en el ámbito internacional (existe una extensa Society for Emblem Studies) ha hecho aconsejable introducir traducción al inglés de los campos de información más relevantes. Y las ventajas que proporcionan las nuevas tecnologías han sido aprovechadas con la incorporación de un CD-ROM (ejecutable por igual en los sistemas Macintosh y PC)

que agiliza la combinación de búsquedas complejas. Tanto el CD-ROM como el libro reproducen los grabados de los 1.732 emblemas estudiados.

**Apicultura: Conocimiento de la abeja. Manejo de la colmena (4ª ed.)** Pierre Jean-Prost,2007-01-01 En esta 7ª edición, revisad y actualizada ( 4ª edición española). Yves Le Conte toma el relevo del padre de este clásico, Pierre Jean-Prost. En ella encontramos los ingredientes que han creado la reputación de las anteriores versiones, así como los recientes avenes y los nuevos elementos en materia apícola. Ricamente ilustrada, sintética y completa, esta obra ha sido concebida tanto para los profesionales como para los apasionados deseosos de lanzarse a la aventura de los colmenares. Junto con dibujos naturalista y fotos, y dando explicaciones teóricas y consideraciones prácticas, los autores nos conducen, a través de los 21 capítulos, a la gestión de un enjambre, iniciándonos en las diferentes técnicas apícolas y en la lucha contra las enfermedades (especialmente la varroasis, azote de las colmenas), sin olvidar las nociones económicas esenciales para el buen funcionamiento de una explotación.

*European Film Theory and Cinema* Ian Aitken,2001 European Film Theory and Cinema explores the major film theories and movements within European cinema since the early 1900s. An original and critically astute study, it considers film theory within the context of the intellectual climate of the last two centuries. Ian Aitkin focuses particularly on the two major traditions that dominate European film theory and cinema: the intuitionist modernist and realist tradition and the post-Saussurian tradition. The first originates in a philosophical lineage that encompasses German idealist philosophy, romanticism, phenomenology, and the Frankfurt School. Early intuitionist modernist film culture and later theories and practices of cinematic realism are shown to be part of one continuous tradition. The post-Saussurian tradition includes semiotics, structuralism, and post-structuralism.

The Cinema of Víctor Erice Linda C. Ehrlich,2007-02-01 This anthology examines the aesthetic, historical, and sociological forces at work in Victor Erice's films and includes an extensive interview with the director. This broad array of writings provides insight into not only three unforgettable films but also into 20th-century Spanish society, as well as world cinema. The Cinema of Víctor Erice will serve as an important resource to measure the career of this director who—along with Buñuel, Saura, and Almodóvar—has helped show the world the creative range of Spanish cinema.

**The Routledge Encyclopedia of Films** Sabine Haenni,Sarah Barrow,John White,2014-09-15 The Routledge Encyclopedia of Films comprises 200 essays by leading film scholars analysing the most important, influential, innovative and interesting films of all time. Arranged alphabetically, each entry explores why each film is significant for those who study film and explores the social, historical and political contexts in which the film was produced. Ranging from Hollywood classics to international bestsellers to lesser-known representations of national cinema, this collection is deliberately broad in scope crossing decades, boundaries and genres. The encyclopedia thus provides an introduction to the historical range and scope of cinema produced throughout the world.

*New Approaches to the Archaeology of Beekeeping* David Wallace-Hare,2022-02-17 17 papers take a holistic view of beekeeping archaeology (including honey, wax, associated products, hive construction, and trade) in one large interconnected geographic region, the Mediterranean, central Europe, and the Atlantic Façade. The book serves as a handbook for current and future researchers considering the archaeology of beekeeping.

*War, Revolution and Remembrance in World Cinema* Nancy J. Membrez,2021-05-15 Two World Wars engulfed Europe, Asia and the United States, leaving indelible scars on the landscape and survivors. The trauma of civil wars in Spain (declared) and Latin America (tacit) spanned decades yet, contradictorily, bind parties together even today. Civil wars still haunt Africa where, in more recent years, ethnic cleansing has led to wholesale genocide. Drawing on the emerging field of Memory Studies, this book examines narrative and documentary films, made far from Hollywood, that address memory--both traumatic and nostalgic--surrounding these conflicts, despite attempts by special interests to erase or manipulate history.
