Crafting Creativity & Creating Craft Courtney Lee Weida, 2014-11-04 This nine chapter volume explores creativity in art teaching through contemporary craft. A variety of artists, educators and historians share with readers their wealth of practical resources and frameworks for utilizing craft media (fiber, ceramics, baskets, needlepoint, knitting, etc.) and craft approaches (grassroots projects, digital communities, craftivism, etc.) within

contemporary K-12 art education, museum and community programming, and teaching artist residencies. Authors representing a variety of specialties in craft, art, and education examine the resurgence of the handmade and homemade in contemporary youth culture, digital implications of how we define and teach craft creatively, and the overlap of design, function, and beauty in artists' work. The anthology also describes the challenges and potentialities of working with craft in education settings, including the overarching craft of teaching practices. Each chapter provides a range of creative frameworks and practical models that educators can use comprehensively: from dynamic digital resources, to community groups, and lesson plans and activities in craft with art classes and special needs classes. The book serves to propose a working definition and rationale of the functions of craft in daily life, popular and youth culture, and larger social issues (including craft, D.I.Y., and activism/"craftivism").

By Hand Shu Hung, Joseph Magliaro, 2007 In a response to the sleek forms and perfect angles of most late twentieth century design objects, many of today's artists and designers are returning to handmade work such as hand lettering, hand drawing, and hand sewing. *By Hand* features an international collection of the most noteworthy artists and shows their work in detailed photography and insightful texts. From books to pillows to T-shirts to toys, the pieces in this volume define an alternative view of contemporary design. Personal craft is emphasized over perfection and the personality of the artist is put forth as a key element of the finished product. From Kiki Smith's lovingly etched birds to Barb Hunt's knitted land mines to dynamo-ville's one-of-a-kind puppets to Evil Twin's hand-stitched publications, today's art revels in the care and consideration of craft.

Material World Perri Lewis, 2012-11-02 Tired of the clichés often trotted out about craft, Perri Lewis makes it her task to bring

the world of making into the 21st century. In *Material World*, Perri enlists the help of luminaries from the worlds of art, craft, design and fashion to share their knowledge and advice. Among these include Rob Ryan, Emma Bridgewater, Grayson Perry, Philip Treacy, Tatty Devine, Topshop and Tracey Emin. Instead of just giving the reader individual projects, you can learn the techniques for crafts such as paper-cutting, dress-making, printing, encrusting, leather work and tailoring. However, if you prefer more guidance, there are 15 projects to make, including découpage shoes, a patchwork Louis chair and a printed scarf. With the compiled words of wisdom of these experts, and Perri's own timeless advice, you'll be up and running with scissors in no time.
