The Lives of the Sophists Philostratus (the Athenian), 1921 PHILOSTRATUS AND EUNAPIUS. (a) Of the distinguished Lemnian family of Philostrati, Flavius Philostratus, 'the Athenian', was a Greek sophist (professor), c. A.D. 170-205, who studied at Athens and later lived in Rome. He was author of the admirable Life of Apollonius of Tyana (Loeb Nos. 16 and 17) and Lives of the Sophists (which are really impressions of investigators alert but less fond of scientific method and discovery than of stylish presentation or things known), one part concerning some older, the other some later 'proversors'. Other extant works of this Philostratus are Letters and Gymnasticus, but the Heroicus or Heroica is apparently by another Philostratus, and the Eikones (Imagines, skilful descriptions of pictures, Loeb No. 256) were probably by two Philostrati, one being the son of Nervianus and born c. A.D. 190, the other his grandson who wrote c. AD. 300. (b) The Greek Sophist and historian Eunapius was born at Sardis in A.D. 347, but went to Athens to study and lived much of his life there teaching rhetoric and possibly medicine. He was initiated into the 'mysteries' and was hostile to Christians. Lost is his historical work (covering the years A.D. 270-404) but for excerpts and the use of it made by Zosimus, but we have his Lives of Philosophers and Sophists mainly contemporary with himself. Eunapius is our only source of our knowledge of Neo-Platonism in the latter part of the fourth century A.D.

Net Neutrality Christopher T. Marsden,2010-01-18 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. Chris Marsden maneuvers through the hype articulated by Network Neutrality advocates and opponents. He offers a clear-headed analysis of the high stakes in this debate about the Internet's future, and fearlessly refutes the misinformation and misconceptions that about' Professor Rob Freiden, Penn State University Net Neutrality is a very heated and contested policy principle regarding access for content providers to the Internet end-user, and potential discrimination in that access where the end-user's ISP (or another ISP) blocks that access in part or whole. The suggestion has been that the problem can be resolved by either introducing greater competition, or closely policing conditions for vertically integrated service, such as VOIP. However, that is not the whole story, and ISPs as a whole have incentives to discriminate between content for matters such as network management of spam, to secure and maintain customer experience at current levels, and for economic benefit from new Quality of Service standards. This includes offering a 'priority lane' on the network for premium content types such as video and voice service. The author considers market developments and policy

responses in Europe and the United States, draws conclusions and proposes regulatory recommendations.

Benjamin Now Kevin McLaughlin, Philip Rosen, 2003 The Arcades Project is the unfinished, final work of influential cultural theorist, critic, and historian Walter Benjamin. Until 1999, this huge, unruly manuscript, which provides a more complete picture of the diversity of Benjamin's work than formerly available, had not been fully translated into English. Benjamin Now is the first collection of essays in English to focus on The Arcades Project. While this essential text's title refers to its ostensible subject--the nineteenth-century shopping arcades of Paris--The Arcades Project is a mass of cultural, political, and social material presented in the form of a vast montage. Benjamin Now reconsiders the significance of his theories and writings in light of this final project. The contributors gathered in this special issue--several of whom participated in the translation of The Arcades Project--include leading scholars from modern culture and media studies, comparative literature and literary studies, art history, philosophy, cultural studies, and film studies. Contributors. T. J. Clark, Howard Eiland, Peter Fenves, Tom Gunning, Michael Jennings, Claudia Brodsky Lacour, Kevin McLaughlin, Philip Rosen, Henry Sussman, Lindsay Waters, Samuel Weber, Peter Wollen

The Contemporary Circus Ernest Albrecht, 2006-10-10 Creating the Contemporary Circus is an examination and analysis of the creative process whereby such circuses as Cirque du Soleil, the Big Apple Circus and Ringling Bros. and Barnum & Bailey develop their productions.

The Challenge of Chance Klaas Landsman, Ellen van Wolde, 2016-06-09 This book presents a multidisciplinary perspective on chance, with contributions from distinguished researchers in the areas of biology, cognitive neuroscience, economics, genetics, general history, law, linguistics, logic,

mathematical physics, statistics, theology and philosophy. The individual chapters are bound together by a general introduction followed by an opening chapter that surveys 2500 years of linguistic, philosophical, and scientific reflections on chance, coincidence, fortune, randomness, luck and related concepts. A main conclusion that can be drawn is that, even after all this time, we still cannot be sure whether chance is a truly fundamental and irreducible phenomenon, in that certain events are simply uncaused and could have been otherwise, or whether it is always simply a reflection of our ignorance. Other challenges that emerge from this book include a better understanding of the contextuality and perspectival character of chance (including its scale-dependence), and the curious fact that, throughout history (including contemporary science), chance has been used both as an explanation and as a hallmark of the absence of explanation. As such, this book challenges the reader to think about chance in a new way and to come to grips with this endlessly fascinating phenomenon.

--and the Truth Shall Set You Free David Icke, 1996 David Icke exposes what he says is the real story behind global events which shape the future of human existence.

A Dictionary of Shakespeare's Sexual Puns and Their Significance Frankie Rubinstein, 1989-12-11 '...Rubinstein is far from innocent and comes to our aid with a lot of learning...and is quite right to urge that not to appreciate the sexiness of Shakespeare's language impoverishes our own understanding of him. For one thing, it was a strong element in his appeal to Elizabethans, who were much less woolly-mouthed and smooth-tongued than we are. For another, it has constituted a salty preservative for his work, among those who can appreciate it...an enlightening book.' A.L.Rowse, *The Standard*.

Theosophy René Guénon, 2004 Since the late nineteenth century, the Theosophical Society has

been a central force in the movement now known as the New Age. Just as the Communist Party was considered 'old hat' by peace activists in the '60s, so the Theosophical Society was looked upon by many in the 'spiritual revolution' of those years as cranky, uninteresting, and passé. But the Society, like the Party, was always there, and-despite its relatively few members-always better organized than anybody else. Since then, the Society's influence has certainly not waned. It plays an important role in today's global interfaith movement, and, since the flowering of the New Age in the '70s, has established increasingly intimate ties with the global elites. And its various spinoffs, such as Elizabeth Clare Prophet's Summit Lighthouse, and Benjamin Crème's continuing attempt to lead a 'World Teacher Maitreya' onto the global stage-just as the Society tried to do in the last century with Krishnamurti-continue to send waves through the sea of 'alternative' spiritualities. Guénon shows how our popular ideas of karma and reincarnation actually owe more to Theosophy than to Hinduism or Buddhism, provides a clear picture of the charlatanry that was sometimes a part of the Society's modus operandi, and gives the early history of the Society's bid for political power, particularly its role as an agent of British imperialism in India. It is fitting that this work should finally appear in English just at this moment, when the influence of pseudo-esoteric spiritualities on global politics is probably greater than ever before in Western history.

Convergence in European Digital TV Regulation Christopher T. Marsden, Stefaan G. Verhulst, 1999 Analyzing the role of governments in the regulation of the new Information Society, the ten chapters in this book stem from a seminar hosted by the European Media Regulation Seminar Group (ESRG) at the University of Warwick. Each chapter explores the regulatory responses of the UK government and the EU to commercial, technical and market convergence in the broadcasting, telecommunications, print media and computing sectors. The text focuses on the establishment of satellite pay-TV, telecommunications and the launch of digital terrestrial TV as they blend real and cyber-governance.

The Man of Genius Cesare Lombroso, 1896

The Life and Letters of Lord Macaulay George Otto Trevelyan, 1876

The Museum of Augustus Peter Heslin, 2015-05-01 In the *Odes*, Horace writes of his own work, "I have built a monument more enduring than bronze,"—a striking metaphor that hints at how the poetry and built environment of ancient Rome are inextricably linked. This fascinating work of original scholarship makes the precise and detailed argument that painted illustrations of the Trojan War, both public and private, were a collective visual resource for selected works of Virgil, Horace, and

Propertius. Carefully researched and skillfully reasoned, the author's claims are bold and innovative, offering a strong interpretation of the relationship between Roman visual culture and literature that will deepen modern readings of Augustan poets. The Museum of Augustus first provides a comprehensive reconstruction of paintings from the remaining fragments of the cycle of Trojan frescoes that once decorated the Temple of Apollo in Pompeii. It then finds the echoes of these paintings in the Augustan-dated Portico of Philippus, now destroyed, which was itself a renovation of Rome's de facto temple of the Muses—in other words, a museum, both in displaying art and offering a meeting place for poets. It next examines the responses of the Augustan poets to the decorative program of this monument that was intimately connected with their own literary aspirations. The book concludes by looking at the way Horace in the Odes and Virgil in the Georgics both conceptualized their poetic projects as temples to rival the museum of Augustus.
