The Liar's Ball Vicky Ward,2014-10-27 Inside the world of the real Great Gatsby of New York real estate Harry Macklowe is one of the most notorious wheelers and dealers of the real estate world, and Liar's Ball is the story of the gamblers and thieves who populate his world. Watch as Harry makes the gutsy bid for midtown Manhattan's famous

GM building and put almost no money down, landing the billion-dollar transaction that made him the poster child for New York's real estate royalty. Listen in on the secret conversations, back-door deals, and blackmail that put Macklowe and his cronies on top—and set them up for an enormous fall. Vanity Fair contributing editor Vicky Ward skillfully paints the often scandalous picture of the giants who owned the New York skyline until their empires came crumbling down in the 2008 financial crisis. Based on more than 200 interviews with real estate moguls like Donald Trump, William Zeckendorf, Mort Zuckerman, and David Simon, *Liar's Ball* is the never-before-told story of the egomaniacal elites of New York City. Read about: The epic rise and fall of one of the richest American real estate barons Outlandish greed and cravings for power, attention, and love Relationships built and destroyed by vanity and gossip The bursting of the real estate bubble and its aftermath This is no fiction—this is a real life tale of extravagance, ambition, and power. Harry Macklowe ruthlessly clawed his way to the top with the help of his loyal followers, each grubbing for a piece of the real estate pie. *Liar's Ball* reveals their secrets and tells the tale of business as usual for this group—lying, backstabbing, and moving in for the kill when things look patchy. From the bestselling author of *The Devil's Casino* comes an expos??? on the real estate elite that you'll hardly believe.

Commercial Real Estate and Financial Stability: Evidence from the US Banking Sector Mr. Salih Fendoglu, 2021-05-26 This note analyzes the implications of changes in commercial real estate (CRE) prices for the stability of the US banking sector. Using detailed bank-level and CRE price data for US metropolitan statistical areas, the analysis shows that, following a decline in CRE prices, banks with greater exposures to CRE loans perform worse than their counterparts, experiencing higher non-performing CRE loans, lower revenues, and lower capital. These effects are particularly pronounced if the drop in CRE prices turns out to be persistent because of possible structural shifts in CRE demand—for example, because of an increased trend toward e-commerce and teleworking—even after the coronavirus disease (COVID-19) pandemic is over. The impact of a decline in CRE prices is especially true for small and community banks, which tend to have the highest CRE loan exposures. While the US banking sector has remained resilient during the pandemic crisis due to strong capital buffers and massive policy support, these findings suggest that continued vigilance is warranted with regard to potential downside risks to CRE prices amidst ongoing structural shifts in the sector.

Characterization of Cre Expression in Bac-Pcp2-Ires-Cre Transgenic Mice Hoi-Lam Alam Ng, 2017-01-27 This dissertation, Characterization

of Cre Expression in BAC-Pcp2-IRES-Cre Transgenic Mice by Hoi-lam, Alam, Ng, [redacted], was obtained from The University of Hong Kong (Pokfulam, Hong Kong) and is being sold pursuant to Creative Commons: Attribution 3.0 Hong Kong License. The content of this dissertation has not been altered in any way. We have altered the formatting in order to facilitate the ease of printing and reading of the dissertation. All rights not granted by the above license are retained by the author. Abstract: Abstract of thesis entitled Characterization of Cre expression in BAC-Pcp2-IRES-Cre Transgenic mice submitted by Ng Hoi Lam Alam for the degree of Master of Philosophy at the University of Hong Kong in August 2005 It has long been known that intracellular transportation system is relied on the cooperation and interdependence of microfilaments and microtubule networks (Schliwa, M., 1999). Previous studies by Huang et al. suggest that the motors associated with these two cytoskeletal networks are coordinated and interacted directly through an actin-based motor, MyoVA and a microtubule-based motor, the ubiquitously expressed kinesin heavy chain (Khcu or kinesin-1) (Huang, J.D. et al., 1999). In order to study the role of kinesin-1, PC-specific Khcu knockout mice will be generated. This relies on: 1) mouse with loxP sites inserted in Khcu gene and 2) mouse expresses cre activity in cerebellar PCs. Using BAC as a carrier, cre cDNA is inserted after the promoter of Pcp2 and introduced into the genome to generate a transgenic mouse line BAC-Pcp2-IRES-Cre (Zhang et al., 2004). Under the control of Pcp2 promoter, Cre activity should be

expressed only in cerebellar PC and retinal rod bipolar cells. Using ROSA26 and Z/EG reporter mouse lines, Cre activities are detected in different postnatal days. My results show that Cre activity starts at postnatal day 6 and 7 in cerebellar PC and retinal rod bipolar cells, respectively. This transgenic mouse line shows high specificity that Cre expression is detected only in cerebellar PC and retinal rod bipolar cells, but not in other parts of the body. In addition, there is no observable difference in the morphology and developmental pattern of these cells. As a result, BAC-Pcp2-IRES-Cre can be applied to generate PC- or rod bipolar cell-specific kinesin-1 knockout mice. 2 DOI: 10.5353/th\_b3627824 Subjects: Genetic recombination Gene expression Kinesin Biological transport Transgenic mice

*Commercial Real Estate Restructuring Revolution*

Stephen B. Meister,2010-12-01 How to plan for the commercial real estate collapse Encompassing apartment, office, retail, hospitality, warehouse, manufacturing, and flex or R & D buildings, commercial real estate (CRE) investment in the U.S. totaled \$6.4 trillion at the end of 2008. As noted in the February 2010 Congressional Oversight Panel Report, \$1.4 trillion of CRE debt is coming due by 2014 and half of the CRE projects securing such debt are underwater. Commercial Real Estate Restructuring Revolution: Strategies, Tranche

Warfare, and Prospects for Recovery looks at how we got into this mess—impacts of the housing crisis, debt structures, lender-borrower collusion, and bankruptcy abuses—and offers possible solutions to the CRE crisis. Along the way, author Stephen Meister:

- Discusses how CRE value losses are being driven by investors' risk adjusted cap rates, not just poorer market fundamentals
- Discusses strategies and emerging trends in CRE foreclosures, including forced lender fundings, lender attempts to chill bids and UCC foreclosure tactics and pitfalls
- Proposes legislative solutions and explains how any rebound will require federal spending cuts, a vast deleveraging and a market clearing process

With a crashing CRE debt market and the hundreds of CRE-heavy regional banks destined for failure, getting out ahead of the curve is essential. Commercial Real Estate Restructuring Revolution addresses how we got here and how you can plan for the impending crash.
