*Ignition!* John Drury Clark,2018-05-23 This newly reissued debut book in the Rutgers University Press Classics Imprint is the story of the search for a rocket propellant which could be trusted to take man into space. This search was a hazardous enterprise carried out by rival labs who worked against the known laws of nature, with no guarantee of success or safety. Acclaimed scientist and sci-fi author John Drury Clark writes with irreverent and eyewitness immediacy about the development of the explosive fuels strong enough to negate the relentless restraints of gravity. The resulting volume is as much a memoir as a work of history, sharing a behind-the-scenes view of an enterprise which eventually took men to the moon, missiles to the planets, and satellites to outer space. A classic work in the history of science, and described as "a good book on rocket stuff...that's a really fun one" by SpaceX founder Elon Musk, readers will want to get their hands on this influential classic, available for the first time in decades.

Oscar Wilde in Quotation Tweed Conrad,2014-12-24 "He had that rarest of all things, common sense." And in the case of Oscar Wilde he also had a gift for delivering this common sense in sometimes pithy but always memorable statements. One of the world's most unforgettable authors, Oscar Wilde had a comment for any and every occasion, many of which are quoted here. From art and actors to vice and virtue, this volume organizes 3109 Oscar Wilde quotations by subject matter, effectively providing a new way to enjoy Wilde's considerable literary legacy. Quotations are taken from Wilde's works, including *The Importance of Being Earnest* and *The Picture of Dorian Gray*, his correspondence, magazine articles and newspaper editorials. Some, which are otherwise not immediately verifiable, are garnered from reliable secondary sources. Sixty-seven chapters deal with topics as varied as death, domesticity, friends and enemies, with the source of each quote duly noted. The work, a fascinating read of Wilde's acute observations, is indexed.

*The Lives of the Sophists* Philostratus (the Athenian), 1921 PHILOSTRATUS AND EUNAPIUS. (a) Of the distinguished Lemnian family of Philostrati, Flavius Philostratus, 'the Athenian', was a Greek sophist (professor), c. A.D. 170-205, who studied at Athens and later lived in Rome. He was author of the admirable Life of Apollonius of Tyana (Loeb Nos. 16 and 17) and Lives of the Sophists (which are really impressions of investigators alert but less fond of scientific method and discovery than of stylish presentation or things known), one part concerning some older, the other some later 'provessors'. Other extant works of this Philostratus are Letters and Gymnasticus, but the Heroicus or Heroica is apparently by another Philostratus, and the Eikones (Imagines, skilful descriptions of pictures, Loeb No. 256) were probably by two Philostrati, on being the son of Nervianus and born c. A.D. 190, the other his grandson who wrote c. AD. 300. (b) The Greek Sophist and historian Eunapius was born at Sardis in A.D. 347, but went to Athens to study and lived much of his life there teaching rhetoric and possibly medicine. He was initiated into the 'mysteries' and was hostile to Christians. Lost is his historical work (covering the years A.D. 270-404) but for excerpts and the use of it made by Zosimus, but we have his Lives of Philosophers and Sophists mainly contemporary whth himself. Eunapius is our only source of our knowledge of Neo-Platonism in the latter part of the fourth century A.D.
