Design-It-Yourself Clothes Cal Patch, 2013-09-11 If you've ever watched Project Runway and wished you were a contestant, or you're simply ready to take your sewing to a new level, Design-It-Yourself Clothes teaches you the fundamentals of modern patternmaking so that you, too, can create your own inspired clothing. Until now, the aspiring DIY fashionista has been hard-pressed to find self-teaching tools other than dry textbooks or books with outdated looks. Finally, in Design-It-Yourself Clothes, former Urban Outfitters designer Cal Patch brings her youthful aesthetic to a how-to book. If you want to wear something you can't find on store racks and make clothes that express your individual style, or if you've reached a sewing plateau and want to add pattern drafting to your repertoire, Design-It-Yourself Clothes is the book you have been waiting for. In five key projects (each with four variations)—a perfect-fitting dress, T-shirt, button-down shirt, A-line skirt, and pants—Patch shares the art of patternmaking. At its core, it's much simpler than you think. Patch covers everything an intermediate sewer needs to know in order to become a fabulous fashion designer, from designing the patterns, taking your own measurements, and choosing fabrics to actually sewing the clothing. You will also learn how to stylize patterns by using darts, waistbands, patch pockets, and ruffles. Patch offers tips, explanations, options, and exercises throughout that will make the design process that much easier. But besides showing you how to create clothing from scratch, she also teaches you how to rub off patterns from existing clothing—so if you have a pair of pants that you love but are worn out, or you have your eye on a piece in the store with a prohibitive price tag, you can figure out how to get the looks you want by using your own two hands.

Four Centuries of Italian-American History Giovanni Ermenegildo Schiavo, 1955

The Forest of the Lacandon Maya Suzanne Cook, 2016-03-15 The Forest of the Lacandon Maya: An Ethnobotanical Guide, with active links to audio-video recordings, serves as a comprehensive guide to the botanical heritage of the northern Lacandon. Numbering fewer than 300 men, women, and children, this community is the most culturally conservative of the Mayan groups. Protected by their hostile environment, over many centuries they maintain autonomy from the outside forces of church and state, while they continue to draw on the forest for spiritual inspiration and sustenance. In The Forest of the Lacandon Maya: An Ethnobotanical Guide, linguist Suzanne Cook presents a bilingual Lacandon-English ethnobotanical guide to more than 450 plants in a tripartite organization: a botanical inventory in which main entries are headed by Lacandon names followed by common English and botanical names, and which includes plant descriptions and uses; an ethnographic inventory, which expands the descriptions given in the botanical inventory, providing the socio-historical, dietary, mythological, and spiritual significance of most plants; and chapters that discuss the relevant cultural applications of the plants in more detail provide a description of the area's geography, and give an ethnographic overview of the Lacandon. Active links throughout the text to original audio-video recordings demonstrate the use and preparation of the most significant plants.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Africa and the Discovery of America Leo Wiener,2023-04-24 2023 Reprint of the 1922 Edition. Full facsimile of the original edition and not reproduced with Optical Recognition Software. This volume comprises volume II in this three-volume series. Professor Wiener, in this second volume of his series *Africa and the Discovery of America*, deals exhaustively with the documentary information relating to the presence in America of cotton, tobacco and shell money, before the discovery of America by Columbus. . . The accumulative evidence is overwhelmingly in favor of an introduction of the articles under discussion from Africa by European or Negro traders, decades earlier than 1492. (Foreword, p. ix.) The importance, for the history of Pre-Columbian civilization, of these discoveries cannot be overestimated. Moreover, their significance is not concerned alone with the history of America. They suggest a revision and realignment of historical frontiers in Europe and Africa as well, from a date not later than the first quarter of the fifteenth century. Lastly, *Africa and the Discovery of America* forms, as it were, a sequel to Professor Wiener's previous scholarship, enabling the historian to trace the influence of the Arabs as the torchbearers of civilization. It was they who in the eighth century, through the medium of the Spanish Mozarabs, recreated European culture, and at a later period, through that of the Arab-Black cultures, of whom the West African Mandingoes were the most important, at least almost entirely recreated, if they did not actually create, the civilization of the native American tribes, throughout both continents, and planted, so to speak, in the New World, the seeds of two great modern industries, cotton and tobacco.
