**John Montroll**

Under the Sea Origami Duy Nguyen, 2005 From a slithering electric eel to a ferocious barracuda, Duy Nguyen shows you simple paper folding techniques for crafting extraordinary sea creatures. These striking projects, specially designed for Under the Sea Origami, are fun to make using Nguyen's instructions. You don't have to dive under the sea to spot dolphins because these mammals enjoy jumping out of the water. Your origami model will emulate this graceful leaping motion once you create its intricately-folded arched back, fins, and snout. With a long, wide body and whip-like tail, the stingray is a most distinctive-looking fish. It appears to be in mid-flight even though it's nimbly swimming in the water. The hammerhead shark is easily recognized by the shape of its skull. A large tail, made by using mountain and valley folds, rises dramatically to give the hammerhead a great silhouette. The origami blue shark, on the other hand, will attract attention because of its large gaping mouth! To complete the swordfish, you'll need to attach two pieces of folded paper together. Anyone might be frightened by the appearance of a creature that has a swordlike beak and pointy head, unless it was made of paper like this one is! The squid is as fun to create as the swordfish. Its creepy tentacles will take shape after you cut the valley-folded tail into layers. You will find that these unusual origami projects are among the most original ever designed. Book jacket.

*Jungle Animal Origami* Duy Nguyen, 2004 Explains how to create numerous jungle animals, including vultures, gorillas, lions, zebras, gazelles, and elephants.

**Dollar Bill Origami** John Montroll, 2003-09-12 Step-by-step instructions and clear diagrams show paper folders at all levels of expertise how to fashion 37 origami models

from dollar bills. Beginners will enjoy making a boat and a butterfly. Windmills and peacocks will suit intermediate-level hobbyists. An alligator and bison should prove no problem for advanced paper folders.

**Origami Sea Life** John Montroll, Robert J. Lang, 1991-01-01 In *Origami Sea Life*, John Montroll and Robert J. Lang have collaborated to produce a truly elegant work. The pages of this book contain some of the most creative origami published to date. Each project is accompanied by a biological sketch of the animal to enhance the visual description. There are 38 models in all ranging from the lowly barnacle to the mighty whale. In between are to be found a cuttlefish, angelfish, lionfish, and fiddler crab, to name but a few of the unusual origami projects presented. Each project is illustrated with step-by-step instructions, utilizing the unique folds which make each of these animals so lifelike. Beginner and expert alike will find hours of creative fun in these pages. *Origami Sea Life* also includes a summary of the history of origami sea life. Information on types of paper and the technique of wet folding make this book indispensable for all those with an interest in papercraft.

**The Buck Book** Anne Akers Johnson, 1993 All seven projects described are folded out of a \$1 bill. Projects range from the Dollar Bill Ring to the exotic Plumed Peacock to the all-time favorite Bow Tie.

**Dollar Bill Animals in Origami** John Montroll, 2016-08-03 John Montroll has consistently expanded the limits of the ancient art of Japanese paper folding. Now in this exciting new volume of more than 30 original models, the world-renowned origami master departs from the traditional square form and crafts each eye-catching creation from an ordinary dollar bill. Using the familiar rectangular shape as a base, *Dollar Bill Animals* in

Origami offers more than 800 clear, easy-to-follow diagrams for every level of folder, from beginner to expert. You may use either actual dollar bills or any paper cut to the same proportions to create a stunning display of animals of land, air, and sea: giraffe, unicorn, apatosaurus, parrot, owl, shark, and many more. Also included are pictures of each completed project and guided instructions for basic folds. With this innovative book, an exciting journey in origami art is as close as the nearest dollar bill.
