A Teacher, Agitator and Guide Atacan Atakan,2016 This book will examine Talebe Defteri (1913-1919), one of the childrens' magazines published in the late Ottoman period. Preparation for a Revolution M. Sukru Hanioglu,2001-03-01 This book will completely transform the standard interpretation of the Young Turk Revolution of 1908, a watershed event in the late Ottoman Empire and a key to the emergence of the modern nation-states in the Middle East and Balkans. Preparation for a Revolution is the first book on the Young Turk Revolution to draw on both the extensive memoirs and papers of the Young Turks and on the extensive diplomatic archives around the world. The author has plumbed not only the Ottoman Archives but collected documents from archives in Bonn, Berlin, Jerusalem, London, Paris, Rome, Athens, Sofia, Tirana, Bern, Geneva, Sarajevo, Cairo, Stockholm, and Tokyo. Breaking new ground, Hanioglu describes in detail how practical considerations led the Young Turks to sacrifice or alter many of their goals for social transformation. He tells a story rich in character and plot, and reveals the many factions and competing intellectual trends that marked this tumultuous period at the end of the Ottoman Empire. Preparation for a Revolution will prove indispensable to

anyone working on the political, intellectual, and social history of the Ottoman Empire and of the states that were established on its ruins.

Christians and Muslims in Ottoman Cyprus and the Mediterranean World, 1571-1640 Ronald Jennings,1993 Wrested from the rule of the Venetians, the island of Cyprus took on cultural shadings of enormous complexity as a new province of the Ottoman empire, involving the compulsory migration of hundreds of Muslim Turks to the island from the nearby Karamna province, the conversion of large numbers of native Greek Orthodox Christians to Islam, an abortive plan to settle Jews there, and the circumstances of islanders who had formerly been held by the venetians. Delving into contemporary archival records of the lte sixteenth and early seventeenth conturies, particularly judicial refisters, Professor Jennings uncovers the island society as seen through local law courts, public works, and charitable institutions. -- Publisher description.

Mapping the Acehnese Past R. Michael Feener,Patrick Daly,Anthony Reed,2011-01-01 Aceh has become best known in our times for its twin disasters—the worst earthquake and tsunami of modern times in December 2004, and a long-running separatist conflict that rent Indonesia for most of its independent history. Although this book emerged from the process of recovery from those traumas, it turns the spotlight on a more positive and neglected claim Aceh has on our attention, as the Southeast Asian maritime state that most successfully and creatively maintained its independent place in

the world until 1874. Like Burma, Siam and Vietnam, all better protected by geography, Aceh has its own story to tell of a unique culture struggling for survival through the European colonial era.

Negotiating Transcultural Relations in the Early Modern

Mediterranean Stephen Ortega, 2016-04-22 *Negotiating Transcultural Relations in the Early Modern Mediterranean* is a study of transcultural relations between Ottoman Muslims, Christian subjects of the Venetian Republic, and other social groups in the sixteenth and seventeenth centuries. Focusing principally on Ottoman Muslims who came to Venice and its outlying territories, and using sources in Italian, Turkish and Spanish, this study examines the different types of power relations and the social geographies that framed the encounters of Muslim travelers. While Stephen Ortega does not dismiss the idea that Venetians and Ottoman Muslims represented two distinct communities, he does argue that Christian and Muslim exchange in the pre-modern period involved integrated cultural, economic, political and social practices. Ortega's investigation brings to light how merchants, trade brokers, diplomats, informants, converts, wayward souls and government officials from different communities engaged in similar practices and used comparable negotiation tactics in matters ranging from trade disputes, to the rights of male family members, to guarantees of protection. In relying on sources from archives in Venice, Istanbul and Simancas, the book demonstrates the importance of viewing Mediterranean history from a variety of perspectives, and it emphasizes the importance of understanding cross-cultural history as a negotiation between different social, cultural and institutional actors.

A History of Ottoman Libraries İsmail E. Erünsal, 2022-07-26

A History of Ottoman Libraries tells the story of the development and the organization of Ottoman libraries from the fourteenth through the twentieth century. In the first part, the book surveys the phases through which the Ottoman libraries evolved from a few shelves of books to sizable, endowed collections housed in free-standing library buildings. Ottoman libraries were mainly established as charitable foundations, that is by endowing the books and steady income for the maintenance of the collection and the library building. The second part of the book focuses on the organization, the personnel, and the day-to-day functioning of Ottoman libraries. This first complete history of Ottoman libraries was written based on hitherto untapped archival sources.

“Buyurdum ki....” – The Whole World of Ottomanica and Beyond

, 2023-09-04 This book is dedicated to Claudia Römer and brings together 33 contributions spanning a period from the 15th to the 20th century and covering the wide range of topics with which the honouree is engaged. The volume is divided into six parts that present current research on language, literature, and style as well as newer approaches and perspectives in dealing with sources and terminologies. Aspects such as conquest, administration, and financing of provinces are found as well as problems of endowments and the circulation of goods in the Arab provinces of the Ottoman Empire. Another main topic is dedicated to minorities and their role and situation in various provinces and cities of the Ottoman Empire, as represented by various sources. But also topics like conversion, morality and control are illuminated. Finally, the volume provides an insight into the late Ottoman and early republican period, in which some previously unpublished sources (such as travel letters, memoirs)

are presented and (re)discussed. The book is not only aimed at scholars and students of the Ottoman Empire; the thematic range is also of interest to linguists, historians, and cultural historians.

Ottomans, Hungarians, and Habsburgs in Central Europe Pál Fodor, Géza Dávid, 2000-01-01 This unique, comparative description of the Hungarian, Habsburg, and Ottoman military frontiers in the fifteenth-seventeenth centuries provides fascinating reading to those interested in military history. It concentrates on the administration, finance, manpower problems, and aspects of the military revolution in the marches.

A Tale of Two Factions Jane Hathaway, 2012-02-01 Winner of the 2003 Ohio Academy of History Outstanding Publication Award This revisionist study reevaluates the origins and foundation myths of the Faqaris and Qasimis, two rival factions that divided Egyptian society during the seventeenth and eighteenth centuries, when Egypt was the largest province in the Ottoman Empire. In answer to the enduring mystery surrounding the factions' origins, Jane Hathaway places their emergence within the generalized crisis that the Ottoman Empire—like much of the rest of the world—suffered during the early modern period, while uncovering a symbiosis between Ottoman Egypt and Yemen that was critical to their formation. In addition, she scrutinizes the factions' foundation myths, deconstructing their tropes and symbols to reveal their connections to much older popular narratives. Drawing on parallels from a wide array of cultures, she demonstrates with striking originality how rituals such as storytelling and public processions, as well as identifying colors and emblems, could serve to reinforce factional identity.

Architecture, Ceremonial, and Power Gülru Necipoğlu, 1991 Necipoglu demonstrates the palace's role as a vast stage for the

enactment of a ceremonial that emphasized the sultan's absolute power and his aloofness from the outside world. In the absence of the monumentality, axiality, and rational geometric planning principles now usually associated with imperial architecture, the author's deciphering of the palace's iconography is all the more revealing.

Morality Tales Leslie Peirce, 2003-06-16 In this skillful analysis, Leslie Peirce delves into the life of a sixteenth-century Middle Eastern community, bringing to light the ways that women and men used their local law court to solve personal, family, and community problems. Examining one year's proceedings of the court of Aintab, an Anatolian city that had recently been conquered by the Ottoman sultanate, Peirce argues that local residents responded to new opportunities and new constraints by negotiating flexible legal practices. Their actions and the different compromises they reached in court influenced how society viewed gender and also created a dialogue with the ruling regime over mutual rights and obligations. Locating its discussion of gender and legal issues in the context of the changing administrative practices and shifting power relations of the period, *Morality Tales* argues that it was only in local interpretation that legal rules acquired vitality and meaning.

The Cambridge History of Turkey: Volume 2, The Ottoman Empire as a World Power, 1453–1603 Suraiya N. Faroqhi, Kate Fleet, 2012-11-12 Volume 2 of *The Cambridge History of Turkey* examines the period from the conquest of Constantinople in 1453 to the accession of Ahmed I in 1603. During this period, the Ottoman Empire moved into a new phase of expansion, emerging in the sixteenth century as a dominant political player on the world scene.

With territory stretching around the Mediterranean from the Adriatic Sea to Morocco, and from the Caucasus to the Caspian Sea, the Ottomans reached the apogee of their military might in a period seen by many later Ottomans, and historians, as a golden age in which the state was strong, the sultan's might unquestionable, and intellectual life and the arts flourishing. In this volume, leading scholars assess the considerable expansion of Ottoman power and effervescence of the Ottoman intellectual and cultural world. They also investigate the challenges that faced the Ottoman state, particularly in the later period, as the empire experienced economic crises, revolts and drawn-out wars.

The Renaissance World John Jeffries Martin, 2015-01-09 With an interdisciplinary approach that encompasses the history of ideas, political history, cultural history and art history, this volume, in the successful Routledge Worlds series, offers a sweeping survey of Europe in the Renaissance, from the late thirteenth to early seventeenth centuries, and shows how the Renaissance laid key foundations for many aspects of the modern world. Collating thirty-four essays from the field's leading scholars, John Jeffries Martin shows that this period of rapid and complex change resulted from a convergence of a new set of social, economic and technological forces alongside a cluster of interrelated practices including painting, sculpture, humanism and science, in which the elites engaged. Unique in its balance of emphasis on elite and popular culture, on humanism and society, and on women as well as men, *The Renaissance World* grapples with issues as diverse as Renaissance patronage and the development of the slave trade. Beginning with a section on the antecedents of the Renaissance world, and ending with its lasting influence, this book is an invaluable read, which students

and scholars of history and the Renaissance will dip into again and again.

Oppression and Salvation Haim Gerber, 2020-08-10 Studien zur Sprache, Geschichte und Kultur der Turkvölker was founded in 1980 by the Hungarian Turkologist György Hazai. The series deals with all aspects of Turkic language, culture and history, and has a broad temporal and regional scope. It welcomes manuscripts on Central, Northern, Western and Eastern Asia as well as parts of Europe, and allows for a wide time span from the first mention in the 6th century to modernity and present.

Ottoman Cyprus Michalis N. Michael, Eftihios Gavriel, Matthias Kappler, 2009 The collective volume *Ottoman Cyprus - New Perspectives* presents new studies on various topics (primarily history, but also history of art, folklore and literature) about Cyprus in the Ottoman period (1571-1878), offering new approaches on the history of institutions and developments in Cyprus during the Ottoman period, in an attempt to propose new interpretative frameworks and a more analytical reading of the historical past. The book is divided into four parts: The first part concerns the history of the island from the eve of the Ottoman conquest until the cession of the island to British administration. The studies of this part follow a chronological order, and analyze developments in Cyprus as an Ottoman province and part of the Empire's periphery. In the second part there are studies that analyze various particular historical topics, without necessarily following a chronological order. In the third part there are studies on literature, folklore and art. The fourth part includes an extensive bibliographical guide, a catalogue of archives and archival material related to Cyprus in the Ottoman period, as well as chronological lists of important officials.
