**Type Noun Constructions in Slavic, Germanic and Romance Languages** Wiltrud

Mihatsch, Inga Hennecke, Anna Kisiel, Alena Kolyaseva, Kristin Davidse, Lieselotte Brems, 2023-04-27

This volume is the first dedicated to the comprehensive, in-depth analysis of constructions with nouns like 'type' and 'sort'. It focuses on type noun constructions in Romance, Germanic and Slavic languages, integrating the different descriptive traditions that had been developed for each language family. As a result, a greater variety of type noun constructions is revealed than in the hitherto more fragmented literature. But attention is also drawn to the cross-linguistic similarity of the new pragmatic meanings, such as ad hoc and approximative categorization, hedging, focus and filler uses, and the new grammatical functions in NPs (e.g. phoric uses), clauses (e.g. adverbial uses) and complex sentences (e.g. quotatives). The volume offers survey chapters of type noun constructions in each language family as well as contributions focusing on specific aspects in one or two languages, such as their grammar, semantics and pragmatics, diachronic development, discursive and sociolinguistic variety. These complementary methodologies elucidate the unique cross-linguistic field of type noun constructions both descriptively and theoretically. Hence, this volume can also serve as a model for similar surveys in other functional domains.

*Linguistic Mitigation in English and Spanish* Nydia Flores, 2020-02-05 This volume offers a comprehensive examination of mitigation in speech in English and Spanish, exploring how it is defined and theorized and the various linguistic features employed to soften or downgrade the impact of a particular message across a range of settings. Building on the body of work done on mitigation in English, the book begins by discussing how it has been conceptualized in the literature, drawing on politeness theory among other perspectives from pragmatics, and highlighting increasing research on these topics in native and bilingual Spanish speakers and learners of Spanish. The volume explores examples from a variety of discursive contexts, including institutions, courts, and classrooms, to unpack mitigation as it occurs in spontaneous speech through different lenses, looking both at the actual units of discourse but also taking a broader view by examining differences across dialects as well. The book also looks at the ways in which conclusions drawn from this research might be applied pedagogically in language learning classrooms. This volume will serve as a jumping-off point for broader discussion in the field of mitigation and will be of particular interest to graduate students and researchers in pragmatics, sociolinguistics, and discourse analysis, in addition to learners and pre-service teachers of Spanish.

Evaluaciones nacionales del rendimiento académico Volumen 3 Vincent Greaney, Thomas Kellaghan, 2016-03-23 Implementing a National Assessment of Educational Achievement, the third volume in the five-part National Assessments of Educational Achievement series, focuses on practical issues in the implementation of a national assessment. These include the representation of key educational stakeholders, required personnel and facilities, and the sequence of administrative activities in implementing an assessment. Particular attention is focused on sampling, such as defining the population to be assessed, elements of sampling theory, and the selection of schools and

students to take part in an assessment. Readers are guided through the selection of a sample by working on a set of concrete tasks presented in the text, using data files in an accompanying CD. One section of Volume 3 is devoted to typical tasks involved in preparing, validating and managing data. Users are expected to develop competence in data preparation skills by carrying out the practical exercises in the CD. They are also shown how to complete important pre-analysis steps such as compute survey weights, calculate means and their sampling errors, and how to deal with non-responses and oversize and undersize schools. This volume is intended primarily for teams who are responsible for conducting national assessments and graduate students interested in technical aspects of large-scale surveys.

**Pesquisas do Banco Mundial sobre Avaliações de Desempenho Educacional, Volume 4** Gerry Shiel,Fernando Cartwright,2015-08-05 Análise de Dados de uma Avaliação Nacional de Desempenho Educacional é o quarto de cinco volumes da série Avaliações Nacionais de Desempenho Educacional. Os outros volumes descreveram os procedimentos em uma avaliação até ao ponto em que os dados foram preparados para a análise estatística, o tópico deste volume. As análises

concretas a ser realizadas dependerão das necessidades de informação dos formuladores de políticas e dos gestores no âmbito do ensino. Na maioria das avaliações nacionais, relacionam-se com a qualidade da aprendizagem dos alunos, fatores relacionados com a aprendizagem, questões de equidade, e, em alguns casos, alterações nos resultados educacionais ao longo do tempo. O Volume 4, que compreende duas partes, fornece instruções pormenorizadas acerca de como analisar dados coligidos em uma avaliação nacional. A Parte I prevê uma introdução geral às análises estatísticas normalmente realizadas nas avaliações em grande escala, avaliando a tendência central e a dispersão das pontuações dos alunos e as relações entre as variáveis. A Parte II descreve o software IATA (Análise de Item e de Teste), que utiliza a teoria clássica dos testes e a teoria de resposta ao item para estabelecer escalas onde reportar as pontuações dos alunos. Os passos da análise das administrações de testes piloto e finais estão descritos detalhadamente. É acompanhado por um CD que contém exercícios especialmente concebidos e arquivos de dados de suporte para ambas as partes do volume. Este livro será de interesse para os especialistas em avaliação de governos nacionais, regionais e locais; instituições de investigação; e universidades.
