The Bank Negara Malaysia (BNM) employs a well-developed

risk-focused regulatory and supervisory regime. Despite this, a clear gap exists in the application of the supervision and regulation regime to financial holding companies. BNM is to be commended for its thoughtful and comprehensive self-assessment and efforts to help draft legislative changes and to make administrative changes to address the areas of improvement revealed by the self-assessment. Improvements should be made in the transparency of elements of BNM's supervisory expectations, its domestic coordination and information-sharing arrangements, and legal protection for staff.

People's Republic of China-Hong Kong Special Administrative Region International Monetary Fund. Monetary and Capital Markets Department, 2014-07-16 This Basel Core Principles (BCP) for Effective Banking Supervision Detailed Assessment Report has

been prepared in the context of the Financial Sector Assessment Program for the People's Republic of China-Hong Kong Special Administrative Region (HKSAR). The Hong Kong Monetary Authority (HKMA) supervises a major international financial center which was affected, though not significantly so, by the financial crisis. The HKMA is maintaining its commitment to the international regulatory reform agenda and is an early adopter of many standards. Supervisory practices, standards, and approaches are well integrated, risk based and of very high quality. There is one area in relation to the overarching legislative framework and powers which warrants further attention. The HKMA enjoys clear de facto but not de jure operational independence. There are two important cross border dimensions for Hong Kong as an international financial center. One is related to HKSAR's significant position as a host supervisor. The second is the increasing importance of Mainland China in the current portfolios and prospects of the locally incorporated institutions, and indeed in the choice of HKSAR as a platform for overseas institutions to establish relationships with Mainland China.
