Colour Films in Britain Sarah Street,Keith M. Johnston,Paul Frith,Carolyn Rickards,2021-11-18 The story of Eastmancolor's arrival on the British filmmaking scene is one of intermittent trial and error, intense debate and speculation before gradual acceptance. This book traces the journey of its adoption in British Film and considers its lasting significance as one of the most important technical innovations in film history. Through original archival research and interviews with key figures within the industry, the authors examine the role of Eastmancolor in relation to key areas of British cinema since the 1950s; including its economic and structural histories, different studio and industrial strategies, and the wider aesthetic changes that took place with the mass adoption of colour. Their analysis of British cinema through the lens of colour produces new interpretations of key British film genres including social realism, historical and costume drama, science fiction, horror, crime, documentary and even sex films. They explore how colour communicated meaning in films ranging from the Carry On series to Monty Python's Life of Brian (1979), from Lawrence of Arabia (1962) to A Passage to India (1984), and from Goldfinger (1964) to 1984 (1984), and in the work of key directors and cinematographers of both popular and art cinema including Nicolas Roeg, Ken Russell, Ridley Scott, Peter Greenaway and Chris Menges.

Moscow, 1937 Karl Schlögel,2014-01-08 Moscow, 1937: the soviet metropolis at the zenith of Stalin's dictatorship. A society utterly wrecked by a hurricane of violence. In this compelling book, the renowned historian Karl Schlögel reconstructs with meticulous care the process through which, month by month, the terrorism of a state-of-emergency regime spiraled into the 'Great Terror' during which 1 1⁄2 million human beings lost their lives within a single year. He revisits the sites of show trials and executions

and, by also consulting numerous sources from the time, he provides a masterful panorama of these key events in Russian history. He shows how, in the shadow of the reign of terror, the regime around Stalin also aimed to construct a new society. Based on countless documents, Schlögel's historical masterpiece vividly presents an age in which the boundaries separating the dream and the terror dissolve, and enables us to experience the fear that was felt by people subjected to totalitarian rule. This rich and absorbing account of the Soviet purges will be essential reading for all students of Russia and for any readers interested in one of the most dramatic and disturbing events of modern history.

The Story of Men's Underwear Shaun Cole,2012-05-08 Men's fashion, particularly the trends involving undergarments, was once reserved for the elite; today it has become democratised, clear proof of social progress. The aestheticism of the body so highly valued by the Greeks seems to have regained a prominent place in the masculine world. Mirroring the evolution of society's values, the history of underwear also highlights the continuous, dancing exchange that exists between women's styles and men's fashion. Undergarments are concealed, flaunted, stretched or shortened, establishing a game between yesterday's illicit and today's chic and thereby denouncing the sense of disgrace that these simple pieces of clothing used to betray. In this work, Shaun Cole endeavours to re-establish for the first time, through well-researched socio-economic analysis, the importance of men's underwear in the history of costume from ancient times to today. A reflection of technological progress, this study is full of surprises and powerful reflections on man's relationship with his body.

Floating Through France (revised and updated) Brenda Davison,

Minion or Master Martin Smith,2013-10-08 Minion or Master is a fast paced thriller set in 1966 that interweaves different story lines and characters leaving the reader in suspense as each section ends until the final conclusion. The story subtly develops the Minion or Master concept whilst exploring relationships between father and son, pimp and prostitute, gang leaders and gang members, civil servant and business man as well as romantic involvement. George Howden, a young inexperienced businessman working in Bermuda is forced by circumstance to try to defeat a prostitution and drugs gang in New York. His business involvement with the ship "Ocean Star" makes him an accessory in smuggling chrome ore out of Africa and smuggling armaments for terrorists into Africa. George gets involved with a number of believable well drawn characters who are mixed up with murder, sex, blackmail, government power politics, drug smuggling, drug dependency and romance. The story describes how he and others build relationships to last a lifetime and how some get destroyed. The action starts in Africa and moves seamlessly between Bermuda, New York, and the Atlantic Ocean. Minion or Master is the first in a series of thrillers featuring George Howden and Adrian Cuthbert covering the late twentieth and early twenty first centuries.

On the Line Eileen Edwards,2016-10-14 'ON THE LINE' is a detailed

autobiography written by Eileen Edwards about her tennis officiating career, presented almost in diary format over four decades from 1972. Eileen tells of her initial interest in tennis when, in 1987, she joined the British Tennis Umpires Association (BTUA). This game, set and match narrative continues through until 2012 with the Association of British Tennis Officials (ABTO) as a top tennis official and having served as a member of the Committee of Management. Eileen wrote everything down with meticulous detail throughout her distinguished officiating career, reminiscing details of matches she officiated, including pro-celebrity tournaments and several conversations with officials, players, royalty, celebrities and her beloved, Cliff Richard. What you do find in this book is a very revealing account of the tennis officiating industry. You also get the distinct feeling that writing the book was actually cathartic for Eileen, putting her concerns to print and righting some wrongs with those within the industry. Her book reads like the history of British tennis over the last four decades, and it is a revealing account of the camaraderie, favouritism, in-fighting and back-biting within the tennis association. Sadly, Eileen's exceptional and eventful career was tinged with bitterness and seems sad that her fantastic experiences and years of devotion to the tennis association would end in such a way. There are stories she tells that will shock you. However, with her three children, also as top tennis officials, there are plenty of amusing stories Eileen tells that will make you laugh and even the odd words with her and her children's wonderful sense of humour and fun. This book is a really interesting read for any tennis aficionado.
