COLORFULL Sruthi Mahima M,2023-12-23 We deal with a multitude of color hues in our daily life. Red means romance. White denotes peace. Orange symbolizes the sunrise as amber. Green for Nature. Blue of the water and sky, brown of the soil, pink of blossoms, etc,. Do you know each color can impact the human

mind? Every color will speak to us. They symbolize something, some hidden meaning. Black is the night sky which denotes the absence of light. Unlike white and other hues, pure black can exist in nature without any light at all. Some consider white to be a colour, because white light comprises all hues on the visible light spectrum. ... But in a technical sense, black and white are not colours, they're shades. This book deals with a variety of colours and how they can bring impactful results in human life. There is a colour code for every human soul. What's the colour of your soul? Interesting! Then dive into this book of colours! I welcome you all to taste the essence of colours we experience around us. Multiple versions of colourful feelings have been penned by all our co-authors.
