In *Home Stories*, Leggett shows readers how to use all these treasures to design very special rooms filled with interest and meaning. She begins by asking readers what it is that attracts them to a certain piece: “Thinking hard about what really speaks to you, and then using it as the basis for design, is the secret behind all of the best, most interesting rooms.” Each chapter presents fascinating spaces and the stories behind the accessories, furnishings, and mementos that fill them. There are plenty of projects, too, plus practical design guidance and design inspiration for refreshing decor as the seasons change.

Stories are memorable, actionable, and emotional. Collected Interiors Philip Mitchell, Judith Nasatir, 2021-10-26 Modern maximalist designer Philip Mitchell reveals his talent for blending collections, family heirlooms, contemporary art, and accessories in visually creative environments that are brimming with personality, color, authenticity, and warmth. The elegant, clean classicism of Philip Mitchell's style is on full display in these homes, where he masterfully incorporates

a wide-ranging mix of antiques, vintage collectibles, and contemporary pieces—everything from inherited furniture collections to modern art—in rooms that are filled with memories and warmth. As a master of what he calls modern maximalism, Mitchell embraces the challenge of taking wonderful things that a homeowner already has and making more of them. Once Mitchell has established a connecting thread among a variety of disparate pieces—whether through finish, material, scale, color, texture, or line—he starts the process of building the relationships that bring a space to life. Brilliant photographs take readers on in-depth tours of nine homes, ranging from an elegant Upper East Side pied-à-terre to a classic cottage on the water in Nova Scotia. Mitchell's personal narrative in elegant text enlightens, while his takeaways accompanying each home help readers understand how to blend new and old, mix colors and patterns, and fill a home with an eclectic mix that is truly their own.

User-Centered Design Stories Carol Righi, Janice James, 2010-07-27 User-Centered Design Stories is the first user-centered design casebook

with cases covering the key tasks and issues facing UCD practitioners today. Intended for both students and practitioners, this book follows the Harvard Case study method, where the reader is placed in the role of the decision-maker in a real-life professional situation. In this book, the reader is asked to analyze dozens of UCD work situations and propose solutions for the problem set. The problems posed in the cases cover a wide variety of key tasks and issues faced by practitioners, including those related to organizational/managerial topics, UCD methods and processes, and technical/project issues. The benefit of the casebook and its organization is that it offers new practitioners (as well as experienced practitioners working in new settings) valuable practice in decision-making that cannot be obtained by simply reading a book or attending a seminar. The first User-Centered Design Casebook, with cases covering the key tasks and issues facing UCD practitioners today. Each chapter based on real world cases with complex problems, giving readers as close to a real-world experience as possible. Offers the things you don't learn in school, such as innovative and hybrid solutions that were actually used on the problems discussed.

Grand Design Elizabeth A. H. Cleland, 2014-10-06 Pieter Coecke van Aelst (1502 – 1550) was renowned throughout Renaissance Europe as a draftsman, painter, and publisher of architectural treatises. The magnificent tapestries he designed were acquired by the wealthiest clients of the day, up to and including rulers such as Emperor Charles V, King Francis I of France, King Henry VIII of England, and Grand Duke Cosimo I de' Medici of Tuscany. At the same time, Coecke was remarkable not only for the complexity and unparalleled quality of his tapestries, but also for his fluency in various media: this lavishly illustrated volume examines the full range of his work, from tapestry and stained-glass window designs to panel paintings, prints, drawings, and architectural treatises. Though only forty-eight when he died, Coecke was one of the greatest Netherlandish artists of the sixteenth century. His paintings and drawings, initially wrought in the style of the Antwerp Mannerists, evolved through his enthusiastic response to Italian Renaissance design, and influenced generations of artists in his wake. This comprehensive study explores Coecke's stylistic development, as well as his substantial contribution to the body of great Renaissance art in Flanders. Featuring twenty monumental tapestries, along with many of their cartoons and preparatory sketches, plus seven paintings, additional drawings, and printed matter—many of them newly photographed for this volume—Grand Design provides a thorough reappraisal of Coecke's work, amply justifying the high regard in which Coecke's work was held and its wide dissemination long after his death.

The Game Design Reader Katie Salen Tekinbas, Eric Zimmerman, 2005-11-23 Classic and cutting-edge writings on games, spanning nearly 50 years of game analysis and criticism, by game designers, game journalists, game fans, folklorists, sociologists, and media theorists. The Game Design Reader is a one-of-a-kind collection on game design and criticism, from classic scholarly essays to cutting-edge case studies. A companion work to

Katie Salen and Eric Zimmerman's textbook *Rules of Play: Game Design Fundamentals*, *The Game Design Reader* is a classroom sourcebook, a reference for working game developers, and a great read for game fans and players. Thirty-two essays by game designers, game critics, game fans, philosophers, anthropologists, media theorists, and others consider fundamental questions: What are games and how are they designed? How do games interact with culture at large? What critical approaches can game designers take to create game stories, game spaces, game communities, and new forms of play? Salen and Zimmerman have collected seminal writings that span 50 years to offer a stunning array of perspectives. Game journalists express the rhythms of game play, sociologists tackle topics such as role-playing in vast virtual worlds, players rant and rave, and game designers describe the sweat and tears of bringing a game to market. Each text acts as a springboard for discussion, a potential class assignment, and a source of inspiration. The book is organized around fourteen topics, from *The Player Experience* to *The Game Design Process*, from *Games and Narrative* to *Cultural Representation*. Each topic, introduced with a short essay by Salen and Zimmerman, covers ideas and research fundamental to the study of games, and points to relevant texts within the Reader. Visual essays between book sections act as counterpoint to the writings. Like *Rules of Play*, *The Game Design Reader* is an intelligent and playful book. An invaluable resource for professionals and a unique introduction for those new to the field, *The Game Design Reader* is essential reading for anyone who takes games seriously.

The Story of Design Charlotte Fiell, Peter Fiell, 2018 The first book ever to tell the whole story of design; from prehistoric times to the present day, this is an essential book for vocational and university students, as well as for adults seeking a comprehensive, yet accessible guide.

In her introduction, Grace Lees-Maffei explores the idea of iconicity and what makes a design 'iconic', and fifty essays by leading design and cultural critics address the development of each iconic 'thing', its innovative and unique qualities, and its journey to classic status. Subjects range from the late 19th century to the present day, and include the Sydney Opera House, the Post-It Note, Coco Chanel's classic suit, the Sony Walkman™, Hello Kitty™, Helvetica, the Ford Model T, Harry Beck's diagrammatic map of the London Underground and the Apple iMac G3. This handsome volume provides a treasure trove of 'stories' that will shed new light on the iconic designs that we use without thinking, aspire to possess, love or hate (or love to hate) and which form part of the fabric of our everyday lives.
