A Little SPOT of Creativity Diane Alber,2020-03-14 Inspire to Create a Better You Series.

The Creativity Project Colby Sharp,2018-03-13 Book advocate Colby Sharp presents more than forty beloved, award-winning, diverse and bestselling authors and illustrators in a creative challenge! Colby Sharp invited more than forty authors and illustrators to provide story starters for each other; photos, drawings, poems, prose, or anything they could dream up. When they received their prompts, they responded by transforming these seeds into any form of creative work they wanted to share. The result is a stunning collection of words, art, poetry, and stories by some of our most celebrated children book creators. A section of extra story starters by every contributor provides fresh inspiration for readers to create works of their own. Here is an innovative book that offers something for every kind of reader and creator! With contributions by Sherman Alexie, Tom Angleberger, Jessixa Bagley, Tracey Baptiste, Sophie Blackall, Lisa Brown, Peter Brown, Lauren Castillo, Kate DiCamillo, Margarita Engle, Deborah Freedman, Adam Gidwitz, Chris Grabenstein, Jennifer L. Holm, Victoria Jamieson, Travis Jonker, Jess Keating, Laurie Keller, Jarret J. Krosoczka, Kirby Larson, Minh Lê, Grace Lin, Kate Messner, Daniel Nayeri, Naomi Shihab Nye, Debbie Ohi, R.J. Palacio, Linda Sue Park, Dav Pilkey, Andrea Davis Pinkney, Jewell Parker Rhodes, Dan Santat, Gary Schmidt, John Schu, Colby Sharp, Bob Shea, Liesl Shurtliff, Lemony Snicket, Laurel Snyder, Javaka Steptoe, Mariko Tamaki, Linda Urban, Frank Viva, and Kat Yeh.

Creativity, Inc. (The Expanded Edition) Ed Catmull,Amy Wallace,2023-09-28 The co-founder and longtime president of Pixar updates and expands his 2014 New York Times bestseller on creative leadership, reflecting on the management principles that built Pixar’s singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. “Might be the most thoughtful management book ever.”—Fast Company For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Finding Nemo, The Incredibles, Up, and WALL-E, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie’s success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such as: • Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better. • It’s not the manager’s job to prevent risks. It’s the manager’s job to make it safe for others to take them. • The cost of preventing errors is often far greater than the cost of fixing them. • A company’s communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody. Creativity, Inc. has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout. Pursuing excellence isn’t a one-off assignment but an ongoing, day-in, day-out, full-time job. And Creativity, Inc. explores how it is done.

Story Sparkers Marcia Thornton Jones,Debbie Dadey,2000 This book shows children's writers how to generate, assess, and apply ideas for fiction as well as nonfiction, short projects as well as long ones. They'll find exercises, worksheets, and guidelines that will enable them to apply what they learn to on-going projects - or to help them begin new projects. The authors begin with an overview of how to write for children then move into the specifics of idea generation. Readers will learn creativity techniques, where to find ideas, how to assess each idea's potential and which form will suite the idea best - picture book, chapter book or nonfiction article. Marcia Thornton Jones and Debbie Dadey are the authors of the bestselling Adventures of the Bailey School Kids series, Triplet Trouble series, and the Bailey City Monsters series, all published by Scholastic. Both speak at writer's conferences across the country. Children's writers will recognize the names of these authors and want to find out their formula for success. There is no other book like this one for children's writers.

Enhancing Creativity Through Story-Telling Alessandro Antonietti,Paola Pizzingrilli,Chiara Valenti,2020-12-11 This book examines the evidence-based interventions that can be used to promote creative thinking skills for children and adolescents in schools. It begins by explaining the theoretical basis of these training programmes, before presenting a coherent framework for the application of creativity theory in education. The authors describe and analyse programmes that have drawn on this framework, before offering an overview of the results of experimental studies which have validated the authors’ approach. This book provides practical guidance on how the programmes can be applied in the classroom and discusses potential future directions for research and practice for increasing children’s creativity. This book will be a valuable resource for teachers and teacher trainers, as well as to researchers in the psychology of creativity, education, and educational psychology.

How to Write a Story Kate Messner,2020-07-07 Help your child explore their creativity with this ten-step guide to writing a story. Step 1: Choose an idea for your story. A good one. Step 2: Decide on a setting. Don’t be afraid to mix things up. Step 3: Create a heroine—or a hero. Now: Begin. Accomplished storytellers Kate Messner and Mark Siegel playfully chronicle the process of becoming a writer in this fun follow-up to How to Read a Story, guiding young storytellers through the joys and challenges of the writing process. From choosing an idea, to creating a problem for their character to resolve, to coming to The End, this empowering picture book breaks down the writing process in a dynamic and accessible way, encouraging kids to explore their own creativity—and share their stories with others! Praise for How to Write a Story “That muse of fire isn’t going to ascend all by herself, so Messner and Siegel, in their follow-up to How to Read a Story, walk readers through 10 steps of literary creation, starting with ‘search for an idea’ and ending with ‘share your story’. . . . Readers new to writing should find this accessible volume a smart choice to get the creative writing juices flowing.” —Publishers Weekly “A lovely encouragement to young writers to persist.” —Kirkus Reviews

Jackie and Creativity Go to School Lynda Hope,2016-05-17 The Creatively Creative Story about Creativity, proudly presents the first in a series of creativity books for children 4-8 years old and their parents. However, Courage, Happy, Joy and Hope are not about to let anything happen to their good friends, Jackie and Creativity!

The Circus in Winter Cathy Day,2005-07-06 Over a half century, a small Indiana town hosts a circus troupe during the off-seasons in linked stories “as graceful as any acrobat’s high-wire act” (San Francisco Chronicle). A Story Prize Finalist From 1884 to 1939, the Great Porter Circus made the unlikely choice to winter in an Indiana town called Lima, a place that feels as classic as Sherwood Anderson's Winesburg, Ohio, and as wondrous as a first trip to the Big Top. In Lima, an elephant can change the course of a man's life—or the manner of his death. Jennie Dixianna entices men with her dazzling Spin of Death and keeps them in line with secrets locked in a cedar box. The lonely wife of the show’s manager has each room of her house painted like a sideshow banner, indulging her desperate passion for a young painter. And a former clown seeks consolation from his loveless marriage in his post-circus job at Clown Alley Cleaners. In this collection of linked stories spanning decades, Cathy Day follows the circus people into their everyday lives and brings the greatest show on earth to the page. “[An] exquisite story collection.” —The Washington Post “Often funny, always graceful, and rich with a mix of historical and imaginative detail.” —Tim O’Brien, author of The Things They Carried “Sublimely imaginative and affecting.” —The Boston Globe

The Creative Process Charlotte L. Doyle,2021-12-22 The Creative Process: Stories from the Arts and Sciences asks how celebrated works of art and breakthroughs in science came to be. What was the first inkling? What were the steps and missteps along the way? How was the process experienced by the creative person as it proceeded? And what are the implications for the psychology of the creative process? Each chapter focuses on a specific creative endeavor, situating the work in the context of domain, culture, and historical era. Then it traces the development of the work—from what we know of its beginnings to its fulfillment. Qualitative

materials—interviews, notebooks, diaries, sketches, drafts, and other writings—allow a story of the creative process as lived to emerge. The narratives exemplify established concepts in the psychology of creativity, propose broadening some, reveal the need for modification, and suggest new ones. Application of phenomenological frameworks illuminate the episodes in new ways as well. The case study approach proves again that each episode is unique, yet themes and variations come into view when the episodes are considered together in a final reflection. From Darwin’s theory to an unusual jazz sound, here are 11 fascinating stories of how specific works took shape. Psychologists, students interested in creativity, and all those intrigued by the process in any creative field will find this book essential reading.

A Swim in a Pond in the Rain George Saunders, 2021-01-12 NEW YORK TIMES BESTSELLER • From the Booker Prize-winning author of *Lincoln in the Bardo* and *Tenth of December* comes a literary master class on what makes great stories work and what they can tell us about ourselves—and our world today. LONGLISTED FOR THE PEN/DIAMONSTEIN-SPIELVOGEL AWARD • ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, NPR, Time, San Francisco Chronicle, Esquire, Milwaukee Journal Sentinel, Town & Country, The Rumpus, Electric Lit, Thrillist, BookPage • “[A] worship song to writers and readers.”—Oprah Daily For the last twenty years, George Saunders has been teaching a class on the Russian short story to his MFA students at Syracuse University. In *A Swim in a Pond in the Rain*, he shares a version of that class with us, offering some of what he and his students have discovered together over the years. Paired with iconic short stories by Chekhov, Turgenev, Tolstoy, and Gogol, the seven essays in this book are intended for anyone interested in how fiction works and why it’s more relevant than ever in these turbulent times. In his introduction, Saunders writes, “We’re going to enter seven fastidiously constructed scale models of the world, made for a specific purpose that our time maybe doesn’t fully endorse but that these writers accepted implicitly as the aim of art—namely, to ask the big questions, questions like, How are we supposed to be living down here? What were we put here to accomplish? What should we value? What is truth, anyway, and how might we recognize it?” He approaches the stories technically yet accessibly, and through them explains how narrative functions; why we stay immersed in a story and why we resist it; and the bedrock virtues a writer must foster. The process of writing, Saunders reminds us, is a technical craft, but also a way of training oneself to see the world with new openness and curiosity. *A Swim in a Pond in the Rain* is a deep exploration not just of how great writing works but of how the mind itself works while reading, and of how the reading and writing of stories make genuine connection possible.

To Pixar and Beyond Lawrence Levy, 2016-11-01 An insider's never-before-told story about how a struggling computer animation company called Pixar became one of the greatest entertainment organizations of all time. ¶“Part business book and part thriller—a tale that’s every bit as compelling as the ones Pixar tells in its blockbuster movies.”—Dan Lyons, best-selling author of *Disrupted* ¶After he was dismissed from Apple in the early 1990s, Steve Jobs turned his attention to a little-known graphics company he owned called Pixar. One day, out of the blue, Jobs called Lawrence Levy, a Harvard-trained lawyer and executive to whom he had never spoken before. He hoped to persuade Levy to help him pull Pixar back from the brink of failure. This is the extraordinary story of what happened next: how Jobs and Levy concocted and pulled off a highly improbable plan that transformed Pixar into the Hollywood powerhouse it is today. Levy offers a masterful, firsthand account of how Pixar rose from humble beginnings, what it was like to work so closely with Jobs, and how Pixar’s story offers profound lessons that can apply to many aspects of our professional and personal lives. ¶ “[A] delightful book about finance, creative genius, workplace harmony, and luck.”—Fortune ¶“Enchanting.”—The New York Times ¶“I love this book! I think it is brilliant.”—Ed Catmull, cofounder and president of Pixar Animation, president of Disney Animation, and coauthor of the bestseller *Creativity Inc.* ¶“A natural storyteller, Levy offers an inside look at the business and a fresh, sympathetic view of Jobs.”—Success Magazine ¶An Amazon Best Book of 2016 in Business & Leadership • A top pick on Fortune’s Favorite Books of 2016 • A 2017 Axiom Business Book Award winner in Memoir/Biography ¶

Crossover Creativity Dave Trott, 2023-02-07 Ideas don’t just happen, they don’t spring from nowhere. Ideas come to life from everything that’s already inside our brains. Because new ideas are actually a new reaction between existing ideas. This means creativity is about finding ways to put unrelated, disconnected things together. When two unrelated things come together, something new springs into existence, they form a third thing, and that becomes a new idea. That’s Crossover Creativity. The more you read, watch, observe and consume, the more fuel for ideas you have in your brain, the more crossover creativity will happen for you. In this latest collection of stories about creativity in real-life situations, Dave Trott presents examples of crossover creativity in action – as a guide for those who have to generate ideas in advertising, business, sport, or anywhere in the wider world.
