*Status Power* Isa Duche,2002 This book examines recent developments in Japanese-Korean relations. Its aim is to show how soft issues like history consciousness or national identity have an impact on concrete policy decisions including security or economic matters which are traditionally considered more substantial foreign policy issues. The author develops the concept of status as based on either prestige or on a positive reputation, or moral authority. Cases studies illustrate the mechanisms in which status power is used for other ends, also in the policy areas of economy and security.

**Transnational Convergence of East Asian Pop Culture** Seok-Kyeong Hong,Dal Yong Jin,2021-03-08 This book observes and analyzes transnational interactions of East Asian pop culture and current cultural practices, comparing them to the production and consumption of Western popular culture and providing a theoretical discussion regarding the specific paradigm of East Asian pop culture. Drawing on innovative theoretical perspectives and grounded empirical research, an international team of authors consider the history of transnational flows within pop culture and then systematically address pop culture,digital technologies, and the media industry. Chapters cover the Hallyu—or

Korean Wave—phenomenon, as well as Japanese and Chinese cultural industries. Throughout the book, the authors address the convergence of the once-separated practical, industrial, and business aspects of popular culture under the influence of digital culture. They further coherently synthesize a vast collection of research to examine the specific realities and practices of consumers that exist beyond regional boundaries, shared cultural identities, and historical constructs. This book will be of interest to academic researchers, undergraduates, and graduate students of Asian media, media studies, communication studies, cultural studies, transcultural communication, or sociology.

**Modern Japan: All That Matters** Jonathan Clements, 2014-11-28 Jonathan Clements charts the rise of Japan since the end of World War Two. Presenting the country as the Japanese themselves see it, he explains key issues in national reconstruction, the often-overlooked US Occupation, the influence of the Cold War, student unrest, political scandals, and the meteoric rise and sudden fall of the Japanese economy in the late 20th century. He chronicles changes in women's rights and consumer habits, developments in politics, education and health today, and the shadow of nuclear issues from Hiroshima to Fukushima. He also raises topics rarely covered by the foreign media - Japan's ethnic minorities and burakumin underclass, the influence of organised crime and the hard sell behind soft power. A final chapter examines the price Japan has paid for its meteoric rise, the problems of a greying population and a declining countryside, and the long-term implications of the Tohoku earthquake and tsunami. All That Matters about modern Japan. All That Matters books are a fast way to get right to the heart of key issues.

**Exporting Japanese Aesthetics** Tets Kimura, Jennifer Harris, 2020-05-04 Exporting Japanese Aesthetics brings together historical and contemporary case studies addressing the evolution of international impacts and influences of Japanese culture and aesthetics. The volume draws on a wide range of examples from a multidisciplinary team of scholars exploring transnational, regional and global contexts. Studies include the impact of traditional Japanese theatre and art through to the global popularity of contemporary anime and manga. Under the banner of soft power or Cool Japan, cultural commodities that originate in Japan have manifested new meanings outside Japan. By (re)mapping meanings of selected Japanese cultural forms, this volume offers an in-depth examination of how various aspects of Japanese aesthetics have evolved as exportable commodities, the motivations behind this diffusion, and the extent to which the process of diffusion has been the result of strategic planning. Each chapter presents a case study that explores perspectives that situate Japanese aesthetics within a wide-ranging field of inquiry including performance, tourism, and visual arts, as well as providing historical contexts. The importance of interrogating the export of Japanese aesthetics is validated at the highest levels of government, which formed the

Office of Cool Japan in 2010, and which perhaps originated in the 19th century at governmentally endorsed cultural courts at world fairs. Increased international consumption of contemporary Japanese culture provides a much needed boost to Japan's weakening economy. The case studies are timely and topical. As host of the 2020/2021 Tokyo Olympic Games and the 2025 Osaka Expo, Cool Japan will be under special scrutiny.

### **Contemporary Japanese Film Mark**

Schilling, 1999-11-01 This comprehensive look at Japanese cinema in the 1990s includes nearly four hundred reviews of individual films and a dozen interviews and profiles of leading directors and producers. Interpretive essays provide an overview of some of the key issues and themes of the decade, and provide background and context for the treatment of individual films and artists. In Mark Schilling's view, Japanese film is presently in a period of creative ferment, with a lively independent sector challenging the conventions of the industry mainstream. Younger filmmakers are rejecting the stale formulas that have long characterized major studio releases, reaching out to new influences from other media—television, comics, music videos, and even computer games—and from both the West and other Asian cultures. In the process they are creating fresh and exciting films that range from the meditative to the manic, offering hope that Japanese film will not only survive but thrive as it enters the new millennium.

**The Age of Hiroshima** Michael D. Gordin, G. John Ikenberry, 2020-01-14 A multifaceted portrait of the Hiroshima bombing and its many legacies On August 6, 1945, in the waning days of World War II, the United States dropped an atomic bomb on the Japanese city of Hiroshima. The city's destruction stands as a powerful

symbol of nuclear annihilation, but it has also shaped how we think about war and peace, the past and the present, and science and ethics. The Age of Hiroshima traces these complex legacies, exploring how the meanings of Hiroshima have reverberated across the decades and around the world. Michael D. Gordin and G. John Ikenberry bring together leading scholars from disciplines ranging from international relations and political theory to cultural history and science and technology studies, who together provide new perspectives on Hiroshima as both a historical event and a cultural phenomenon. As an event, Hiroshima emerges in the flow of decisions and hard choices surrounding the bombing and its aftermath. As a phenomenon, it marked a revolution in science, politics, and the human imagination—the end of one age and the dawn of another. The Age of Hiroshima reveals how the bombing of Hiroshima gave rise to new conceptions of our world and its precarious interconnectedness, and how we continue to live in its dangerous shadow today.

**Preschool in Three Cultures Revisited** Joseph Tobin, Yeh Hsueh, Mayumi Karasawa, 2009-08-01 Published twenty years ago, the original *Preschool in Three Cultures* was a landmark in the study of education: a profoundly enlightening exploration of the different ways preschoolers are taught in China, Japan, and the United States. Here, lead author Joseph Tobin—along with new collaborators Yeh Hsueh and Mayumi Karasawa—revisits his original research to discover how two decades of globalization and sweeping social transformation have affected the way these three cultures educate and care for their youngest pupils. Putting their subjects' responses into historical perspective, Tobin, Hsueh, and Karasawa analyze the pressures put on schools to evolve and to stay the same, discuss how the teachers adapt to these demands, and

examine the patterns and processes of continuity and change in each country. Featuring nearly one hundred stills from the videotapes, *Preschool in Three Cultures Revisited* artfully and insightfully illustrates the surprising, illuminating, and at times entertaining experiences of four-year-olds—and their teachers—on both sides of the Pacific.

**A Long Stay in a Distant Land** Chieh

Chieng, 2008-12-01 The Lums are cursed. Their early deaths come randomly, strangely, and often, be it by tainted cheeseburger or speeding ice cream truck. The most recent victim is Louis Lum's mother. Now Louis must move back home with his gangsta rap-obsessed father, Sonny, to prevent him from enacting the revenge he promises. But soon Louis's concern shifts to his uncle Bo Lum, who has disappeared in Hong Kong. As Louis's search progresses, the tragicomic story of three generations of Lums in America is revealed. Chieh Chieng graduated from the creative writing program at the University of California, Irvine, and has been published in *Glimmer Train*, the *Threepenny Review*, and the *Santa Monica Review*. \* Chosen for Barnes and Noble's Discover Great New Writers Program \* This is a dazzling debut: poignant, prickly, and deliciously absurd.-Booklist [Chieng is] a fresh comic voice...a touching and auspicious debut.-Orange Country Register

*The Japanization of Modernity* Rebecca Suter, 2008 Murakami Haruki is perhaps the best-known and most widely translated Japanese author of his time.
