***From the Cradle to the Cyclone Fence* C. R. Webster,2010-02** C. R. Webster saw many forms of substance abuse as a nurse, but when addictions threatened her own son, it was no longer a job; she was his mother. After a shoulder injury dashed his dreams of playing college baseball, Randy lost his desire to live, seeking refuge in all the wrong places. His mother had to sit in the bleachers and watch as he went from job to job, court date to court date, and eventually, freedom to incarceration. *From the Cradle To The Cyclone Fence* tells a tragic story about a mother's struggle to save her son and her eventual decision to turn it over to God. A well written, frank, eye opener To The carnage wreaked by substance abuse in her family. If you have dealt first hand with drug or alcohol abuse in your family then *From the Cradle To The Cyclone Fence* will certainly strike a raw chord with you. If you haven't, it will make you kiss your family and thank the Good Lord for sparing you from this horrific war zone. - R.Groves, stewardship team, Independent Bible Church *From the Cradle To The Cyclone Fence* leads you through years of the nightmare darkness that engulfs a family when fighting to save a child from his world of addiction. It is a heart-wrenching story of a mother struggling desperately to hold onto her family, her faith, and her sanity. There is hope in God, The rock that holds in the midst of life's worse

storms. From the Cradle To The Cyclone Fence is a must read for anyone who has been forced down this path. -B. Evans, MITI leader for ten years, member of Long View Baptist Church C. R. Rookery Bay CR Cooper,2015-06-15 An ill-timed NASA probe to Mars misses its mark and crashes into the Asteroid Belt with disastrous result. Two asteroids are dislodged and are soon plummeting toward Earth. The first projectile crashes at Rookery Bay near Naples, Florida and is thought to contain deadly microbes. Several murders ensue in the quest to steal this prized “rock.” And frantic efforts are taken to divert the second, much larger asteroid, whose impact would approximate a twenty-five megaton blast. A mole buried deep inside NASA is intent on corrupting the software necessary to divert. To further complicate matters, the issue of national interest clashes with journalistic freedom and the public’s right to know. The head of the local EPA threatens to make public that the Florida projectile has let loose a deadly strain of bacteria. Any report would cause a nation-wide panic.

*Messengers from the West Mountain* C. R. Truitt,2007-12-28 A Great Fire War had once scorched the earth, leaving it barren for generations and only those who took refuge underground were their children's children able to live once again upon the surface of the earth. For years the West Mountain people lived pleasantly on the surface of the earth outside of the Mother Cave, until reports from the other Warrior tribes told of attacks from a people who still use the ancient machines to capture and enslave. The Chiefs daughter, Paula was delighted when the Council announced she would lead and be sent with three others as messengers to the other Warrior tribes for a call of unity to stand against these invaders. She set out with her best friend Sissy, a young healer, her cousin Mira, the best warrior of her tribe, and their friend, Peggy. Together they set out to warn the other tribes, but separated to make up for lost time waiting for Paula and Peggy to heal after a battle with mutated men. Paula and Sissy catch a ride in the wasteland and unknowingly find themselves in the enemy territory. There they find danger and unexpected allies. \*\*\*\* All four of us sat erect, pushing our chests out, holding our heads high, riding through the main street with our people cheering us... There is nothing like the adorations of our family and peers. How soon we would come to learn the difference of people who would not see us so, regarding us as their prey or their enemy, to use us whatever way they could. Leaving the tribe behind, we had no knowledge of that. We were sure of our skills and our persons... \*\*\*\* He glared at me, his voice deepened, commanding. You will hand me that chain and

then you will strip and put those dirty rags in this basket. Now!... His retaliation was swift. He slapped me hard enough to bring me to my knees with my eyes watering and my cheek stinging...

*The Curse of Black Mountain* C R Dempsey,2024-01-06 The revelry after the victory at Yellow Ford could not mask the tragedy that followed. Seamus and Eunan were dealt a devastating blow. They were left with a grim determination to seek revenge by any means, even leading the rebellion against their oppressors. The Curse of Black Mountain hung over Seamus as his ultimate challenge lay ahead: returning to Munster where his clan had been decimated and family murdered, to reclaim what was stolen from him. Eunan, likewise, was determined to face these same forces—not only for vengeance, but to rescue the woman he loved. What awaited them when they arrived? Would the remains of the MacSheehy welcome Seamus back with open arms? Can Eunan protect himself from his adversaries or would they win and take his life? The Curse of Black Mountain is the fifth book in the epic Irish historical fiction Exiles series. **Pediatric Neurology** K.S. Bull,C.R. Kennedy,2013-04-23 There is ample evidence that many children treated for brain tumors experience long-term neurocognitive deficits. The severity of those deficits is determined by a complex interaction of the child's genetic make-up and age, neuroanatomical damage caused by tumor and surgery, radiotherapy and chemotherapy, the psychosocial environment, and the intensity of targeted rehabilitation. The consequences of neurocognitive deficits are moderated by the number and severity of other deficits, including neurological and endocrine impairments, and this wider context must be considered. The impact of intellectual decline on academic functioning is evident, and underlies, for example, poor reading, writing, and mathematical skills. The effects of early brain damage on development are cumulative as more functions are expected to mature. Many survivors of CNS tumors can be expected to grow into deficits that have far-reaching consequences not only for academic achievement but also for their psychological and social development and their ability to be self-sufficient. Because the problems typically only become apparent over time, surveillance for their detection is an essential prerequisite for early educational and other interventions to support learning and successful transition to independent adult life.

The Short End of the Stick C.R. Asher,2014-05-06 A short but sweet brand new poetry book by C.R. Asher. An interesting read for some, but not as much for others.

*38 Bar Blues* C.R. Avery,2010-08-13 C.R. Avery's audaciously charismatic second book, *38 Bar Blues*, is a tome of poetry loaded with bar stool musicality and brass knuckle poetry. Welcome to a

clear glimpse into a motel 50 miles outside of town, a window into the life of a modern troubadour and the courage of a young father trying to keep the highway of diamonds shining while singing the song of innocence. C.R. Avery's writing flows like a Tennessee Williams stage play, from haiku-size poems to longer erotic tales that sink the reader deeper into backstage smoke of Avery's worlds. *38 Bar Blues* is like a Bob Dylan setlist; a play constructed like a Charlie Chaplain silent film; a book built to make the reader laugh and cry. It all comes out as true music. *38 Bar Blues* is the perfectly crafted journal of a living legend. Enter the back-room of an old Italian cafe, where dirty dirty politics, outlaw love, and outrageous beauty are all in the cards.
