The Nine Unknown Talbot Mundy,2021-07-28 The Nine Unknown Men are a fictional secret society founded by the Mauryan Emperor Asoka around 270 BC to preserve and develop

knowledge that would be dangerous to humanity if it fell into the wrong hands. The nine men are embodiment of good and face up against nine Kali worshippers, who sow confusion and masquerade as the true sages. The story surrounds a priest called Father Cyprian who is in possession of the books but who wants to destroy them out of Christian piety, and a number of other characters who are interested in learning their contents. The nine books entrusted to the Nine Unknown contain information on (1) Propaganda and Psychological warfare, (2) Physiology, including secrets concerning the touch of death, (3) Microbiology, (4) Alchemy, (5) Communication, including communication with extraterrestrials, (6) Gravity, and anti-gravity devices (Vimanas, mythological flying machines of ancient India), (7) Cosmology, including hyperspace and time-travel, (8) Light, and a technology capable of modifying the speed of light and (9) Sociology, including rules predicting the rise and fall of empires.

A Midwife's Tale Laurel Thatcher Ulrich, 2010-12-22 PULITZER

PRIZE WINNER • Drawing on the diaries of one woman in eighteenth-century Maine, A truly talented historian unravels the fascinating life of a community that is so foreign, and yet so similar to our own (The New York Times Book Review). Between 1785 and 1812 a midwife and healer named Martha Ballard kept a diary that recorded her arduous work (in 27 years she attended 816 births) as well as her domestic life in Hallowell, Maine. On the basis of that diary, Laurel Thatcher Ulrich gives us an intimate and densely imagined portrait, not only of the industrious and reticent Martha Ballard but of her society. At once lively and impeccably scholarly, *A Midwife's Tale* is a triumph of history on a human scale.

Moocs and Open Education Mimi Miyoung Lee, Curtis J. Bonk, Thomas H. Reynolds, 2015-07 In April of 2001, the president of MIT, Charles Vest, announced the establishment of a project for placing MIT course contents on the Web for free access by anyone with an Internet connection. In effect, this announcement started the OpenCourseWare (OCW) movement. Since that time, open educational resources (OER) and more recently massive open online courses (MOOCs) have proliferated. A flurry of research reports, books, programs, announcements, debates, and

conferences related to MOOCs and open education have encouraged educators to reflect on how these new forms of educational delivery might enhance or even transform education. As part of this global movement, the four editors of this special issue, Mimi Lee, Curt Bonk, Tom Reynolds, and Tom Reeves, organized a one-day preconference symposium on this topic at the International E-Learn Conference in Las Vegas in October 2013. One direct result of that event is this special issue of the International Journal on E-Learning (IJEL), which contains highly informative and important papers related to the present and future of MOOCs and Open Education around the globe.

Necessary People Anna Pitoniak,2019-05-21 A propulsive, chilling novel exploring the dangerous fault lines of female friendships (Lee Child), *Necessary People* deftly plumbs the limits of ambition, loyalty, and love. One of them has it all. One of them wants it all. But they can't both win. Stella and Violet are best friends, and from the moment they met in college, they knew their roles. Beautiful, privileged, and reckless Stella lives in the spotlight. Hardworking, laser-focused Violet stays behind the scenes, always ready to clean up the mess that Stella inevitably leaves in her

wake. After graduation, Violet moves to New York and lands a job in cable news, where she works her way up from intern to assistant to producer, and to a life where she's finally free from Stella's shadow. In this fast-paced world, Violet thrives, and her ambitions grow -- but everything is jeopardized when Stella, envious of Violet's new life, uses her connections, beauty, and charisma to get hired at the same network. Stella soon moves in front of the camera, becoming the public face of the stories that Violet has worked tirelessly to produce -- and taking all the credit. Stella might be the one with the rich family and the right friends, but Violet isn't giving up so easily. As she and Stella strive for success, each reveals just how far she'll go to get what she wants -- even if it means destroying the other person along the way. I literally couldn't stop reading. -- Stephen King

The Expedition of the Donner Party and Its Tragic Fate Eliza Poor Donner Houghton, 1911 Eliza Houghton (b. 1843) was the

youngest child of George Donner, one of two Springfield, Illinois, brothers who organized the ill-fated California-bound emigrant party that bore their name. Eliza and her older sisters were rescued by relief parties that made their way to the stranded travellers at Donner Lake, but their parents perished, and the girls were left to make their way alone in the West. The expedition of the Donner party and its tragic fate (1911) begins with Mrs. Houghton's account of her childhood and the family's tragic overland journey, and rescue. She continues with her life as an orphan, first at Fort Sutter, and then with a family in Sonoma and with her older half-sister in Sacramento. She describes the impact of the gold rush and new immigration on the area, farm work and domestic work, and her own education in public schools and St. Catherine's Convent in Benicia. She writes at length of the emotional scars caused by contemporary rumors of cannibalism among the Donner Party and offers full accounts of Donner family history as well as the background of her husband, Samuel Houghton. An appendix contains several documentary sources for the history of the Donner Party.

The Strait Fredy Perlman, 2023-03-25 A wide-ranging imaginative account of history. Narrator Obenabi records in 1840

the histories of his ancient and recent grandmothers. Set in the North American woodlands, these tales begin before the Invader's arrival and trace how his Progress imposed - both insidiously and brutally - devastation on Obenabi's kin. The Strait subsequently became known as The Motor City.

Indigenous Peoples and the Collaborative Stewardship of Nature Anne Ross, 2011 Comprehensive and global in scope, this book critically evaluates the range of management options that claim to have integrated Indigenous peoples and knowledge, and then outline an innovative, alternative model of co-management, the Indigenous Stewardship Model.

The Arapaho Language Andrew Cowell, Alonzo Moss Sr., 2011-05-18 The Arapaho Language is the definitive reference grammar of an endangered Algonquian language. Arapaho differs strikingly from other Algonquian languages, making it particularly relevant to the study of historical linguistics and the evolution of grammar. Andrew Cowell and Alonzo Moss Sr. document Arapaho's interesting features, including a pitch-based accent system with no exact Algonquian parallels, radical innovations in the verb system, and complex contrasts between affirmative and non-affirmative statements. Cowell and Moss detail strategies used

by speakers of this highly polysynthetic language to form complex words and illustrate how word formation interacts with information structure. They discuss word order and discourse-level features, treat the special features of formal discourse style and traditional narratives, and list gender-specific particles, which are widely used in conversation. Appendices include full sets of inflections for a variety of verbs. Arapaho is spoken primarily in Wyoming, with a few speakers in Oklahoma. The corpus used in *The Arapaho Language* spans more than a century of documentation, including multiple speakers from Wyoming and Oklahoma, with emphasis on recent recordings from Wyoming. The book cites approximately 2,000 language examples drawn largely from natural discourse - either recorded spoken language or texts written by native speakers. With *The Arapaho Language*, Cowell and Moss have produced a comprehensive document of a language that, in its departures from its nearest linguistic neighbors, sheds light on the evolution of grammar.

Pat of Silver Bush L. M. Montgomery, 2014-03-04 There's no place like home Do fairies really come for the dish of milk we leave them? Is Mrs. McClenahan really a witch? How is it possible to find a new baby in a bed of parsley? These are all questions Pat

Gardiner wants to know. And it seems her Irish housekeeper, the incomparable Judy Plum, always has an answer... For Pat, there is no place more magical on earth than her home of Silver Bush, with its majestic birch trees and enchanting gardens. If it were up to her, nothing there would ever change. But of course if nothing changed, she'd never get a new baby sister, see her Aunt Hazel's wedding, or meet the only boy who truly understands her. Yes, there is change coming for Pat—some of it joyous and some of it heartbreaking. But no matter what, her favorite house in the world will always be waiting for her... What Readers are Saying: I love this book! It's laugh-out-loud funny and a very charming story. The Pat books are right up there with the Anne series at the top of Montgomery's list of works. Pat is a lovely character, and her affection for home and family was delightful. I thoroughly enjoyed it.

Curious George Paper Dolls H. A. Rey, Kathy Allert, 1983-05-01
With 2 dolls and 48 costumes -- including pirate, fireman, snake charmer, and dozens of other imaginative roles -- kids can re-enact George's famous adventures, or invent new escapades.

We and Our Neighbors: Or, The Records of an Unfashionable Street Harriet Beecher Stowe, 1875 The final of Stowe's society novels, *We and Our Neighbors* is the sequel to *My wife and I*. In

the book, Stowe continues the heartwarming tale of Harry and Eva Henderson and their domestic ups and downs. Lighthearted in tone, the book reveals much about Stowe's views of women and the primacy of their domestic roles.
