Webster, 1989 Dorie Reents-Budet, Curator, Pre-Columbian Art, Duke University Museum of Art, Claude Baudez, William Fash Jr., Berthold Riese, William Sanders, and David Webster contribute to this monograph, and using an integrated art historical and anthropological approach, consider the House of the Bacabs' context as an elite Maya structure, its excavation and restoration, and its iconographic and epigraphic reconstruction and interpretation, to establish models for understanding Classic Maya social and political life.

In the Time of the Butterflies Julia Alvarez, 2010-01-12 Celebrating its 30th anniversary in 2024, internationally bestselling author and literary icon Julia Alvarez's *In the Time of the Butterflies* is beautiful, heartbreaking and alive ... a lyrical work of historical fiction based on the story of the Mirabal sisters, revolutionary heroes who had opposed and fought against Trujillo. (Concepción de León, New York Times) Alvarez's new novel, *The Cemetery of Untold Stories*, is coming April 2, 2024. Pre-order now! It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leónidas Trujillo's dictatorship. It doesn't have to. Everybody knows of Las Mariposas—the Butterflies. In this extraordinary novel, the voices of all four sisters—Minerva, Patria, María Teresa, and the survivor, Dedé—speak across the decades to tell their own stories, from secret crushes to gunrunning, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human costs of political oppression. Alvarez helped blaze the trail for Latina authors to break into the literary mainstream, with novels like *In the Time of the Butterflies* and *How the García Girls Lost Their Accents* winning praise from critics and gracing best-seller lists across the Americas.—Francisco Cantú, *The New York Times Book Review* This Julia Alvarez classic is a must-read for anyone of Latinx descent. —Popsugar.com A gorgeous and sensitive novel . . . A compelling story of courage, patriotism and familial devotion. —People Shimmering . . . Valuable and necessary. —Los Angeles Times A magnificent treasure for all cultures and all time.” —St. Petersburg Times Alvarez does a remarkable job illustrating the ruinous effect the 30-year dictatorship had on the Dominican Republic and the very real human cost it entailed.—Cosmopolitan.com

The Fantasy of Individuality Almudena Hernando, 2017-08-14 The Enlightenment promised humanity a bright future of emancipation which never actually materialized. Instead, our social order is still based on gender inequality, which rests upon a false conviction: that the individual can be conceived of as separate from community; that the more individualized a person is, the less they need to establish links with their community to feel safe; and that the more they use reason to build a relationship with the world, the less they need emotions. This conviction, which guides the ideals of our social system, is based on a fantasy: the fantasy of individuality. This volume is a step in fleshing out the historical reasons for gender inequality from the origins of humankind to present times in the Western world. It is a theoretically-informed and up-to-date overview of the history of gender inequality that takes as its starting point the mechanisms through which human beings construct their self-identity. Starting from a peripheral, interdisciplinary and heterodox perspective, this book intends to appraise the complexity of gender identity in all its richness and diversity. It seeks to understand the persistence of relationality in supposedly fully individualized male selves, and the construction of new forms of individuality among women that did not follow the masculine model. It is argued here that by balancing community and self beyond the contradictions of hegemonic masculinity, modern women are struggling to build a new, more empowering form of personhood. The author is an archaeologist, who uses her discipline not only to provide data, theory and a long-term perspective, but also in a metaphorical sense: to construct a socio-historical genealogy of current gender systems, through an examination of how personhood and self-identity have been constructed in the Western world.

Reality Television Contracts Battista Paul, Hayley Hughes, 2016-03-22 Reality television is the growth area of television today. Individuals around the country want to be involved, whether in front of the camera or behind, and those who want to produce reality television seek to attract talent—maybe from the local beauty salon or perhaps the rodeo, extermination company, or trucking company—to begin taping their own sizzle reels to pitch to Hollywood production companies. At long last, here is a book that explains and educates those involved in reality television (and those who hope to be involved) regarding the terms found in these agreements and how best to negotiate them. This guide also includes: •A brief history of reality television •A breakdown of how ideas develop and of the players involved •Reviews of and comments on agreement templates for all parties in the development and production stages •Deal point checklists to help stay on track Directed at attorneys who currently represent clients in the industry or would like to add reality television to their law practices, at reality television producers or those looking to break into the scene, and at all reality television participants, the contracts included in this book will be an indispensable resource all the way! The Craftsman Richard Sennett, 2009-02-05 Why do people work hard, and take pride in what they do? This book, a philosophically-minded enquiry into practical activity of many different kinds past and present, is about what happens when people try to do a good job. It asks us to think about the true meaning of skill in the 'skills society' and argues that pure competition is a poor way to achieve quality work. Sennett suggests, instead, that there is a craftsman in every human being, which can sometimes be enormously motivating and inspiring - and can also in other circumstances make individuals obsessive and frustrated. *The Craftsman* shows how history has drawn fault-lines between craftsman and artist, maker and user, technique and expression, practice and theory, and that individuals' pride in their work, as well as modern society in general, suffers from these historical divisions. But the past lives of crafts and craftsmen show us ways of working (using tools, acquiring skills, thinking about materials) which provide rewarding alternative ways for people to utilise their talents. We need to recognise this if motivations are to be understood and lives made as fulfilling as possible.

The Simpsons and Their Mathematical Secrets Simon Singh, 2013-10-29 You may have watched hundreds of episodes of The Simpsons (and its sister show Futurama) without ever realising that they contain enough maths to form an entire university course. In The Simpsons and Their Mathematical Secrets, Simon Singh explains how the brilliant writers, some of the mathematicians, have smuggled in mathematical jokes throughout the cartoon's twenty-five year history, exploring everything from Mersenne primes, from Euler's equation to the unsolved riddle of P vs. NP, from perfect numbers to narcissistic numbers, and much more. With wit, clarity and a true fan's zeal, Singh analyses such memorable episodes as 'Bart the Genius' and 'Homer3' to offer an entirely new insight into the most successful show in television history.

Muqarnas 35 Gülru Necipoğlu, Maria J. Metzler, 2018 Muqarnas 35 begins in Almohad Marrakesh, with one article analyzing the plan of the twelfth-century Kutubiyya Mosque and another on the hydraulics, architecture, and agriculture of the Agdal, a medieval Islamic estate that continues to be cultivated. The volume also contains an essay discussing the patronage and decoration of the Begumpuri Masjid of Jahanpanah (Delhi), with an accompanying note tracing the history of glazed tiles. Several articles challenge long-held scholarly assumptions on topics such as Mughal portraiture and the atypical square-tower minarets in Herzegovina. Other essays deal with questions of cultural identity, whether manifested in grand-scale architectural monuments or in personal belongings--for example, the family photo album with portraits of Ottoman sultans compiled by a Hungarian woman who immigrated to Istanbul in the mid-nineteenth century; and an illustrated genealogy from seventeenth-century Baghdad that represents tensions between the Ottomans and Safavids. Rounding out the volume is a history of modern art in Baghdad, focusing on the painter Jewad Selim and his encounter with Yahya al-Wasiti's illustrations of the Maqāmāt al-Ḥarīrī. The Notes and Sources section announces the discovery of two rare early Abbasid painted ceramic bowls from recent excavations in central Israel. It also features a study of a nineteenth-century Persian manuscript on porcelain manufacture; as well as a heretofore-unknown manuscript of The Arabian Antiquities of Spain by the Irish architect James Cavanah Murphy, with many extra illustrations, original drawings, and proofs of plates. Volume 35 includes articles by Julio Navarro et al., Abbey Stockstill, Yves Porter and Richard Castinel, Laura E. Parodi, Melis Taner, Maximilian Hartmuth, Nebahat Avcıoğlu, Saleem al-Bahloly, Itamar Taxel et al., Mehran and Moujan Matin, and Lynda S. Mulvin.

The Hempcrete Book William Stanwix, Alex Sparrow, 2014-10-09 A comprehensive practical manual for professionals and self-builders, this innovative book explains the many benefits of building with hempcrete. Hempcrete is a building material with excellent, environmentally friendly properties. It's made from lime and hemp shivs (a waste product from hemp fibre growing) and can be used for walks, floor and roof insulation. Hempcrete is breathable, absorbing and emitting moisture; this helps regulate internal humidity, avoiding trapped moisture and mould growth, and creating healthier buildings. It provides excellent acoustic and thermal insulation, and it is lightweight, which reduces construction costs. Whether you're working on a new build or are planning a renovation, The Hempcrete Book tells you everything you need to know to get started with hempcrete. It describes how to source and mix it, and provides a detailed account of construction techniques, highlighting potential pitfalls and how to avoid them. With fully illustrated design notes and examples of completed builds, this book is a powerful tool for any eco-builder.

The Orange Economy Inter American Development Bank, Iván Duque Márquez, Pedro Felipe Buitrago Restrepo, 2013-10-01 This manual has been designed and written with the purpose of introducing key concepts and areas of debate around the creative economy, a valuable development opportunity that Latin America, the Caribbean and the world at large cannot afford to miss. At the end of this manual, you will have the knowledge base necessary to understand and explain what the Orange Economy is and why it is so important. You will also acquire the analytical tools needed to take better advantage of opportunities across the arts, heritage, media, and creative services.

Time, History, and Belief in Aztec and Colonial Mexico Ross Hassig, 2013-12-18 This illuminating study offers a radical new understanding of how the Aztecs and other Mesoamerican societies conceived of time and history. Based on their enormously complex calendars that recorded cycles of many kinds, the Aztecs and other ancient Mesoamerican civilizations are generally believed to have had a cyclical, rather than linear, conception of time and history. This boldly revisionist book challenges that understanding. Ross Hassig offers convincing evidence that for the Aztecs time was predominantly linear, that it was manipulated by the state as a means of controlling a dispersed tribute empire, and that the Conquest cut off state control and severed the unity of the calendar, leaving only the lesser cycles. From these, he asserts, we have inadequately reconstructed the pre-Columbian calendar and so misunderstood the Aztec conception of time and history. Hassig first presents the traditional explanation of the Aztec calendrical system and its ideological functions and then marshals contrary evidence to argue that the Aztec elite deliberately used calendars and timekeeping to achieve practical political ends. He further traces how the Conquest played out in the temporal realm as Spanish conceptions of time partially displaced the Aztec ones.
