A Storm in the Stars Don Zancanella,2022-08-16 In London, early in the nineteenth century, five-year-old Mary Godwin, daughter of philosopher William Godwin, plays with her sister Fanny, mourns her deceased mother, and marvels as a hot air balloon lands not far from the Thames. Nearby, in Sussex, eleven-year-old Percy Shelley entertains his three sisters by telling them stories and performing tricks with chemicals and fire. A few years later Mary and Percy meet and fall in love in the Godwin bookshop near Black Friar's Bridge. At first their romance seems doomed--Percy is a well-known atheist and already has a wife, and Mary is only seventeen and a under the care of her father and his overbearing second wife. But they consider such impediments trivial and are soon on their way to Ireland, to Switzerland, and across Europe (with Mary's flighty half-sister Claire in tow). Upon reaching Lake Geneva they find lodgings near where the notorious poet Lord Byron and his peculiar personal physician John Polidori are staying--the same Lord Byron Claire seduced back in London, her reasoning being that if Mary can have a poet, why can't she? And so begins the summer when Mary Shelley will begin writing her novel about a man who brings to life a creature of his own making, Percy and Lord Byron will debate politics and poetry in the midst of lightning storms, Polidori will begin writing his novel about a man with a taste for human blood, and snow will fall in the middle of July.

**Shadow of the Storm (Out From Egypt Book #2)** Connilyn Cossette,2016-10-18 In the Depth of the Storm's Shadow, Only Truth Can Light Her Way Having escaped Egypt with the other Hebrews during the Exodus, Shira is now living in freedom at the foot of Mt. Sinai, upon which rests the fiery glowing Cloud containing the shekinah glory of God. When the people disobey Yahweh and build a golden idol, the ensuing chaos gives Shira an unexpected opportunity to learn the arts of midwifery. Although her mother wishes for her to continue in the family weaving trade, Shira's gifts shine brightest when she assists with deliveries. In defiance of her mother, Shira pursues her heart's calling to become an apprentice midwife. When a delivery goes horribly wrong, Shira finds herself bound to a man who betrayed her, the caretaker of three young children, and the target of a vengeful woman whose husband was killed by Shira's people, the Levites. As contention between the Hebrew tribes and the foreigners fans the flames of another dangerous rebellion, Shira will come face-to-face with the heartbreak of her past that she has kept hidden for so long. How can she let go of all that has defined her to accept the love she's denied herself and embrace who she truly is?

*The Dynamic Magnetosphere* William Liu,Masaki Fujimoto,2011-06-21 Despite the plethora of monographs published in recent years, few cover recent progress in magnetospheric physics in broad areas of research. While a topical focus is important to in-depth views at a problem, a broad overview of our field is also needed. The volume answers to the latter need. With the collection of articles written by leading scientists, the contributions contained in the book describe latest research results in solar wind-magnetosphere interaction, magnetospheric substorms, magnetosphere-ionosphere coupling, transport phenomena in the plasma sheet, wave and particle dynamics in the ring current and radiation belts, and extra-terrestrial magnetospheric systems. In addition to its breadth and timeliness, the book highlights innovative methods and techniques to study the geospace.
