Cubed Erno Rubik, 2020-09-15 The first book by the reclusive inventor of the world's most iconic puzzle **THE RUBIK'S CUBE**. Erno Rubik inspires us with what he's learned in a lifetime of creating, curiosity, and discovery. Erno Rubik was a child when he first became obsessed with puzzles of all kinds. "Puzzles," he writes, "bring out important qualities in each of us: concentration, curiosity, a sense of play, the eagerness to discover a solution." To Rubik puzzles aren't just games—they're creativity machines. He encourages us to embrace our inner curiosity and find the puzzles that surround us in our everyday lives. "If you are determined, you will solve them," he writes. Rubik's own puzzle, the Cube, went on to be solved by millions worldwide for over forty years, become one of the bestselling toys of all time, and to be featured as a global symbol of intelligence and ingenuity. In *Cubed*, Rubik covers more than just his journey to inventing his eponymous cube. He makes a case for always being an amateur—something he has always considered himself to be. He discusses the inevitability of problems during any act of invention. He reveals what it was like to experience the astonishing worldwide success of an object he made purely for his own play. And he offers what he thinks it means to be a true creator (hint: anyone can do it). Steeped in the wisdom and also the humility of a born inventor, *Cubed* offers a unique look at the imperfect science of creation.

House of Stairs William Sleator,1991-04-01 This chilling, suspenseful indictment of mind control is a classic of science fiction and will haunt readers long after the last page is turned. One by one, five sixteen-year-old orphans are brought to a strange building. It is not a prison, not a hospital; it has no walls, no ceiling, no floor. Nothing but endless flights of stairs leading nowhere--except back to a strange red machine. The five must learn to love the machine and let it rule their lives. But will they let it kill their souls? An intensely suspenseful page-turner. --School Library Journal A riveting suspense novel with an anti-behaviorist message that works . . . because it emerges only slowly from the chilling events. --Kirkus Reviews

**The Cube People** Christian McPherson, 2015-07-15 Christian McPherson's debut novel *The Cube People* pokes fun at government cubicle culture through the life and times of a struggling computer programmer/novelist wannabe. McPherson surrounds his protagonist, Colin MacDonald, with a cast of screwball characters while he toils away at his government job, struggles with fertility and dreams of becoming a published writer. Recycled air, bad lighting and bizarre environmental office policies by day; scheduled love-making sessions and rejection letters by night, push MacDonald to try to write his way out of his cyclical life story. Part tragedy, part comedy—with a bit of

horror thrown in for fun—McPherson cooks up a boiling plot and a memorable anti-hero.
