**Sofie Kluge**

*Literature and Historiography in the Spanish Golden Age* Sofie Kluge, 2021-09-30 Golden Age departures in historiography and theory of history in some ways prepared the ground for modern historical methods and ideas about historical factuality. At the same time, they fed into the period's own aesthetic-historical culture which amalgamated fact and fiction in ways modern historians would consider counterfactual: a culture where imaginative historical prose, poetry and drama self-consciously rivalled the accounts of royal chroniclers and the dispatches of diplomatic envoys; a culture dominated by a notion of truth in which skilful construction of the argument and exemplarity took precedence over factual accuracy. *Literature and Historiography in the Spanish Golden Age: The Poetics of History* investigates this grey area backdrop of modern ideas about history, delving into a variety of Golden Age aesthetic-historical works which cannot be satisfactorily described as either works of literature or works of historiography but which belong in between these later strictly separate categories. **Journey to the Centre of the Earth** Jules Verne, 2008-06-12 Journey to the Centre of the Earth has been consistently praised for its style and its vision of the world. It explores the prehistory of the globe, but can also be read as a psychological quest, for the journey itself is as important as arrival or discovery. Professor Lidenbrock and his nephew Axel travel across Iceland, and then down through an extinct crater towards a sunless sea where they enter a living past and are confronted with the origins of man. A classic of nineteenth-century French literature, the novel's distinctive combination of realism and Romanticism has marked figures as diverse as Sartre and Tournier, Mark Twain and Conan Doyle. This new translation of the complete text is faithful to the lyricism, verve, and humour of the original. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for

further study, and much more.

**Medieval People** Eileen Edna Power,1963 An account of six persons during the Middle Ages: a Frankish peasant; Marco Polo, the Venetian traveler; Madame Eglentyne, prioress of Chaucer's Canterbury Tales; a middle-class Parisian housewife; two English merchants, one engaged in the wool trade and the other an Essex clothier ... A hitherto unpublished essay ... has been added ... [which] describes the barbarian conquest of Rome--Page 4 of cover.

Trade School Caroline Woolard,2019-05 Trade School was a non-traditional learning space where students bartered with teachers. Anyone could teach a class. Students signed up for classes by agreeing to bring a barter item that the teacher requested. From 2009-2019, Trade School became an

international network of local, self-organized chapters that reached over 22,000 people globally. Each chapter coordinated the exchange of knowledge for barter items and services.

**A Manual for Cleaning Women** Lucia Berlin, 2015-08-18 I have always had faith that the best writers will rise to the top, like cream, sooner or later, and will become exactly as well-known as they should be-their work talked about, quoted, taught, performed, filmed, set to music, anthologized. Perhaps, with the present collection, Lucia Berlin will begin to gain the attention she deserves. -Lydia Davis **A MANUAL FOR CLEANING WOMEN** compiles the best work of the legendary short-story writer Lucia Berlin. With the grit of Raymond Carver, the humor of Grace Paley, and a blend of wit and melancholy all her own, Berlin crafts miracles from the everyday, uncovering moments of grace in the Laundromats and halfway houses of the American Southwest, in the homes of the Bay Area upper class, among switchboard operators and struggling mothers, hitchhikers and bad Christians. Readers will revel in this remarkable collection from a master of the form and wonder how they'd ever overlooked her in the first place.

**Women's Writing in Colombia** Cherilyn Elston, 2016-12-20 Winner of the Montserrat Ordóñez Prize

2018 This book provides an original and exciting analysis of Colombian women's writing and its relationship to feminist history from the 1970s to the present. In a period in which questions surrounding women and gender are often sidelined in the academic arena, it argues that feminism has been an important and intrinsic part of contemporary Colombian history. Focusing on understudied literary and non-literary texts written by Colombian women, it traces the particularities of Colombian feminism, showing how it has been closely entwined with left-wing politics and the country's history of violence. This book therefore rethinks the place of feminism in Latin American history and its relationship to feminisms elsewhere, challenging many of the predominant critical paradigms used to understand Latin American literature and culture.

*Palinuro of Mexico* Fernando del Paso, 1996 Like those writers to whom he has been compared--Fuentes, Garcia Marquez, James Joyce, and Rabelais--del Paso draws upon myth, science, and world literature to expand his particular story to universal proportions. Telling the story of a medical medical

student who's engaged in an incestuous affair with his cousin, the novel satirizes advertising, politics, pornography, and mythology, while at the same time celebrating the body with a thoroughness that only a student of medicine could manage.

**Vaccines** **Ciro A. de Quadros**, Pan American Health Organization, 2004 This publication contains a number of papers which consider the public health role of vaccines in improving the health of the world's populations, and looks at the challenges of using immunisation to combat emerging and re-emerging diseases. Issues discussed include the innovative use of vaccines against diseases such as meningococcal infection in Africa, Haemophilus influenza type b, varicella, and hepatitis, efforts to develop a new generation of vaccines against cholera and typhoid, shigella and Helicobacter pylori, as well as developments in the quest for vaccines against tuberculosis, HIV/AIDS, dengue, malaria, and hookworm. It also deals with the use of vaccines to fight bioterrorism attacks; regulatory and safety

issues; financing issues, impact of health sector reform and the sustainability of immunisation programmes.

**Smart Learning Environments** Maiga Chang,Yanyan Li,2014-09-05 This book addresses main issues concerned with the future learning, learning and academic analytics, virtual world and smart user interface, and mobile learning. This book gathers the newest research results of smart learning environments from the aspects of learning, pedagogies, and technologies in learning. It examines the advances in technology development and changes in the field of education that has been affecting and reshaping the learning environment. Then, it proposes that under the changed technological situations, smart learning systems, no matter what platforms (i.e., personal computers, smart phones, and tablets) they are running at, should be aware of the preferences and needs that their users (i.e., the learners and teachers) have, be capable of providing their users with the most appropriate services, helps to

enhance the users' learning experiences, and to make the learning efficient.

*The Church and the Single Mom* Jennifer Maggio, 2017-01-18 When 19-year-old Jennifer Maggio found herself pregnant...for the fourth time...she was completely lost-lost in a tragedy wrought by years of sexual abuse, homelessness, and poverty. What she didn't know at the time was that she was the main character in a story that God would one day use to inspire, encourage, and challenge thousands of people just like her...and some whose stories were very different from hers. From that deep valley Jennifer rose to the summit of Corporate America-only to leave it all behind to minister to single moms. In *The Church and the Single Mom* Jennifer provides a road map for those who, like her, look out at the nearly 17 million single moms in the U.S. alone, many of whom are drowning in financial struggles, parenting woes, and emotional.

Work Rules! Laszlo Bock, 2015-04-07 From the visionary head of Google's innovative People Operations comes a groundbreaking inquiry into the philosophy of work -- and a blueprint for attracting the most spectacular talent to your business and ensuring that they succeed. We spend more time

working than doing anything else in life. It's not right that the experience of work should be so demotivating and dehumanizing. So says Laszlo Bock, former head of People Operations at the company that transformed how the world interacts with knowledge. This insight is the heart of *Work Rules!*, a compelling and surprisingly playful manifesto that offers lessons including: Take away managers' power over employees Learn from your best employees-and your worst Hire only people who are smarter than you are, no matter how long it takes to find them Pay unfairly (it's more fair!) Don't trust your gut: Use data to predict and shape the future Default to open-be transparent and welcome feedback If you're comfortable with the amount of freedom you've given your employees, you haven't gone far enough. Drawing on the latest research in behavioral economics and a profound grasp of human psychology, *Work Rules!* also provides teaching examples from a range of industries-including lauded companies that happen to be hideous places to work and little-known companies that achieve spectacular results by valuing and listening to their employees. Bock takes us inside one of history's most explosively successful businesses to reveal why Google is consistently rated one of the

best places to work in the world, distilling 15 years of intensive worker R&D into principles that are easy to put into action, whether you're a team of one or a team of thousands. *Work Rules!* shows how to strike a balance between creativity and structure, leading to success you can measure in quality of life as well as market share. Read it to build a better company from within rather than from above; read it to reawaken your joy in what you do.

**Museum Activism** Robert R. Janes, Richard Sandell, 2019-01-10 Only a decade ago, the notion that museums, galleries and heritage organisations might engage in activist practice, with explicit intent to act upon inequalities, injustices and environmental crises, was met with scepticism and often derision. Seeking to purposefully bring about social change was viewed by many within and beyond the museum community as inappropriately political and antithetical to fundamental professional values. Today, although the idea remains controversial, the way we think about the roles and responsibilities of museums as knowledge based, social institutions is changing. *Museum Activism* examines the increasing significance of this activist trend in thinking and practice. At this crucial time in the evolution

of museum thinking and practice, this ground-breaking volume brings together more than fifty contributors working across six continents to explore, analyse and critically reflect upon the museum's relationship to activism. Including contributions from practitioners, artists, activists and researchers, this wide-ranging examination of new and divergent expressions of the inherent power of museums as forces for good, and as activists in civil society, aims to encourage further experimentation and enrich the debate in this nascent and uncertain field of museum practice. Museum Activism elucidates the largely untapped potential for museums as key intellectual and civic resources to address inequalities, injustice and environmental challenges. This makes the book essential reading for scholars and students of museum and heritage studies, gallery studies, arts and heritage management, and politics. It will be a source of inspiration to museum practitioners and museum leaders around the globe.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York.

Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**The She-Devil in the Mirror** Horacio Castellanos Moya, 2009-09-30 Salvadorean society is shocked by the gruesome murder of a young upper-class woman, and no one more so than her best friend Laura. In her first-person solo narration, Laura rattles on and on about her disbelief and horror at the evils all around her—but who’s that in the mirror? Laura Rivera can’t believe what has happened. Her best friend has been killed in cold blood in the living room of her home, in front of her two young daughters! Nobody knows who pulled the trigger, but Laura will not rest easy until she finds out. Her dizzying, delirious, hilarious, and blood-curdling one-sided dialogue carries the reader on a rough and tumble ride through the social, political, economic, and sexual chaos of post-civil war San Salvador. A detective story of pulse-quickening suspense, *The She-Devil in the Mirror* is also a sober reminder that justice and truth are more often than not illusive. Castellanos Moya’s relentless, obsessive narrator—female, rich, paranoid, wonderfully perceptive, and, in the end, fabulously unreliable—paints with frivolous profundity a society in a state of collapse. Castellanos Moya’s *Senselessness* was acclaimed “an innovative and invigoratingly twisted piece of art” (*Village Voice*) and “a brilliantly

crafted moral fable, as if Kafka had gone to Latin America for his source materials” (Russell Banks).

**The Dialectics of Orientalism in Early Modern Europe** Marcus Keller, Javier Irigoyen-

García, 2017-11-09

Uniting twelve original studies by scholars of early modern history, literature, and the arts, this collection is the first that foregrounds the dialectical quality of early modern Orientalism by taking a broad interdisciplinary perspective. *Dialectics of Orientalism* demonstrates how texts and images of the sixteenth and seventeenth century from across Europe and the New World are better understood as part of a dynamic and transformative orientalist discourse rather than a manifestation of the supposed dichotomy between the 'East' and the 'West.' The volume's central claim is that early modern orientalist discourses are fundamentally open, self-critical, and creative. Analyzing a varied corpus—from German and Dutch travelogues to Spanish humanist treatises, French essays, Flemish paintings, and English diaries—this collection thus breathes fresh air into the critique of Orientalism and provides productive new perspectives for the study of east-west and indeed globalized exchanges in the early modern world.
