*Digital Culture & Society (DCS)* Cindy Kohtala,Yana Boeva,Peter Troxler,2021-02-28 As DIY digital maker culture proliferates globally, research on these practices is also maturing. Still, particular terminologies dominate beyond their Western contexts, and technocultural histories of making are often rendered as over-simplified technomyths that render invisible diverse local practices. This special issue brings together contributions that highlight how historicising plays a role in mythmaking and the creation of social imaginaries. The peer-reviewed articles present cultural-historical perspectives, technology and design histories and historiographies, and alternative histories related to postcolonial resistance. The contributions illustrate the relevance of craft to making as a reparative practice after the Salvadoran Civil War and as a leisure activity to spark »innovation« in mid-century corporate culture; the political-economic background to the diffusion and differentiation of community workshops in contemporary Spain and post-war Germany; and the various aesthetics and politics of technology culture manifestos over the years. The issue features an interview with Peter Harper of the Alternative Technology movement by Simon Sadler, as well as an interview with Felix Holm and Suné Stassen on the antecedents of making and design in South Africa. The special issue is rounded off with six short alternative (hi)stories of DIY making including multiple practices, geographies and temporalities.

**Easy Crafts for the Insane** Kelly Williams Brown,2021-07-06 From the New York Times bestselling author of *Adulting* comes a story about how to make something when you're capable of nothing. Kelly Williams Brown had 700 Bad Days. Her marriage collapsed, she broke three limbs in separate and unrelated incidents, her father was diagnosed with cancer, and she fell into a deep depression that ended in what could delicately be referred to as a "rest cure" at an inpatient facility. Before that, she had several very good years: she wrote a bestselling book, spoke at NASA, had a beautiful wedding, and inspired hundreds of thousands of readers to live as grown-ups in an often-screwed-up world, though these accomplishments mostly just made her feel fraudulent. One of the few things that kept her moving forward was, improbably, crafting. Not Martha Stewart—perfect crafting, either—what could be called "simple," "accessible" or, perhaps, "rustic" creations were the joy and accomplishments she found in her worst days. To craft is to set things right in the littlest of ways; no matter how disconnected you feel, you can still fold a tiny paper star, and that's not nothing. In *Easy Crafts for the Insane*, crafting tutorials serve as the backdrop of a life dissolved, then glued back together. Surprising, humane, and utterly unforgettable, this is a poignant and hysterical look at the unexpected, messy coping mechanisms we use to find ourselves again.

Crafting Creativity & Creating Craft ,2014-01-01 What is community? How important is community in the 21st century? Where might the idea of community "fit" in education and schooling, teaching and learning? These are the questions and themes embedded in this book. The general critique is that community is an add-on in our schools and often is dismissed as a result of the individualistic and competitive nature of schooling today. Our focus is to provide critical investigations as to the possibility of community—and that we need community now more than ever!

But the promotion of community self-help raises a wide range of questions - for people working in neighbourhoods, for policy makers, for politicians, and for residents

themselves - about how we promote engagement, what would motivate people to become active, and more fundamentally about the ongoing relevance and value of community activity. It presents a lively challenge to the existing thinking on contested debates, and proposes ways forward for community building. This timely publication is an engaging resource for policy makers, practitioners, academics, students and general readers interested in exploring community engagement and active citizenship. Its insightful analysis will be of interest to students of social policy, sociology, community work, housing and regeneration, local government studies and public policy.
