the children, taking them to the alien homeworld to learn ways of destroying the dinosaurs once and for all. King Rex finds his daughter is among the missing. As his world crumbles around him, as his enemies circle him looking for weakness, he struggles to find a way to harness the power of flying without wings. His goal: to send an envoy of peace to the aliens and negotiate the release of the children. Failing that, to take the children back by force using an army of dinosaurs that have united behind him with one thought in mind: RESCUE THE CHILDREN! Written by a father and a son, this story is a must for anyone who loves dinosaurs. Imaginative and full of awesome battle scenes, it delivers what it promises. The Eye Of The Storm James R Hughes, 2021-11-23 YA Christian Sci-fi / Fantasy about two brothers. One prophesied for greatness, one deemed unworthy of a gift. Both must face a formidable danger that could wipe out their entire herd. Days grow darker as the foretold danger is upon them - one with the power to wipe out the entire dinosaur race. But those who inhabit the Valley of the Stars have reason for hope, in the one deemed the Chosen One. Born giftless, Longcrest is ostracized by his herd, forever destined to live in the shadow of his younger brother, the Chosen One. For Bravehorn, he soon learns that life as the Chosen One is not without struggle and strife, and comes with a great responsibility. One he's not sure he wants anymore. But

the Stargazers are not the only herd who know about the prophecy. Dark forces are scheming to capture the Chosen One so they can be the ones saved from extinction. Both brothers will have their loyalty and faith tested in a battle as old as time- light versus dark, good versus evil, as each discovers the true meaning of sacrifice.

Chronicles of Dinosauria Dave Woetzel, Richard Dobbs, 2013-04-01 Explore legends, mythical sightings, and intriguing explorations from around the globe! Enjoy the unique combination of visual illustrations and unforgettable accounts. Discover why the author calls into question what we've been taught to believe and understand about the history of dinosaurs and man. Every legend is said to include some grain of truth, and for years co-author Dave Woetzel has sought to separate fact from fiction as he explores mysteries related to dinosaurs, mankind's history, and the biblical time-line. Teaming with artist and designer Richard Dobbs, the two have created a visual archive of expeditions and intriguing clues to explore, all of which highlight the connection to the authority and reliability of Scripture. Provocative artifacts from around the world are examined in an exquisite, full-color book that hints at man's familiarity with living dinosaurs. Studies point to more than simple answers beneath the waves of Loch Ness, and other sites around the world, many investigated personally by the author. Here is the study of cryptozoology and the discoveries that seem to defy all evolutionary time-lines, vividly illustrated and filled with rare photos.
