Theodor Storm's Craft of Fiction Clifford A. Bernd,1966 Bernd's study shows how Storm's Novellen are made purposeful by the operations of a fictional intelligence, haunted by the fear of passing time. The author challenges the traditional belief that Storm's narratives are products of a sentimental mind. No other discussion of Storm's tales, be it analysis of an individual narrative or collective treatment of several or all of them, seeks to interpret them with such specific emphasis upon their fictional, omniscient narrator. This concentration on the fictional narrator also leads into a study of Storm's subjective narrative form.

Now, the best of those projects, including step-by-step instructions and full-color photographs, have been collected into a single encyclopedia. Organized by topic from A to Z, Martha Stewart's Encyclopedia of Crafts contains complete instructions and brief histories for more than 30 techniques, detailed descriptions of the necessary tools and materials, and easy-to-copy templates. Martha and her team of crafts editors guide readers through each subject, from botanical pressing and decoupage to rubber stamping and wreaths, with characteristic clarity and unparalleled attention to detail. Crafters of all skill and experience levels will appreciate the many variations presented for each technique. For example, candlemaking presents a comprehensive array of poured, rolled, and cutout candles, including instructions for making your own one-of-a-kind rubber candle molds, floating candles, sand candles, and more. Each craft in the book takes on charming new dimensions with innovations that could come only from the team behind Martha Stewart Living. In addition, each entry in Martha Stewart's Encyclopedia of Crafts is chock-full of tips and advice. Handy glossaries in the entries—such as a comprehensive gem glossary, a glitter glossary, and a color glossary for making tinted wax—are valuable references that crafters will refer to again and again. What's more, the Tools and Materials section outlines the best essential supplies that every crafter needs to have on hand, and the Sources pages clue readers in to the vendors and suppliers that the magazine's crafts editors rely on most. Filled with solid technical know-how, and presented with gorgeous color photographs, this handy guide can be read page by page and kept as a lasting reference by crafters and artisans alike.

Beyond Craft Steve Westbrook,James Ryan,2020-08-20 Simultaneously a handbook and a critique of one, Beyond Craft combines an orientation to the field of creative writing with an insight into current scholarship surrounding creative writing pedagogy. A much-needed alternative to the traditional craft guide, this text pairs advice and exercises on composition with an illuminating commentary on the issues surrounding these very techniques. Teaching the craft whilst apprising students of the issues of craft pedagogy, this book allows them to gain an awareness of how current pedagogy comes at the expense of larger and increasingly relevant cultural concerns. Westbrook and Ryan bring emerging writers into the larger conversations that define the field, inviting them to: - Contextualize their own writing practices and educational experiences in relation to the history of creative writing as an academic discipline. - Determine how New Critical lore and Romantic mythology may affect-even distort-their understanding of literary production. - Critically examine their notions of authorship, collaboration, and invention in relation to contemporary literary and rhetorical theory. - Understand and evaluate the economic, social, political, and professional challenges facing creative writers today. - Analyze the contemporary literary marketplace not only to identify potential publication contexts but also to understand how issues of diversity and bias affect writing communities. - Reflect on how increasingly rapid technological developments may affect their own writing and the future of literature. Earnestly self-aware throughout, Beyond Craft both inducts new writers into the field of creative writing and infuses them with an understanding of the wider dialogue surrounding their craft.
