Learning and Teaching Early Math Douglas H. Clements,Julie Sarama,2020-12-29 The third edition of this significant and groundbreaking book summarizes current research into how young children learn mathematics and how best to develop foundational knowledge to realize more effective teaching. Using straightforward, practical language, early math experts Douglas Clements and Julie Sarama show how learning trajectories help teachers understand children's level of mathematical understanding and lead to better teaching. By focusing on the inherent delight and curiosity behind young children's mathematical reasoning, learning trajectories ultimately make teaching more joyous: helping teachers understand the varying levels of knowledge exhibited by individual students, it allows them to better meet the learning needs of all children. This thoroughly revised and contemporary third edition of Learning and Teaching Early Math remains the definitive, research-based resource to help teachers understand the learning trajectories of early mathematics and become confident, credible professionals. The new edition draws on numerous new research studies, offers expanded international examples, and includes updated illustrations throughout. Classroom 15 Peter Laufer,2020-12-15 A result of an investigative report by tenacious University of Oregon journalism students, Classroom 15 tells the story of how the dreams of fourth-grade students at the Riverside School, Roseburg, in rural Oregon timber country, were crushed by the prevailing Red Scare, McCarthyism, state and societal censorship, and J. Edgar Hoover's FBI. The teacher of Classroom 15, known fondly as Mr. McFetridge, assigned a pen pal project in an effort to take geography lessons outside of the classroom. Imagining a place as far from Oregon as they possibly could, the students wrote letters to nine- and ten-year-old counterparts in the Soviet Union. Janice Boyle, the class secretary, reached out to Oregon's Congressional representative, Charles O. Porter, seeking assistance connecting with peers in Russia. Representative Porter forwarded the letter to the Secretary of State Christian Herter, and a week later the students received the shocking and disheartening news that their benign request had been needlessly denied. In the wake of McCarthyism, the Eisenhower administration subverted the assignment, fearing Communist propaganda would infect the innocent minds of eager Oregon schoolchildren. The students' plight quickly gained national attention with stories running from the Roseburg News-Review to the New York Times. The publicity didn't miss the attention of J. Edgar Hoover's FBI. His agents investigated. They traveled to Roseburg, collected evidence, and took it back to the Bureau's regional headquarters in Portland. The public reaction was swift and unrelenting. The teacher and the Congressman were attacked by outraged Roseburg citizens, the school board, and enraged Americans across the country. Classroom 15 is all the above and a page-turning adventure story told with the voices of the empowered, tenacious University of Oregon journalism students who took the nascent story and demonstrated their unwavering devotion to the journalistic process by telling the tale.
