Boxing is no cakewalk! Botchway, De-Valera NYM,2019-07-17 Boxing is no cakewalk! Azumah ‘Ring Professor’ Nelson in the Social History of Ghanaian Boxingexplores the social history of boxing in Ghana and its interesting nexus with the biography of Azumah Nelson, unquestionably Ghana’s most celebrated boxer. The book posits that sports constitute more than mere games that people play. They are endowed with enormous political, cultural, economic and social power that can influence people’s lives in various ways. Boxing is no cakewalk! interrogates the social meaning and impact of boxing within the colonial and postcolonial milieux of popular culture in Ghana. Consequently, it reconsiders the prevailing conception of boxing as adversative to ‘enlightened’ human culture by arguing that it is a positive formulator of individual and national identities. The historicising of sports and the lives of sportspersons in Ghana provides an eloquent backdrop for an understanding of the past social dynamics and their effect in the present. The book’s analytical narrative offers an intellectual contribution to the promising areas of social and cultural history in Ghana’s historiography and the scholarly discourse on identity formation and social empowerment through the popular culture of sports.

My Hero Academia, Vol. 1 Kohei Horikoshi,2015-08-04 Middle school student Izuku Midoriya wants to be a hero more than anything, but he hasn’t got an ounce of power in him. With no chance of ever getting into the prestigious U.A. High School for budding heroes, his life is looking more and more like a dead end. Then an encounter with All Might, the greatest hero of them all, gives him a chance to change his destiny... -- VIZ Media

Well Played 1.0 Drew Davidson,2009-01-01 Video games can be well played in two senses. On the one hand, well played is to games as well read is to books. On the other hand, well played as in well done. This book is full of in-depth close readings of video games that parse out the various meanings to be found in the experience of playing a game. 22 contributors (developers, scholars, reviewers and bloggers) look at video games through both senses of well played. The goal is to help develop and define a literacy of games as well as a sense of their value as an experience. Video games are a complex medium that merits careful interpretation and insightful analysis

Back to Serve Cesare U.S. Army,2018-05-02 Back to Serve is a fictional memoir about a soon-to-be-retired army captain, Nico Corretti, who after a career in the military is ready to begin his civilian life with his family. But first, he must out-process and then drive halfway across the country to get home, during which he has an improbable encounter with a Russian woman who informs him that his safety and his postservice stability may be in jeopardy. On the long drive home, he considers the plausibility of her claim and reflects on his past and future.Once home, he relishes the quality time with his family, which includes visiting his father in his hometown. But afterward, he discovers the limited employment opportunities in the slow recovery years after the Great Recession. He undergoes an extended unemployment period before anxiously and dutifully taking a government-contract position abroad, which turns out to be more perilous than he had originally been briefed. And the mysterious Russian woman he met may lead him to some of the answers he was searching for, as well as to some dangers and desires that he wasn't. Upon completion of his contract job in Europe, he enjoys a well-deserved respite at home. But it's short lived, as a swell of terrorist attacks against the United States require (or demand) more of his military service. Torn between being there for his family and his duty to his country, Captain Corretti is coldly reminded that the two actually are mutually inclusive. He's sent back to a familiar place, the Middle East, and in the process, he may be able to avenge the soldiers he had lost under his command. But he'll need to reach deeper within himself than he ever has before in order to succeed on the battlefield and in life.

My Hero Academia: Ultra Analysis—The Official Character Guide Kohei Horikoshi,2021-11-02 The secrets of the smash-hit series My Hero Academia are revealed! My Hero Academia Coloring Book Manga Coloring,2020-06-26 My Hero Academia is a Japanese superhero manga series written and illustrated by Kōhei Horikoshi. It has been serialized in Weekly Shōnen Jump since July 2014, with its chapters additionally collected into 26 tankōbon volumes as of March 2020. The story follows Izuku Midoriya, a boy born without superpowers (called Quirks) in a world where they have become commonplace, but who still dreams of becoming a hero himself. He is scouted by All Might, Japan's greatest hero, who shares his quirk with Midoriya after recognizing his potential, and later helps to enroll him in a prestigious high school for heroes in training. If you love this manga, then this coloring book is for you. About the book: High quality images Each image is printed on single-sided to prevent bleed-through Dimensions 8.5x11 inches Great for kids and adults

The Legend of Zelda: Tears of the Kingdom Strategy Guide Book (2nd Edition) ,2023-05-30 ★★★★★ Updated 28th August 2023! We've listened to the feedback and we've updated the book with an additional 50 pages of helpful content! Do you think it is possible? What do you think will happen next? Check My Hero Academia if you haven't yet, and get these questions answered! My Hero Academia quiz is a great knowledge test for any fan of this anime.

The Legend of Zelda Titles ,
eGods William Sims Bainbridge,2013-04-01 What is the relationship between religion and multi-player online roleplaying games? Are such games simply a secular distraction from traditional religious practices, or do they in fact offer a different route to the sacred? In eGods, a leading scholar in the study of virtual gameworlds takes an in-depth look at the fantasy religions of 41 games and arrives at some surprising conclusions. William Sims Bainbridge investigates all aspects of the gameworlds' religious dimensions: the focus on sacred spaces; the prevalence of magic; the fostering of a tribal morality by both religion and rules programmed into the game; the rise of cults and belief systems within the gameworlds (and how this relates to cults in the real world); the predominance of polytheism; and, of course, how gameworld religions depict death. As avatars are multiple and immortal, death is merely a minor setback in most games. Nevertheless, much of the action in some gameworlds centers on the issue of mortality and the problematic nature of resurrection. Examining EverQuest II, Lord of the Rings Online, Rift, World of Warcraft, Star Wars: The Old Republic, and many others, Bainbridge contends that gameworlds offer a new perspective on the human quest, one that combines the arts, simulates many aspects of real life, and provides meaningful narratives about achieving goals by overcoming obstacles. Indeed, Bainbridge suggests that such games take us back to those ancient nights around the fire, when shadows flickered and it was easy to imagine the monsters conjured by the storyteller lurking in the forest. Arguing that gameworlds reintroduce a curvilinear model of early religion, where today as in ancient times faith is inseparable from fantasy, eGods shows how the newest secular technology returns us to the very origins of religion so that we might arrive where we started and know the place for the first time.

The Legend of Zelda and Philosophy Luke Cuddy,2008-11-01 With both young and adult gamers as loyal fans, The Legend of Zelda is one of the most beloved video game series ever created. The contributors to this volume consider the following questions and more: What is the nature of the gamer's connection to Link? Does Link have a will, or do gamers project their wills onto him? How does the gamer experience the game? Do the rules of logic apply in the game world? How is space created and distributed in Hyrule (the fictional land in which the game takes place)? How does time function? Is Zelda art? Can Hyrule be seen as an ideal society? Can the game be enjoyable without winning? The Legend of Zelda and Philosophy not only appeals to Zelda fans and philosophers but also puts video games on the philosophical map as a serious area of study.

My Hero Academia, Vol. 2 Kohei Horikoshi,2015-11-03 Getting into U.A. High School was difficult enough, but it was only the beginning of Midoriya's long road toward becoming a superhero. The new students all have amazing powers, and although Midoriya has inherited All Might's abilities, he can barely control them. What's more, the first-year students are told they will have to compete just to avoid being expelled! -- VIZ Media

The Psychology of Zelda Anthony Bean,2019-02-19 It's dangerous to go alone! Take this (book). For more than 30 years, The Legend of Zelda—which immerses players in a courageous struggle against the shadowy forces of evil in a world of high fantasy—has spanned more than 30 different installments, selling over 75 million copies. Today, it is one of the most beloved video game franchises around the globe. Video game sales as a whole have continued to grow, now raking in twice as much money per year as the entire film industry, and countless psychologists have turned their attention to the effects gaming has on us: our confidence, our identity, and our personal growth. The Psychology of Zelda applies the latest psychological findings, plus insights from classic psychology theory, to Link, Zelda, Hyrule, and the players who choose to wield the Master Sword. In The Psychology of Zelda, psychologists who love the games ask: • How do Link's battles in Ocarina of Time against Dark Link, his monstrous doppelganger, mirror the difficulty of confronting our personal demons and the tendency to be our own worst enemies? • What lessons about pursuing life's greater meaning can we take away from Link's quests through Hyrule and beyond the stereotypical video game scenario of rescuing a Princess (Zelda)? • What do we experience as players when we hear that familiar royal lullaby on the ocarina, Saria's spirited melody in the Lost Woods, or the iconic main theme on the title screen? • How do the obstacles throughout Majora's Mask represent the Five Stages of Grief? • What can Link's journey to overcome the loss of the fairy Navi teach us about understanding our own grief and depression? • Why are we psychologically drawn to the game each and every time a new version becomes available even when they all have a similar storyline? Think you've completed the quest? The Psychology of Zelda gives you new, thrilling dungeons to explore and even more puzzles to solve.

My Hero Academia, Vol. 7 Kohei Horikoshi,2017-02-07 Midoriya has learned a few tricks from Gran Torino, but some things just have to be experienced to be understood. Even though he's not ready, when the League of Villains attacks in the town of Hosu, Midoriya rushes to help Ida, who is engaged in a life-and-death struggle with Hero Killer Stain. Stain has some very particular ideas about heroes and their place in society—and he means to purge the world of every hero he can find! -- VIZ Media

The Legend of Zelda: Hyrule Historia Eiji Aonuma,Akira Himekawa,2020-04-14 Make sure to check out the other installments in this unparalleled collection of historical information on The Legend of Zelda franchise with the New York Times best selling The Legend of Zelda: Art & Artifacts and The Legend of Zelda: Encyclopedia.
