The Emergence of a Modern City Henriette Steiner, 2016-03-23

This book is an exploration of how urban life in Copenhagen, in the period known as the Golden Age (c. 1800 to 1850), was experienced and structured socially, institutionally, and architecturally. It draws on a broad historical source material -

spanning urban anecdotes, biography, philosophy, literature, and visual culture - to do so. The book argues that Copenhagen emerged as a modern city at this time, despite the fact that the Golden Age never witnessed the appearance of the main characteristics of the modernisation of cities associated with industrialisation, such as street lighting, sewer systems, and railroads. The book outlines the historical and topographical context of Copenhagen in the Golden Age with a special focus on the works of the most prominent architect of the period, C.F. Hansen. The characterisation of the city is complemented by investigations into writings of three citizens: the philosopher Søren Kierkegaard, the novelist Thomasine Gyllembourg, and the criminal Ole Kollerod, who all take an interest in the city's institutional and urban structures as well as their own place in it. From these different sources, a picture is painted of urban life and thought at a time when the city began to take on characteristics of ambiguity and alienation in European thinking, while at the same time the city itself retained some pre-modern motifs of a symbolic order. This transformation is set in a larger process of cultural re-orientation, from traditional Baroque culture to what might be termed Romantic culture. The book reconsiders the significance of this

transformation for the emergent order of the modern European city in the nineteenth century and thus of the very foundation on which our own urban culture rests.

A Residence in Jutland, the Danish Isles, and Copenhagen

Horace Marryat, 1860

The Hero Trap Thomas Kolster, 2020-05-28 Most companies today are firmly on the social and environmental issues ‘bandwagon’, like bees around a honey pot, from plastic in oceans through to diversity. As a result, people are increasingly distrustful of these efforts which they view as cheap marketing stunts meant to wow people into buying more. Try to fly like a superman, and you will come down like a tin of soup. Market economists have long told us that we’re driven only by money and status, but the inherent human truth that cuts across age, culture and gender uncovers a stronger force: we wish to be in charge of our own lives and our own happiness. Through extensive growth and affinity research, world-renowned purpose-pioneer, Thomas Kolster, uncovers a simple answer that is key to driving marketing growth in the 21st century: if you put people in control of the marketing mix, from products to promotion, they can grow and in turn grow your organisation. This book explains the meteoric rise of a company

like AirBnB, how a 20-something Swede, Maria de la Croix, built a global coffee empire like Wheelys in just a few years, and how a group of friends hanging out in a bar in Melbourne created one of the largest global non-profits fighting for men's health, Movember – and how you can empower people to do the same. Today's power no longer rests in the hands of the privileged few, but in the talented many. It is time for you to unleash that power, in numbers. Drawing on top-line marketing case studies and in-depth interviews, Kolster demonstrates how people are truly motivated to act when they're in charge of their own life and happiness. 'Who can you help me become?' is the one essential question you need to be asking and acting on to chart a new course for your organisation, changing behaviours at scale and unlocking sustainable growth that benefits all.

Copenhagen and Its Environs ,1884

The Battle of Copenhagen 1801 Ole Feldbæk,2002-01-01

Written by the leading Danish authority on the period, this splendid work brings to life Nelson's historic victory immortalised by his so famously turning a blind eye to his superior's order to halt operations. As well as describing the brilliance of the British tactics, the work fascinatingly reveals the desperate action and great bravery displayed by the Danish defenders who suffered appallingly in the fighting.
