Cosa V Elizabeth Fentress, 2003 A presentation of seven years' archaeological excavation, research, and analysis of the site of Cosa

Cosa Maria Teresa Marabini Moevs, 2006 This book details Maria Teresa Marabini Moevs's findings of Italian Sigillata pottery at the Cosa excavation site, an invaluable source of information on Roman colonization, urbanism, and daily life since excavation began in 1948. The exceptional external conditions at Cosa preserved archaeological levels of natural strata from the early and late first century b.c., allowing documentation of the earliest phases of Italian Sigillata, which quickly became a major empire-wide export. This widely used pottery went through many changes in color and presentation during the Roman colonial era, in response to various transitions and developments in Roman society. The research presented in this volume of the series from the American Academy in Rome will be of great interest to the archaeological and classical studies community. Maria Teresa Marabini Moevs is Professor of Classics and Archaeology Emerita at Rutgers and a former professor of Italian in the Department of Romance Languages at Douglass College. She was a Fellow in Classics at the American Academy in Rome in 1963-64 and previously a recipient of a Fulbright scholarship for Italian graduates in archaeology at the same institution. From the inception of her association with the Academy to the present she has been a member of the team responsible for the excavation and study of the Roman colony of Cosa. In the *Memoirs of the American Academy in Rome* she has published *The Roman Thin Walled Pottery from Cosa* (1973), *The Italo-Megarian Ware at Cosa* (1980), and *Aco in Northern Etruria: The Workshop of Cusonius at Cosa* (1980). She is the recipient of two national literary prizes for her critical studies on the influence of classical art and archaeology on contemporary Italian literature. She is married to the American composer Robert Moevs.

Cosa Kathleen Slane, Elizabeth L Will, 2019-01-03 This long-awaited volume presents the work of Elizabeth Lyding Will on the important group of transport amphoras found at Cosa. This town has been widely recognized as a prototypical colony of the later Roman Republic and a source for trade with Gaul and Spain, so this publication of its finds has important implications for archaeologists and historians of the ancient world. Will's initial work was on Latin amphora-stamps in the eastern Mediterranean, and through the 1960s and 1970s she developed an amphora typology based on materials found in the region and at Cosa. What has not been appreciated is that this typology was not limited to stamped Republican amphoras but also included unstamped vessels, such as imperial Spanish, African, and eastern amphoras dating as late as the fifth century CE. This book shows that Will was far ahead of her time in documenting the Mediterranean trade in commodities carried in amphoras: her work not only provides a record of the amphoras found on the town-site of Cosa, but also includes a comparison between the finds from the port and the town. At the time of Will's death, her manuscript consisted of a typed catalogue of the amphora stamps from Cosa and an equal number of unstamped vessels, but was missing important elements. On the basis of extensive notes and photographs, Kathleen Warner Slane has reviewed and updated the manuscript, adding type descriptions and footnotes to materials that have appeared since Will's death as well as a framing introduction and conclusions. Appendices highlight an Augustan amphora dump on the Arx and add a catalogue of the Greek amphora stamps found at Cosa. *Cosa: The Roman and Greek Amphoras* will be of interest to scholars and students of Rome and its system of colonies, and also to those interested in Greek and Roman archaeology and trade in the ancient world.

Cosa Jacquelyn Collins-Clinton, 2020-04-21 Cosa, a small Roman town, has been excavated since 1948 by the American Academy in Rome. This new volume presents the surviving

sculpture and furniture in marble and other stones and examines their nature and uses. These artifacts provide an insight into not just life in a small Roman town but also its embellishment mainly from the late Republic and through the early Empire to the time of Hadrian. While public statuary is not well preserved, stone and marble material from the private sphere are well represented; domestic sculpture and furniture from the third century BCE to the first CE form by far the largest category of objects. The presence of these materials in both public and private spheres sheds light on the wealth of the town and individual families. The comparative briefness of Cosa's life means that this material is more easily comprehensible as a whole for the entire town as excavated, compared for instance to the much larger cities of Pompeii and Herculaneum.

The Eyes of Cosa Grant Nielsen,2023-01-21 Cosa was more than a city, it was a beacon of creativity, innovation, and opportunity. Simon Granger, the grandson of one of Cosa's most celebrated architects, lived a life of privilege in this bustling metropolis, surrounded by people of incredible talent and boundless possibility. However, despite his advantages, Simon found himself feeling restless and unfulfilled. Desperate for adventure and eager to explore the unknown, Simon joins his grandfather Arthur on a dangerous journey that takes him deep into the heart of the city. But what starts as innocent thrill-seeking quickly turns perilous, as a series of tragic events propels Simon further into the strange and mysterious history of Cosa. Pursued by the ruthless Agent Collins, Simon finds himself running for his life, guided only by the cryptic words of the powerful Caplan family. He soon realizes that the truth about his family, his city, and his own biology is far more insidious than he ever could have imagined. From the gleaming domes of Cosa to its dangerous underbelly, Simon's journey is a thrilling ride of intrigue, danger, and self-discovery. Grant Nielsen's epic debut science fiction novel is a heart-pumping tale of courage and

mystery, set against a backdrop of futurism and social engineering. Though Simon's life in Cosa was rich with possibility, his demeanor and attitude were falling out of step with the shining optimism of his gleaming city. Was adolescence this hard for everyone or was something missing from Simon's privileged life? Lacking the ability to explain or express his shiftlessness, an unquenchable desire for exploration pushes Simon and Arthur to pursue a dangerous and thrilling adventure. However, what begins as innocent thrill-seeking quickly turns perilous. Through a tragic chain of events, Simon is driven through grief and restlessness deep into the strange heart and history of Cosa. Pursued by the sociopathic Agent Collins and guided by the mysterious powerbrokers of the Caplan family, Simon's quest for answers pushes him beyond the help of his family, their collective origins and even his own biology.

Cosa Nostra: A History of the Sicilian Mafia John

Dickie, 2015-03-31 The Italian-American mafia has its roots in a mysterious and powerful criminal network in Sicily. While the mythology of the mafia has been widely celebrated in American culture, the true origins of its rituals, laws, and methods have never actually been revealed. John Dickie uses startling new research to expose the secrets of the Sicilian mafia, providing a fascinating account that is more violent, frightening, and darkly comic than anything conceived in popular movies and novels. How did the Sicilian mafia begin? How did it achieve its powerful grip in Italy and America? How does it operate today? From the mafia's origins in the 1860s to its current tense relationship with the Berlusconi government, Cosa Nostra takes us to the inner sanctum where few have dared to go before. This is an important work of history and a revelation for anyone who ever wondered what it means to be made in the mob.

Harris,2021-02-21 I love you, Max Butcher. Those words are dangerous. Just about as dangerous as the world I was born into. As dangerous as the ruthless bastards that I call family. They hurt her. My. Little. Ballerina. . . My piece of purity. They hurt her. . . I wanted to keep the world beautiful for her. I failed. So I should let her go. For her own safety and my sanity. But she crawled into my bed. Settled in my head. Cassidy Slater. Her sweet-talking mouth says those dangerous words. Words I didn't know that I craved. She waits for me at night. Accepts the darkness around me. Now that's not something a man just lets go of. I'm a selfish bastard too. And she's mine. I'll protect her; it's an eye for an eye and I'm willing to blind the whole damn lot of them. For her, I'll start a damn war. - - Cosa Nostra is the second installment to Our Thing - Max & Cassidy's story. This book features a powerful and moody hero and an endearing and determined heroine. Both main characters are possessive and fight for each other. It is a love story first. Word steam second. Violence, gore, and drama third. Enjoy.

Cosa III Frank Edward Brown,Emeline Hill

Richardson, Lawrence Richardson,1993 Cosa was a Latin colony founded by Rome in 273 BC in a territory confiscated from the Etruscan city of Vulci. The town became an agricultural and commercial centre, whose trade can be traced in part through a distinctive type of amphora to destinations throughout the Mediterranean world. But Cosa's archaeological importance lies in the information its structure and town-planning provide about the Republican period. Cosa IV: the Houses by Vincent J. Bruno and Russell T. Scott Report on a group of recently excavated houses between the forum and the northwest gate which traces the development of the Roman house from a small urban dwelling of the early colony to the more elaborate houses of the late second and early first centuries BC, including an example of the atrium

house. 211p, 118 b/w illus (Memoirs of the American Academy in Rome Volume XXXVIII, Penn State Press 1993) Cosa III: the Buildings of the Forum by Frank E. Brown, Emeline Hill Richardson and L. Richardson Report on the excavations of the forum at Cosa, the purest example of a Republican forum which clearly shows the sequence of planning and building from its beginnings as the political heart of the town to its commercial development with shops and markets.

Connecticut Cosa Nostra Vinnie Penn, 2021-05 New York. New Jersey. Boston. Everyone knows the stories --the families, wiseguys, wannabes, and woulda beens--tied to those high profile East Coast territories. But, much like the concert industry, Connecticut was often negligible beneficiary thanks to proximity. Why wouldn't Sinatra's stretch limo pit-stop in New Haven on its way from Hoboken to the Hudson? Further, why not conduct a little business, and even have a bite to eat, after the gig? Connecticut Cosa Nostra pulls back the curtain on a Connecticut that housed many a mobster whose dealings were outside the state. Conduct business in the Garden State then come home to Elm City--far away from daily racketeering and rivalries. It was perfect. But, soon enough the Jersey wing of one family was taking over New Haven, while a Springfield, MA wing was seizing control of Hartford. These are the stories of those years, those families, those days of summering in Old Saybrook that turned into burying bodies in the Naugatuck Valley. Featuring tales of mob life right here in the Constitution State from the 1920s through the 1950s, Connecticut Cosa Nostra

shows the Connecticut that was--with its manicured suburban lawns, bustling city life, thriving restaurants and bars (many of which are still open to this day), and hitman hideaways. The biggest names in mob lore had ties here, with rivalries emerging from within the confines of families and murders left unsolved. With the building of I-95 and the birth of burgers and pizza taking place simultaneously, Connecticut operated largely beneath the radar. Unlike our New York and Massachusetts neighbors, we talk very little about these wiseguys. Until now.
