The Wyoming Blizzard of 1949 James C Fuller,2019-11-04 A Wyoming historian shares an in-depth look at the historic storm and its devastating aftermath through the stories of those who survived. The Blizzard of 1949 took Wyoming and neighboring states by surprise. In January of that year, snow, wind and frigid temperatures devastated the northern plains. The storm stranded hundreds of motorists on the highways and stalled nearly two dozen trains at depots throughout the state. For nearly two months, towns and ranches were marooned by enormous drifts, some reportedly eighty feet tall. Communities pulled together to assist not only their neighbors but also anyone unable to escape the snowstorm. Drawing on meticulous research and numerous in-person interviews, author and historian James Fuller recounts these harrowing stories of tenacity and fortitude.

My Descent Into Death Howard Storm,2005-02-15 Not since Betty Eadie's *Embraced by the Light* has a personal account of a Near-Death Experience (NDE) been so utterly different from most others—or nearly as compelling. This is a book you devour from cover to cover, and pass on to others. This is a book you will quote in your daily conversation. Storm was meant to write it and we were meant to read it. —from the foreword by Anne Rice In the thirty years since Raymond Moody's *Life After Life* appeared, a familiar pattern of NDEs has emerged: suddenly floating over one's own body, usually in a hospital setting, then a sudden hurtling through a tunnel of light toward a presence of love. Not so in Howard Storm's case. Storm, an avowed atheist, was awaiting emergency surgery when he realized that he was at death's door. Storm found himself out of his own body, looking down on the hospital room scene below. Next, rather than

going “toward the light,” he found himself being torturously dragged to excruciating realms of darkness and death, where he was physically assaulted by monstrous beings of evil. His description of his pure terror and torture is unnerving in its utter originality and convincing detail. Finally, drawn away from death and transported to the realm of heaven, Storm met angelic beings as well as the God of Creation. In this fascinating account, Storm tells of his “life review,” his conversation with God, even answers to age-old questions such as why the Holocaust was allowed to take place. Storm was sent back to his body with a new knowledge of the purpose of life here on earth. This book is his message of hope.

The Storm of War Andrew Roberts, 2011-05-17 “Gripping. . . splendid history. A brilliantly clear and accessible account of the war in all its theaters. Roberts’s prose is unerringly precise and strikingly vivid. It is hard to imagine a better-told military history of World War II.” –New York Times Book Review
Andrew Roberts's acclaimed new history has been hailed as the finest single-volume account of this epic conflict. From the western front to North Africa, from the Baltic to the Far East, he tells the story of the war—the grand strategy and the individual experience, the brutality and the heroism—as never before. Meticulously researched and masterfully written, *The Storm of War* illuminates the war's principal actors, revealing how their decisions shaped the course of the conflict. Along the way, Roberts presents tales of the many lesser-known individuals whose experiences form a panoply of the courage and self-sacrifice, as well as the depravity and cruelty, of the Second World War.

The Making of Tornado Chasers Ken Cole, 101-01-01 In *The Making of Tornado Chasers*, filmmaker Ken Cole gives you a rare, behind-the-scenes look at the treacherous production of the documentary series

Tornado Chasers, which follows Reed Timmer's chase team during the historic 2013 tornado season. Including behind-the-scenes anecdotes and first-hand accounts of the tragic events in Moore and El Reno, Oklahoma, Cole tells his personal story through a series of logs covering pre-production through the series premiere.

Flood of Images Bernie Cook,2015-04-01 Anyone who was not in New Orleans during Hurricane Katrina and the subsequent flooding of the city experienced the disaster as a media event, a flood of images pouring across television and computer screens. The twenty-four-hour news cycle created a surplus of representation that overwhelmed viewers and complicated understandings of the storm, the flood, and the aftermath. As time passed, documentary and fictional filmmakers took up the challenge of explaining what had happened in New Orleans, reaching beyond news reports to portray the lived experiences of survivors of Katrina. But while these narratives presented alternative understandings and more opportunities for empathy than TV news, Katrina remained a mediated experience. In *Flood of Images*, Bernie Cook offers the most in-depth, wide-ranging, and carefully argued analysis of the mediation and meanings of Katrina. He engages in innovative, close, and comparative visual readings of news coverage on CNN, Fox News, and NBC; documentaries including Spike Lee's *When the Levees Broke* and *If God Is Willing and Da Creek Don't Rise*, Tia Lessin and Carl Deal's *Trouble the Water*, and Dawn Logsdon and Lolis Elie's *Faubourg Treme*; and the HBO drama *Treme*. Cook examines the production practices that shaped Katrina-as-media-event, exploring how those choices structured the possible memories and meanings of Katrina and

how the media's memory-making has been contested. In *Flood of Images*, Cook intervenes in the ongoing process of remembering and understanding Katrina.

Storm Lake Art Cullen, 2020-01-21 A reminder that even the smallest newspapers can hold the most powerful among us accountable.—The New York Times Book Review Watch the documentary *Storm Lake* on PBS. Iowa plays an outsized role in national politics. Iowa introduced Barack Obama and voted bigly for Donald Trump. But is it a bellwether for America, a harbinger of its future? Art Cullen's answer is complicated and honest. In truth, Iowa is losing ground. The Trump trade wars are hammering farmers and manufacturers. Health insurance premiums and drug prices are soaring. That's what Iowans are dealing with, and the problems they face are the problems of the heartland. In this candid and timely book, Art Cullen—the *Storm Lake Times* newspaperman who won a Pulitzer Prize for taking on big corporate agri-industry and its poisoning of local rivers—describes how the heartland has changed dramatically over his career. In a story where politics, agriculture, the environment, and immigration all converge, Cullen offers an unsentimental ode to rural America and to the resilient people of a vibrant community of fifteen thousand in Northwest Iowa, as much survivors as their town.

Arctic Cinemas and the Documentary Ethos Lilya Kaganovsky, Scott MacKenzie, Anna Westerstahl Stenport, 2019-02-18 Beginning with Robert Flaherty's *Nanook of the North* (1922), the majority of films that have been made in, about, and by filmmakers from the Arctic region have been documentary cinema. Focused on a hostile environment that few people visit, these documentaries have heavily shaped ideas about the contemporary global Far North. In *Arctic Cinemas and the Documentary Ethos*, contributors from

a variety of scholarly and artistic backgrounds come together to provide a comprehensive study of Arctic documentary cinemas from a transnational perspective. This book offers a thorough analysis of the concept of the Arctic as it is represented in documentary filmmaking, while challenging the notion of The Arctic as a homogenous entity that obscures the environmental, historical, geographic, political, and cultural differences that characterize the region. By examining how the Arctic is imagined, understood, and appropriated in documentary work, the contributors argue that such films are key in contextualizing environmental, indigenous, political, cultural, sociological, and ethnographic understandings of the Arctic, from early cinema to the present. Understanding the role of these films becomes all the more urgent in the present day, as conversations around resource extraction, climate change, and sovereignty take center stage in the Arctic's representation.

Aftershocks of Disaster Yarimar Bonilla, Marisol LeBrón, 2019-09-03 Two years after Hurricane Maria hit, Puerto Ricans are still reeling from its effects and aftereffects. *Aftershocks* collects poems, essays and photos from survivors of Hurricane Maria detailing their determination to persevere. The concept of aftershocks is used in the context of earthquakes to describe the jolts felt after the initial quake, but no disaster is a singular event. *Aftershocks of Disaster* examines the lasting effects of hurricane Maria, not just the effects of the wind or the rain, but delving into what followed: state failure, social abandonment, capitalization on human misery, and the collective trauma produced by the botched response.

Orphans of the Storm Celia Imrie, 2021-08-19 THE SUNDAY TIMES BESTSELLER The story of a mother's quest to find her children against all odds, set against the epic backdrop of the sinking of the

legendary Titanic. 'Smashing . . . I was hooked on page one and literally could not put it down. Her husband, Michael, an ambitious tailor, has become cruel and controlling and she determines to get a divorce. But while awaiting the judges' decision on the custody of their two small boys, Michael receives news that changes everything. Meanwhile fun-loving New York socialite Margaret Hays is touring Europe with some friends. Restless, she resolves to head home aboard the most celebrated steamer in the world – RMS Titanic. As the ship sets sail for America, carrying two infants bearing false names, the paths of Marcela, Michael and Margaret cross - and nothing will ever be the same again. From the Sunday Times-bestselling author, Celia Imrie, *Orphans of the Storm* dives into the waters of the past to unearth a sweeping, epic tale of the sinking of the Titanic that radiates with humanity and hums with life. _____

Hijacked Justice Jelena Subotić, 2010-12-15 What is the appropriate political response to mass atrocity? In *Hijacked Justice*, Jelena Subotic traces the design, implementation, and political outcomes of institutions established to deal with the legacies of violence in the aftermath of the Yugoslav wars. She finds that international efforts to establish accountability for war crimes in the former Yugoslavia have been used to pursue very different local political goals. Responding to international pressures, Serbia, Croatia, and Bosnia have implemented various mechanisms of transitional justice—the systematic addressing of past crimes after

conflicts end. Transitional justice in the three countries, however, was guided by ulterior political motives: to get rid of domestic political opponents, to obtain international financial aid, or to gain admission to the European Union. Subotic argues that when transitional justice becomes hijacked for such local political strategies, it fosters domestic backlash, deepens political instability, and even creates alternative, politicized versions of history. That war crimes trials (such as those in The Hague) and truth commissions (as in South Africa) are necessary and desirable has become a staple belief among those concerned with reconstructing societies after conflict. States are now expected to deal with their violent legacies in an institutional setting rather than through blanket amnesty or victor's justice. This new expectation, however, has produced paradoxical results. In order to avoid the pitfalls of hijacked justice, Subotic argues, the international community should focus on broader and deeper social transformation of postconflict societies, instead on emphasizing only arrests of war crimes suspects.

Us and Them: The Authorised Story of Hipgnosis Mark Blake, 2023-02-02 'Hugely entertaining history' - Mojo Between the late '60s and early '80s, design house Hipgnosis created some of the most iconic and ubiquitous album artwork of all time. Their original lifespan coincided with the golden age of the 12-inch LP, beginning just as the Beatles' Sgt Pepper made the record sleeve the ultimate blank canvas and ending just as new technology looked set to usurp vinyl. Having originally been approached to design an album cover for their friends Pink Floyd, students Aubrey 'Po' Powell and Storm Thorgerson would go on to define the visual identity of rock and roll for the next fifteen years, swiftly gaining international prominence for their famed The Dark Side of the Moon artwork. This paved the way for other major

musicians to set foot in the surreal photo-design world of Storm and Po, resulting in seminal Hipgnosis creations for the likes of Led Zeppelin, Paul McCartney, Genesis, Black Sabbath, ELO and Yes. In this authorised account, with access to previously unpublished material and exclusive contributions from David Gilmour, Jimmy Page, Peter Gabriel, Roger Waters, Robert Plant and even Aubrey Powell himself, Mark Blake goes behind the scenes of the Hipgnosis partnership to reveal the pioneering ambition and grand vision that led to their success, as well as the clashing egos and artistic differences that undermined it. The Hipgnosis story also offers hitherto-untold insight into some of music's most legendary bands, as viewed through the prism of the people who shaped their imagery and cultural legacy. With the work of Hipgnosis continuing to be referenced, reproduced and revered worldwide, *Us and Them* serves as a celebration, a cautionary tale and a compelling human drama, exploring the vital intersection between art and music.

Cajun Literature and Cajun Collective Memory Mathilde Köstler, 2022-12-19 How does Cajun literature, emerging in the 1980s, represent the dynamic processes of remembering in Cajun culture? Known for its hybrid constitution and deeply ingrained oral traditions, Cajun culture provides an ideal testing ground for investigating the collective memory of a group. In particular, francophone and anglophone Cajun texts by such writers as Jean Arceneaux, Tim Gautreaux, Jeanne Castille, Zachary Richard, Ron Thibodeaux, Darrell Bourque, and Kirby Jambon reveal not only a shift from an oral to a written tradition. They also show hybrid perspectives on the Cajun collective memory. Based on recurring references to place, the texts also reflect on the (Acadian) past and reveal the innate ability of the Cajuns to adapt through repeated intertextual references. The Cajun collective memory is thus defined by a transnational outlook, a transversality cutting across various ethnic heritages to establish and legitimize a collective identity both amid the linguistic and cultural diversity in Louisiana, and in the face of American mainstream culture. **Cajun Literature and Cajun Collective Memory** represents the first analysis of the mnemonic strategies Cajun writers use to explore and sustain the Cajun identity and collective memory.
