*Made by Hand* Mark Frauenfelder,2011-10-25 From his unique vantage point as editor-in-chief of *MAKE* magazine, the hub of the newly invigorated do-it-yourself movement, Mark Frauenfelder takes readers on an inspiring and surprising tour of the vibrant world of DIY. The Internet has brought together large communities of people who share ideas, tips, and blueprints for making everything from unmanned aerial vehicles to pedal- powered iPhone chargers to an automatic cat feeder jury-rigged from a VCR. DIY is a direct reflection of our basic human desire to invent and improve, long suppressed by the availability of cheap, mass-produced products that have drowned us in bland convenience and cultivated our most wasteful habits. Frauenfelder spent a year trying a variety of offbeat projects such as keeping chickens and bees, tricking out his espresso machine, whittling wooden spoons, making guitars out of cigar boxes, and doing citizen science with his daughters in the garage. His whole family found that DIY helped them take control of their lives, offering a path that was simple, direct, and clear. Working with their hands and minds helped them feel more engaged with the world around them. Frauenfelder also reveals how DIY is changing our culture for the better. He profiles fascinating alpha makers leading various DIY movements and grills them for their best tips and insights. Beginning his journey with hands as smooth as those of a typical geek, Frauenfelder offers a unique perspective on how earning a few calluses can be far more rewarding and satisfying than another trip to the mall.

**Do it Yourself** Carolyn M. Goldstein,1998 Do It Yourself investigates the history behind the current do-it-yourself craze in homebuilding and home repair. The origins of home improvement can be traced to the early part of the century when government loan programs placed home ownership within the reach of growing numbers of families, mass-circulation magazines began providing their readers with information about home remodeling and repair, and increasing numbers of Americans turned to the manual arts and handicrafts as leisure-time pursuits. World War II provided many Americans with the skills and confidence to undertake home-improvement projects on their own, and after the war, changes in the manufacturing and retail of tools and equipment created new possibilities for transforming one's home. As home remodeling became a central feature of domestic life and consumer culture, the do-it-yourself movement was born, coming of age in the baby-boomer 1950s and 1960s, when Americans created suburban paradises and reclaimed decaying urban centers. The text of Do It Yourself, which investigates topics ranging from women's roles in home repair to historic preservation, is a lively mix of illustrations -- including period photographs, magazine spreads, and advertisements -- and clearly written analysis of the trends behind these images.

Within these categories we've carefully chosen a broad range of popular projects, often with a creative touch or two to make them easier to build or more efficient to use.
