On Course to Desert Storm Michael A. Palmer, 1992

Into the Storm Tristram Korten, 2018-04-24 “An intense, immersive deep dive into a wild, dangerous, and unknown world, written with the pace and appeal of a great thriller. This is nonfiction at its very best.”—Lee Child The true story of two doomed ships and a daring search-and-rescue operation that shines a light on the elite Coast Guard swimmers trained for the most dangerous ocean missions In late September 2015, Hurricane Joaquin swept past the Bahamas and swallowed a pair of cargo vessels in its destructive path: El Faro, a 790-foot American behemoth with a crew of thirty-three, and the Minouche, a 230-foot freighter with a dozen sailors aboard. From the parallel stories of these ships and their final journeys, Tristram Korten weaves a remarkable tale of two veteran sea captains from very different worlds, the harrowing ordeals of their desperate crews, and the Coast Guard’s extraordinary battle against a storm that defied prediction. When the Coast Guard received word from Captain Renelo Gelera that the Minouche was taking on water on the night of October 1, the servicemen on duty helicoptered through Joaquin to the sinking ship. Rescue swimmer Ben Cournia dropped into the sea—in the middle of a raging tropical cyclone, in the dark—and churned through the monstrous swells, loading survivors into a rescue basket dangling from the helicopter as its pilot struggled against the tempest. With pulsating narrative skill in the tradition of Sebastian Junger and Jon Krakauer, Korten recounts the heroic efforts by Cournia and his fellow guardsmen to haul the Minouche’s crew to safety. Tragically, things would not go as well for Captain Michael Davidson and El Faro. Despite exhaustive searching by her would-be rescuers, the loss of the vessel became the largest U.S. maritime disaster in decades. As

Korten narrates the ships' fates, with insights drawn from insider access to crew members, Coast Guard teams, and their families, he delivers a moving and propulsive story of men in peril, the international brotherhood of mariners, and the breathtaking power of nature. Praise for *Into the Storm* "The story [Tristram] Korten tells is impressively multifaceted, exploring everything from timely issues such as climate change to timeless themes such as man's struggle against the ocean's fury."—Miami New Times "Into the Storm is a triumph of reporting and you-are-there writing that becomes a deeper tale—with more implications about our own lives—with every chapter."—Robert Kurson, New York Times bestselling author of *Shadow Divers*

On Course to Desert Storm Michael A. Palmer, 2011-01-20 Contributions to Naval History No. 5.. Traces the history of the United States Navy and the Persian Gulf from 1800 to the end of the Iran-Iraq War in 1988.

Storm on the Horizon David Morris, 2005-08-30 On January 29, 1991, Saddam Hussein hurled three crack armored divisions into Saudi Arabia, determined to stop the American attempt to liberate Kuwait before it began. Caught without warning in the path of the Iraqi juggernaut were small groups of U.S. Marines and Special Forces soldiers, their weapons no match for the Iraqi tanks bearing down on them. Based on scores of firsthand reports and newly declassified documents, *Storm on the Horizon* is a riveting account of how these elite fighting men not only escaped the Iraqi onslaught but fought their way to victory with true American grit. From the ferocious desert attacks to the desperate street fighting in Khafji, Marine David Morris captures the ordeal through the eyes of men who

fought it, giving readers a front-row seat to the bloodiest battle of the Gulf War.

Run the Storm George Michelsen Foy, 2019-08-06 In the bestselling tradition of *The Perfect Storm* and *The Finest Hours*, “an exquisitely written and dramatic book...a literary page-turner” (Doug Stanton, #1 New York Times bestselling author of *Horse Soldiers*)—the 2015 mysterious disappearance of the SS *El Faro*, a gigantic American cargo ship that sank in the Bermuda Triangle, taking with it thirty-three lives. On October 1, 2015, the SS *El Faro*, a massive American cargo ship disappeared in Hurricane Joaquin, a category 4 storm. The ship, its hundreds of shipping containers, and its entire crew plummeted to the bottom of the ocean, three miles down. It was the greatest seagoing US merchant marine shipping disaster since World War II. The massive ship had a seasoned crew, state-of-the-art navigation equipment, and advance warning of the storm. It seemed incomprehensible that such a ship could sink so suddenly. How, in this day and age, could something like this happen? Relying on Coast Guard inquest hearings, as well as on numerous interviews, George Michelsen Foy brings us “the most insightful exploration of this unthinkable disaster” (Outside), a story that lasts only a few days, but which grows almost intolerably suspenseful as deep-rooted flaws leading to the disaster inexorably link together and worsen. We see captain, engineers, and crew fight for their lives, and hear their actual words (as recorded on the ship’s black box) while the hurricane relentlessly tightens its noose around the ship. We watch, minute by minute, all that is happening on board—the ship’s

mysterious tilt to one side, worried calls to the engine room, ship-to-shore reports, the courage of the men and women as they fight to survive, and the berserk ocean's savage consumption of the massive hull. And through it all, the pain and ultimate resilience of the families of El Faro's crew. Now with a new afterword, this "tour de force of nautical expertise" (Ocean Navigator) is a masterwork of stunning power.

Sgt.Garland Flowers, a homicide detective for the Los Angeles County Sheriff's Department, has a dilemma. He loves his wife and he loves his job, but his two loves are not compatible. This conflict is causing the breakup of his marriage and any hopes for a normal home life. The long hours, constant demands of the job, and Garland's preoccupation with his cases have caused the couple to separate. The turmoil in his personal life, though, does not compare with what is in store for him in his latest case. Garland and his partner, Archie Penner, are called to investigate a murder in a ghetto community adjacent to the city of Los Angeles. The scene they encounter resembles a disaster area. The place looks like a cyclone went through it is how the deputy at the scene describes it. A triple murder,

including a pre-adolescent girl, has been perpetrated. The apartment has been left in shambles, with furniture thrown about as if by a raging storm. Two of the victims, a man and a woman, are in the master bedroom. The man's neck is broken and the woman has been strangled. Both appear to have been dispatched by an incredibly powerful assailant. In the other bedroom is their child, the product of a racially mixed marriage. The body of the child is neatly laid out in repose. She has been smothered. No items in the room have been displaced ... quite a contrast from the other rooms. Further assessment of the crime scene rules out robbery as a motive. Could this crime have been racially motivated? The crime has all the earmarks of an act of personal rage. With little to go on, no fingerprints, no witnesses or other clues as to the perpetrator's identity or motive, the detectives have no place to turn. That is, until another multiple homicide two weeks later gives Flowers his first break. A thumbprint has been lifted from the second crime scene. The fingerprint identifies the suspect as a man by the name of B.C. Jones, a recent parolee from Soledad Prison. Jones is six feet six inches in height and weighs 280 pounds, and none of it is fat. His chest and arms are massive. For six years he has been lifting weights in prison, where he was sent for killing his father. He committed the crime with his bare hands. Jones is a mulatto, the product of a black father and a white mother. He is also simple-minded, having endured a childhood of constant physical abuse. He is a social outcast, and is extremely bitter about his racially mixed blood. In his mind, his lack of racial identity is the root of all of his problems, and he feels compelled to do something about it. During the course of the investigation Sgt. Flowers pieces together the psychological puzzle that motivates Jones to commit these murders. Meanwhile, Jones discovers that he has been

named as the suspect in these crimes and flees to the home of his only known relative, an aunt who lives in Gulfport, Mississippi. While staying with her he is arrested for a minor offense. A routine record check is made, and the Gulfport Police Department learns that Jones is wanted for murder in Los Angeles. The L. A. County Sheriff's Department is immediately notified. Sgt. Flowers is assigned the task of traveling to Mississippi to pick up the prisoner and return him to Los Angeles for trial. The Deep South is not a place Flowers has ever given any thought of visiting. After all, this is 1969, and desegregation is still new to these parts ... and Garland Flowers happens to be black. Born and reared in California, he has heard horrifying stories of how blacks are treated in the South, and is concerned about the kind of cooperation and assistance he will receive from the Southern law enforcement officers. But his reception is not what he expects. The absence of racial prejudice that he encounters upon

Storm Echo Nalini Singh, 2022-08-09 New York Times bestselling author Nalini Singh takes us into the hearts of two fractured people in a world on the brink of a psychic Armageddon . . . Silence has fallen. The Psy are free to feel emotion. Free to love. But Silence was never a prison for Ivan Mercant. The biggest threat to his future lies dormant in his brain—a psychic monster that wants only to feed. And now, the brutal leash he's kept on that monster is slipping.

He prepared for this day, for the end of Ivan Mercant . . . but that was before he met Lei. As primal as she is human, this wild changeling brings color into his life, laughter to his soul. Then the dream shatters in a rain of blood, in silent bodies in the snow. Lei is gone. Vanished without a trace . . . until he meets strangely familiar eyes across a busy San Francisco street. Soleil Bijoux Garcia is a healer who has lost everything. She exists in a world of desolate aloneness . . . till the day she finds herself face-to-face with a lethal stranger. The animal who is her other half knows this man, but her memories are tattered fragments. Sorrow and a need for vengeance are all that drive her. Her mission? To kill the alpha of the DarkRiver leopard pack. But fate has other plans. Soon, a deadly soldier who believes himself a monster and a broken healer might be all that stand between life and death for the entire Psy race. . . .

Lean Fall Stand Jon McGregor, 2021-09-21 A thrilling and propulsive novel of an Antarctica expedition gone wrong and its far-reaching consequences for the explorers and their families leaves the reader moved and subtly changed, as if she had become part of the story (Hilary Mantel). Remember the training: find shelter or make shelter, remain in place, establish contact with other members of the party, keep moving, keep calm. Robert 'Doc' Wright, a veteran of Antarctic surveying, was there on the ice when the worst happened. He holds within him the complete story of that night—but depleted by the disaster, Wright is no longer able to communicate the truth. Instead, in the wake of the catastrophic expedition, he faces the most daunting adventure of his life: learning a whole new way to be in the world. Meanwhile Anna, his wife, must suddenly scramble to navigate the sharp and unexpected contours of life as a caregiver. From the Booker Prize-longlisted, American Academy of Arts & Letters Award-winning author of

Reservoir 13, this is a novel every bit as mesmerizing as its setting. Tenderly unraveling different notions of heroism through the rippling effects of one extraordinary expedition on an ordinary family, Lean Fall Stand explores the indomitable human impulse to turn our experiences into stories—even when the words may fail us.
