History of the Warfare of Science with Theology in Christendom Andrew Dickson White, 1930
Among those masses of cathedral sculpture which preserve so much of medieval theology, one frequently recurring group is noteworthy for its presentment of a time-honoured doctrine regarding the origin of the universe. The Almighty, in human form, sits benignly, making the sun, moon, and stars, and hanging them from the solid firmament which supports the heaven above and overarches the earth beneath. The furrows of thought on the Creator's brow show that in this work he is obliged to contrive; the knotted muscles upon his arms show that he is obliged to toil; naturally, then, the sculptors and painters of the medieval and early modern period frequently represented him as the writers whose conceptions they embodied had done—as, on the seventh day, weary after thought and toil, enjoying well-earned repose and the plaudits of the hosts of heaven. In these thought-fossils of the cathedrals, and in other revelations of the same idea through sculpture, painting, glass-staining, mosaic work, and engraving, during the Middle Ages and the two centuries following, culminated a belief which had been developed through thousands of years, and which has determined the world's

thought until our own time. Its beginnings lie far back in human history; we find them among the early records of nearly all the great civilizations, and they hold a most prominent place in the various sacred books of the world. In nearly all of them is revealed the conception of a Creator of whom man is an imperfect image, and who literally and directly created the visible universe with his hands and fingers. Among these theories, of especial interest to us are those which controlled theological thought in Chaldea. The Assyrian inscriptions which have been recently recovered and given to the English-speaking peoples by Layard, George Smith, Sayce, and others, show that in the ancient religions of Chaldea and Babylonia there was elaborated a narrative of the creation which, in its most important features, must have been the source of that in our own sacred books. It has now become perfectly clear that from the same sources which inspired the accounts of the creation of the universe among the Chaldeo-Babylonian, the Assyrian, the Phoenician, and other ancient civilizations came the ideas which hold so prominent a place in the sacred books of the Hebrews. In the two accounts imperfectly fused together in Genesis, and also in the account of which we have indications in the book of Job and in the Proverbs, there, is presented, often with the greatest sublimity, the same early conception of the Creator and of the creation—the conception, so natural in the childhood of civilization, of a Creator who is an enlarged human being working literally with his own hands, and of a creation which is the work of his fingers. To supplement this view there was developed the belief in this Creator as one who, having ... from his ample palm Launched forth the rolling planets into space. sits on high, enthroned upon the circle of the heavens, perpetually controlling and directing them.

Narrative Theology and Moral Theology Fr Alexander Lucie-Smith, 2013-05-28 Moral thinking today finds itself stranded between the particular and the universal. Alasdair MacIntyre's work on narrative, discussed here along with that of Stanley Hauerwas and H. T. Engelhardt, aims to undo the perceived

damage done by the Enlightenment by returning to narrative and abandoning the illusion of a disembodied reason that claims to be able to give a coherent explanation for everything. It is precisely this - a theory that holds good for all cases - that John Rawls proposed, drawing on the heritage of Emmanuel Kant. Who is right? Must universality be abandoned? Must we only think about morality in terms that are relative, bound by space and time? Alexander Lucie-Smith attempts to answer these questions by examining the nature of narrative itself as well as the particular narratives of Rawls and St Augustine. Bound and rooted as they are in history and personal experience, narratives nevertheless strain at the limits imposed on them. It is Lucie-Smith's contention that each narrative that points to a lived morality exists against the background of an infinite horizon, and thus it is that the particular and the rooted can also make us aware of the universal and unchanging.

Unlikely Heroes of the Good News William Doyle, 2015-01-08 The first half of this book highlights the lives of men and women of biblical fame and in the second half fearless heroes of the truth, in our times; men and women who at a pivotal point in their lives were guided by their Higher God-Mind to serve the purposes of the Ultimate Reality – God. This book draws attention to ordinary people with extraordinary ways, noble characters whose lives are a shining example in our communities showing that with diligence and faith we can all reach the plateau of righteousness, improve our own landscape and go on to make a difference. The lives of these men and women are a testimony of God's grace and challenge to all Christians to wake up from spiritual sleep and seek the mind of God; to work with His Spirit in the community in which they live. Never has there been a time when the consciousness of men has been so assailed with misguided philosophy and questionable values. This book brings into focus the wisdom of the author and a much needed message for our times.

The AIG Story Maurice R. Greenberg, Lawrence A. Cunningham, 2013-01-09 Selected as one of Motley Fool's 5 Great Books You Should Read In The AIG Story, the company's long-term CEO Hank Greenberg (1967 to 2005) and GW professor and corporate governance expert Lawrence Cunningham chronicle the origins of the company and its relentless pioneering of open markets everywhere in the world. They regale readers with riveting vignettes of how AIG grew from a modest group of insurance enterprises in 1970 to the largest insurance company in world history. They help us understand AIG's distinctive entrepreneurial culture and how its outstanding employees worldwide helped pave the road to globalization. Corrects numerous common misconceptions about AIG that arose due to its role at the center of the financial crisis of 2008. A unique account of AIG by one of the iconic business leaders of the twentieth century who developed close relationships with many of the most important world leaders of the period and helped to open markets everywhere. Offers new critical perspective on battles with N. Y. Attorney General Eliot Spitzer and the 2008 U.S. government seizure of AIG amid the financial crisis. Shares considerable information not previously made public. The AIG Story captures an impressive saga in business history--one of innovation, vision and leadership at a company that was nearly--destroyed with a few strokes of governmental pens. The AIG Story carries important lessons and implications for the U.S., especially its role in international affairs, its approach to business, its legal system and its handling of financial crises.

The Cambridge Companion to Science Fiction Edward James, Farah Mendlesohn, 2003-11-20 Science fiction is at the intersection of numerous fields. It is a literature which draws on popular culture, and which engages in speculation about science, history, and all types of social relations. This

volume brings together essays by scholars and practitioners of science fiction, which look at the genre from these different angles. After an introduction to the nature of science fiction, historical chapters trace science fiction from Thomas More to more recent years, including a chapter on film and television. The second section introduces four important critical approaches to science fiction drawing their theoretical inspiration from Marxism, postmodernism, feminism and queer theory. The final and largest section of the book looks at various themes and sub-genres of science fiction. A number of well-known science fiction writers contribute to this volume, including Gwyneth Jones, Ken MacLeod, Brian Stableford, Andy Duncan, James Gunn, Joan Slonczewski, and Damien Broderick.

Story of the War in South Africa, 1899-1900 Alfred Thayer Mahan, 1901

The Story of Nelson also "The Grateful Indian", "The Boatswain's Son" William Henry Giles Kingston, My great ambition as a boy was to be a sailor; the idea of becoming one occupied my thoughts by day and influenced my dreams by night. I delighted in reading naval histories and exploits and tales of the sea, and I looked upon Rodney, Howe, Nelson, and Saint Vincent, as well as Duncan, Collingwood, Exmouth, and Sir Sidney Smith, as far greater men, and more worthy of admiration, than all the heroes of antiquity put together. An opinion which I hold even to the present day, and which, I hope, all my readers will maintain with me. Once it happened during my summer holidays that, most unwillingly, I was taken up to London. During the time, a naval friend, having compassion on me, suggested that I might find matter of interest by a trip to Greenwich, and a visit to the Hospital. I jumped at the proposal. I can never forget the feelings with which I entered the wide, smooth space on which that beautiful collection of buildings stands, forming the Royal Hospital for Seamen, with its broad terrace facing the river, and found myself surrounded by many hundreds of the gallant veterans who had maintained not only so nobly the honour of Old England on the deep,

but had contributed to preserve her from the numberless foes who had threatened her with destruction. The building is of itself interesting. On this spot once stood the Royal Palace of Placentia, in which no less than four successive sovereigns were born—Henry the Eighth, Edward the Sixth, Mary, and Elizabeth. Charles the Second had intended to rebuild it, but left it unfinished; and it was put into the heart of good Queen Mary, the wife of William of Orange, to establish that noble institution for the reception of the disabled seamen of the Royal Navy, which, much augmented in size, has ever since existed the noblest monument to a sovereign's memory.

The Collected Stories Paul Theroux, 2012-05-03 'No one ever sees me write. One of the triumphs of fiction is that it is created in the dark. It leaves my house in a plain wrapper, with no bloodstains. Unlike me, my stories are whole and indestructible.' In *The Collected Stories*, Paul Theroux's canvas stretches from London to South-East Asia, from Boston to Paris, from Africa to Eastern Europe and from Moscow to the tropics in this vibrant collection. Full of suspense and the unexpected, these stories by the acclaimed author of *The Old Patagonian Express* and *Dark Star Safari* delve into the worlds of a vast spectrum of characters and display throughout a flair that shows Theroux to be a master of the form. Praise for Paul Theroux: 'A shimmering, kaleidoscopic and very entertaining collection' *Sunday Telegraph* 'You close the book feeling you have read a single big narrative rather than a series of short ones . . . As a short-story writer, he makes a terrific novelist' *Sunday Times* 'Theroux willingly explores the blighted territory of a failing marriage; the tangled jungle of a mad poet's secret anti-Semitism; the belated sexual guilt of a Hindu . . . A book of many and varied pleasures; to read it is to feel alert, curious, adventurous' *Observer* 'Paul Theroux's writing is impeccable and thoughtfully entertaining . . . his artistry is individual, serene, yet also grainy with fierce truths' *The Times* 'One needs energy to keep up with the extraordinary productive restlessness of Paul Theroux . . . [He is] the most gifted, most prodigal writer of his generation' Jonathan Raban

Paul Theroux was born in Medford, Massachusetts in 1941 and published his first novel, *Waldo*, in 1967. His subsequent novels include *The Family Arsenal*, *Picture Palace*, *The Mosquito Coast*, *O-Zone*, *Millroy the Magician*, *My Secret History*, *My Other Life*, and, most recently, *A Dead Hand*. Stories of the Second Swordsman Heard Lowry,2014-10-06 Stories of the Second Swordsman is a collection of allegorical stories written from the viewpoint of a man who was a follower of Christ while He was here on earth. They illustrate spiritual insights in a way that is intended to stimulate thought about the Kingdom of God, and draw in references to occurrences and lessons from the Scriptures. The tales are presented in a first-person narrative of a follower who journeyed through the land on a mission to present the Good News. They portray what life might have been like during the unfolding of the Greatest Story Ever Told. The collection is organized into four parts to consider

aspects of the mission, the creative nature of our response, struggles that are encountered along the way, and how our spiritual ideas can be reshaped. The stories are meant to be thought-provoking and inspiring.

Collected Stories Henry James, 2015-02-04 Encompassing a period of almost fifty years, the stories of Henry James represent the most remarkable feat of sustained literary creation in modern times. For sheer richness, variety and intensity, they have no equal in fiction, enabling us to trace the evolution of a great writer in the finest detail. This collection reprints all the major stories together with many unfamiliar but equally intriguing pieces that illuminate their more celebrated companions. Volume 1 covers the period from 1866 to 1891, the years in which James was evolving and perfecting his art as a storyteller. It includes such well-known masterpieces as "Daisy Miller," "The Aspern Papers," "The Siege of London," and "The Lesson of the Master," and many other tales in which James established his favorite characters and situations: the American girl in Europe, the solitary observer, the social climber, the literary lion. Listen to Life: Wisdom in Life's Stories Dion McInnis, 2005-12-29 "Where you're different, Dion,"

the marketing consultant said, “Is that you are telling people that what they need to know is around them, not necessarily to be found by contemplating their navels. Instead of just looking inside oneself, you suggest to others to look around themselves.” “Listen to Life: Wisdom in Life’s Stories” presents more than 90 profoundly simple lessons—some reinforced by Dion’s photography—that remind, encourage, inspire and inform. The stories serve as lessons as well as guides to where and how each of us should look and listen to life to get the most from it. Approachable and accessible, the book can be opened at any page, just as life’s lessons can be absorbed at any time. “Life’s lessons are ‘random access,’” Dion says, “and we’re in contact with knowledge and wisdom at all times from all types of sources.” The book is an outgrowth of Dion’s weekly newsletter of the same name. Useful as gifts to friends, colleagues or customers, the book provides important reminders to the “listening” professions: education, healthcare, financial, sales, management and more. Dion uses many of these stories as examples in his presentations and workshops to various associations, organizations and businesses, as well as women’s shelters, youth programs and others. On a more personal level, the book provides moments to pause and reflect on the sublime wisdom available to us all in our daily lives.
