Sperm Counts Lisa Jean Moore, 2008-10-01 2007 Choice Outstanding Academic Title Winner of the Passing the Torch Award from the Center for Lesbian and Gay Studies. It has been called sperm, semen, seed, cum, jizz, spunk, gentlemen's relish, and splooge. But however the "tacky, opaque liquid that comes out of the penis" is described, the very act of defining "sperm" and "semen" depends on your point of view. For Lisa Jean Moore, how sperm comes to be known is based on who defines it (a scientist vs. a defense witness, for example), under what social circumstances it is found (a doctor's office vs. a crime scene), and for what purposes it will be used (in vitro fertilization vs. DNA analysis). Examining semen historically, medically, and culturally, Sperm Counts is a penetrating exploration of its meaning and power. Using a "follow that sperm" approach, Moore shows how representations of sperm and semen are always in flux, tracing their twisting journeys from male reproductive glands to headline news stories and presidential impeachment trials. Much like the fluid of semen itself can leak onto fabrics and into bodies, its meanings seep into our consciousness over time. Moore's analytic lens yields intriguing observations of how sperm is "spent" and "reabsorbed" as it spurts, swims, and careens through penises, vaginas, test tubes, labs, families, cultures, and politics. Drawn from fifteen years of research, Sperm Counts examines historical and scientific documents, children's "facts of life" books, pornography, the Internet, forensic transcripts and sex worker narratives to explain how semen got so complicated. Among other things, understanding how we produce, represent, deploy and institutionalize semen-biomedically, socially and culturally provides valuable new perspectives on the changing social position of men and the evolving meanings of masculinity. Ultimately, as Moore reveals, sperm is intimately involved in not only the physical reproduction of males and females, but in how we come to understand ourselves as men and women.

The Sperm Donor's Daughter Kathryn Trueblood, 2016-03-15 When twenty-year-old Jess discovers that her mother has woven their family history from lies, she begins searching for her sperm donor daddy. Confessions of a Human Sperm R.S. Jeyendran, 2013-05-08 Throughout history, mankind has wondered about its origin - where he came from and how he got here. "Where did I come from?" is one of the first questions our own children ask us. But the real question should be 'What are mankind's building blocks'? For posterity's sake, the answer is sperm! Rather than giving the female egg all the credit, as is usually the case, let's shine the light on this silent, unsung hero - the sperm - shall we? So to the question 'What came first, the chicken or the egg?' we can unequivocally state Who Cares! Because without sperm, there would be no question to ask now, would there? Being the author and merely a man, I thought it more apropos to go to an actual source for the truth. So to that end, I found one who will walk and talk you through all you need to know about sperm, including things you never knew were possible along with those amazing things you might have heard but wondered if they were really true. And even though you are a human and will be getting your story from a human sperm, s/he will even throw in tidbits about some of your animal friends for comparison purposes. So, come and meet the little guy who will tell you all you need to know.

Mother's Rejection Ester S. Sullivan, 2011-12-15 This book was written because if I can save just one baby from having to go through or having the experience that I had as a child; it will be worth it. My goal is to get the child-bearing female to stop and think and be honest with themselves. To think about what color really means to them and their family. Will the child or children be able to receive the love they deserve? That the female choose a male that she wants her babies to look just like him. We all know that all babies are beautiful and ready to learn, receive love, and give love. I am sharing what I went through as a child some good experiences and some not so good. Over all I was blessed in many ways, I just did not have a normal childhood; I had to grow up too fast. And there were times when there was just myself and God and no one else on earth that cared. But as you see God was all that I needed.
