The Name on the Envelope Michael M. Dowd, 2019-10-18 Name on the Envelope
By: Michael M. Dowd Everyone has a story and for Michael M. Dowd his story is one of discovery—about who he is, how his life began, and the many twists and turns that led him to a family he never knew he had. Like most people, he experienced his share of happiness, sadness, pain, and suffering. But unlike most people, part of Michael's life remained a mystery. It wasn't until he embarked on a journey to learn more about his birth mother that Michael began to realize that he spent most of life unaware that he had another family. The Name on the Envelope is about Michael's journey to learn more about his family, but it is also about his reflections on his life and how our experiences shape who we are and who we become.

The Yellow Envelope Kim Dinan, 2017-04-04 What Would You Do with a Yellow Envelope? After Kim and her husband decide to quit their jobs to travel around the world, they're given a yellow envelope containing a check and instructions to give the money away. The only three rules for the envelope: Don't overthink it; share your experiences; don't feel pressured to give it all away. Through Ecuador, Peru, Nepal, and beyond, Kim and Brian face obstacles, including major challenges to their relationship. As she distributes the gift to people she encounters along the way she learns that money does not have a thing to do with the capacity to give, but that giving—of ourselves—is transformational.

Pushing the Envelope Marion Carl, Barrett Tillman, 2014-03-15 First published in 1994, this stirring autobiography of a fighter and test pilot takes readers full throttle through Carl's imposing list of firsts. Beginning with his World War II career, he gained such commendations as first Marine Corps ace, among the first Marines ever to fly a helicopter, and first Marine to land aboard an aircraft carrier. His combat duty included the momentous battles at Midway and Guadalcanal. Not one to rest on his laurels, however, he participated in photoreconnaissance operations over Red China in 1955 and flew missions in Vietnam. In peacetime he gained fame for pushing the envelope as a test pilot, adding the world's altitude and peace records to his wartime feats and becoming the first U.S. military aviator to wear a full pressure suit. Such achievements also led to Carl's being the first living Marine admitted to the Naval Aviation Hall of Honor, as well as the first Marine to be named to the Navy Carrier Aviation Test Pilots Hall of Honor. This very readable memoir is as forthright and compelling as the man it chronicles.

Behold Faith and Other Stories Tom Noyes, 2002-12-02 In sometimes humorous and sometimes tragic, even violent contexts, the characters in these stories struggle to fathom the complexities and circumstances of their lives. Here are ordinary people trying to come to grips with the implications of where they've been, and preparing themselves for where they're headed. All these

stories seek to interrogate and render in genuine and unflinching ways the nature of doubt, delusion, and surprisingly, the potentially rescuing powers of faith and grace. They are above all, honest and compassionate stories. Here is a writer you can trust; here are people you have known. (Behold Faith)

Three Envelopes Nir Hezroni,2017-04-11 Agent 10483 carried out his missions perfectly. Too perfectly. When a top agent in the Israeli Organization receives a disturbing notebook written by the mysterious 10483, supposedly dead for years, he realizes that something went terribly wrong. Is 10483 a psychopath who outwitted his handlers for years? Or was he manipulated by his superiors to carry out the most monstrous assassinations in the history of the state of Israel? And why was he the only agent to receive three envelopes with targeted killing assignments instead of one, as part of a lethal and top secret operation? Was he responsible for locking up his victims and staging their deaths, or was he himself merely the victim of a brilliant scientist whose cutting-edge discoveries enabled her to manipulate his brain waves? Offering a fascinating behind-the-scenes glimpse into the technology of high-level intelligence operations, Nir Hezroni's dark thriller is a chilling exploration of the mind of a master killer. --

The Ecologies of the Building Envelope Alejandro Zaera-Polo,Jeffrey

Anderson, 2021-05-11 The Ecologies of the Envelope theorizes the building envelope as a literal embodiment of the social, political, technological, and economic contingencies which have become embedded within it over the last century, analyzing the historical lineages, heroes and villains that helped define the complex material ecologies we see within the envelope today. While the façade is one of the most thoroughly theorized elements of architecture, it is also one of the most questioned since the end of the 19th century. Within the discipline of architecture, the traditional understanding of the façade focuses primarily on semiotic and compositional operations (such as proportional laws and linguistic codes), which are deployed on the building's surface. In contrast to this, our material and environmental theory of the envelope proposes that the exponential development of building technologies since the mid-19th century, coupled with new techniques of management and regulation, have diminished the compositional and ornamental capacities of the envelope in favor of material, quantitative, and technical performances. Rather than producing a stylistic analysis of the façade, we investigate the historical lineages of the performances, components, assembly types, and material entanglements that constitute the contemporary building envelope.
