The Storm-God and the Sea Noga Ayali-Darshan,2020-05-12 The tale of the combat between the Storm-god and the Sea that began circulating in the early second millennium BCE was one of the most well-known ancient Near Eastern myths. Its widespread dissemination in distinct versions across disparate locations and time periods - Syria, Egypt, Anatolia, Ugarit, Mesopotamia, and Israel - calls for analysis of all the textual variants in order to determine its earliest form, geo-cultural origin, and transmission history. In undertaking this task, Noga Ayali-Darshan examines works such as the Astarte Papyrus, the Pisaisa Myth, the Songs of Hedammu and Ullikummi, the Baal Cycle, Enuma elis, and pertinent biblical texts. She interprets these and other related writings philologically according to their provenance and comparatively in the light of parallel texts. The examination of this story appearing in all the ancient Near Eastern cultures also calls for a discussion of the theology, literature, and history of these societies and the way they shaped the local versions of the myth.

Storm in a Teacup: The Physics of Everyday Life Helen Czerski,2017-01-10 “[Czerski’s] quest to enhance humanity’s everyday scientific literacy is timely and imperative.”—Science Storm in a Teacup is Helen Czerski’s lively, entertaining, and richly informed introduction to the world of physics. Czerski provides the tools to alter the way we see everything around us by linking ordinary objects and occurrences, like popcorn popping, coffee stains, and fridge magnets, to big ideas like climate change, the energy crisis, or innovative medical testing. She provides answers to vexing questions: How do ducks keep their feet warm when walking on ice? Why does it take so long for ketchup to come out of a bottle? Why does milk, when added to tea, look like billowing storm clouds? In an engaging voice at once warm and witty, Czerski shares her stunning breadth of knowledge to lift the veil of familiarity from the ordinary.

Jim Rogers, Haworth of black swan fund, Stan Druckenmiller, Senator Ron: All of them predict The Coming Storm. The world is an uncertain place, and all monetary policymakers can really be sure of is that what will happen is often different from what we currently expect, Stanley Fischer, the No. 2 at the U.S. Federal Reserve, USA Uncertain... ----- will reach the nadir. The lowest point. As I write this on February 12 2016 the world witnessed just the beginning of the great fall that will culminate in the worst unimaginable economic disaster of this millennium. On February 11 2016 Janet Yellen chaired a meet of the US Fed. During the meet, news channels were abuzz 'China faced its worst year of economic growth in a quarter century. Wall Street closed to the worst ever start to a year.' Gold spiked. This is what has happened.
