The Repurposed Library Lisa Occhipinti, 2019-11-26 “How-to instructions on crafting with books . . . will inspire you to think about creative ways to make new treasures out of old things” (The Virginian-Pilot). We all love to read and learn from books, but The Repurposed Library takes our passion even further, presenting us with thirty-three projects to make—quite literally—out of books. For these projects, Lisa Occhipinti rescues and repurposes orphaned and outdated books from flea markets and library sales and turns them into new art objects and practical items for the home. Her creations range from artfully constructed mobiles, wreaths, and vases, to functional items like shelves, storage boxes, and even a Kindle “keeper” for those who want to replicate the sensation of holding a “real” book while reading from an e-reader. Projects utilize every imaginable part of a book—from hardback cover to individual pages—and are a DIY celebration of a new way to view a book’s potential. “Occhipinti’s ‘repurposed’ books are truly beautiful art objects, and whether or not you’re crafty enough to give them a try yourself, her book is thoroughly enjoyable.” —Fine Books and Collections “She shows readers how to transform books into mobiles, lamp shades, even clocks.” —National Post

Just Add Watercolour Helen Birch, 2015 Just Add

Watercolour is an innovative and accessible guide to this most dynamic of artforms, packed with bite-sized creative painting tips and advice, offering aspiring artists the freedom to dip in and out for practical information or flick through for fresh inspiration and ideas. Showcasing nearly 100 works by contemporary artists across a range of different styles and approaches, *Just Add Watercolour* highlights and examines the different techniques, qualities and effects relating to each piece. Organized into chapters according to medium and materials (e.g. traditional watercolour, gouache, digital, mixed media) artwork is featured large and luscious, accompanied by extended captions, insightful

tips and practical advice. A visual index at the front of the book enables the reader to easily identify a specific painting, style, colour or subject matter. Throughout the book, useful information and practical tips are provided on a wide range of topics such as tone, perspective, colour and much more besides. Readers are encouraged to discover the various ways in which similar subjects and styles are executed by different artists, while also being inspired to use the tips in the book as a way of building on their existing skills. Offering a bold, refreshing change from other run-of-the-mill art books, Just Add Watercolour adopts the unique approach of accessing practical information via the images, focusing on the way subjects can be treated using a range of different watercolour techniques, rather than looking at how to master one single style.

Most People Michael Leannah, 2017-08-15 2017 Gold Moonbeam Children's Book Award: For dedication to children's books and literacy and for inspired writing, illustrating and publishing. The world can be a scary place. Anxious adults want children to be aware of dangers, but shouldn't kids be aware of kindness too? Michael Leannah wrote *Most People* as an antidote

to the scary words and images kids hear and see every day. Jennifer Morris's emotive, diverting characters provide the perfect complement to Leannah's words, leading us through the crowded streets of an urban day in the company of two pairs of siblings (one of color). We see what they see: the hulking dude with tattoos and chains assisting an elderly lady onto the bus; the Goth teenager with piercings and purple Mohawk returning a lost wallet to its owner; and the myriad interactions of daily existence, most of them well intended. *Most People* is a courageous, constructive response to the dystopian world of the news media. Unlocking the Ancient Secrets to Healing Gail

Lynn,2023-07 GAIL LYNN was first exposed to sound and light healing while working in the film industry as an executive producer for a movie about Elvis Presley called Protecting the King. When Gail's doctor diagnosed her with severe cardiovascular stress at the young age of 37, caused by an accumulation of stress from two challenging relationships and three successive and extremely competitive careers in the automotive and telecommunications industries, and then as a Hollywood producer, she knew that she had to find a radical solution to her health issues. Extensive research led her into the world of frequency medicine and light and sound technologies. After just a weekend of sessions with a non-invasive sound and light chamber, her Heart Rate Variability medical test showed the stress on her heart had significantly decreased. Unable to believe it could have been that easy, she continued sessions periodically for three years, during which a lifelong condition of chronic asthma disappeared, along with severe migraines that had been plaguing her for 23 years. Determined to help others and open her own healing Center in Denver, Colorado, Gail simultaneously set out to uncover the ancient history and the modern science behind light and sound as healing therapies. Following a series of extraordinary synchronicities, which guided her to combine light and sound technologies with sacred geometry and Tesla mathematics, she developed a revolutionary immersive, resonance healing chamber called the Harmonic Egg, which is advancing frequency healing to

an unimagined level. To find out more visit:
