Mutants soviétiques. Drôle de fantaisie СтаВл Зосимов Премудрословски,2019-12-04 Ici, des mutants nucléaires de la zone de Tchernobyl, appelés GALUPY, ont attaqué les mutants de Tcheliabinsk, appelés BLACKS. Et les a amenés, un moineau chauve du site d'essais nucléaires de Semipalatinsk, nommé STASYAN, qui s'est lié d'amitié avec un autre mutant nommé Gryzha Gemoroev... Et ils se sont tous battus pour leur vie...

**Dictionary of Louisiana French** Albert Valdman, Kevin James Rottet, 2010 The Dictionary of Louisiana French (DLF) provides the richest inventory of French vocabulary in Louisiana and reflects precisely the speech of the period from 1930 to the present. This dictionary describes the current usage of French-speaking peoples in the five broad regions of South Louisiana: the coastal marshes, the banks of the Mississippi River, the central area, the north, and the western prairie. Data were collected during interviews from at least five persons in each of twenty-four areas in these regions. In addition to the data collected from fieldwork, the dictionary contains material compiled from existing lexical inventories, from texts published after 1930, and from archival recordings. The new authoritative resource, the DLF not only contains the largest number of words and expressions but also provides the most complete information available for each entry. Entries include the word in the conventional French spelling, the pronunciation (including attested variants), the part of speech classification, the English equivalent, and the word's use in common phrases. The DLF features a wealth of illustrative examples derived from fieldwork and textual sources and identification of the parish where the entry was collected or the source from which it was compiled. An English-to-Louisiana French index enables readers to find out how particular notions would be expressed in la Louisiane .

**The Religion of Existence** Noreen Khawaja, 2016-12-02 "Keen insight...reveals existentialism as one more chapter in Christianity's history."—Journal of the American Academy of Religion The Religion of Existence reopens an old debate on an important question: What was existentialism? At the heart of existentialism, Noreen Khawaja argues, is a story about secular thought experimenting with the traditions of European Christianity. This book explores how a distinctly Protestant asceticism formed the basis for the chief existentialist ideal, personal authenticity, which is reflected in approaches ranging from Kierkegaard's religious theory of the self to Heidegger's phenomenology of everyday life to Sartre's global mission of atheistic humanism. Through these three philosophers, she argues, we observe how ascetic norms have shaped one of the twentieth century's most powerful ways of thinking about identity and difference—the idea that the true self is not simply given but something that each of us is responsible for producing. Engaging with many central figures in modern European thought, this book is of value to philosophers and historians of European philosophy, scholars of modern Christianity, and those working on problems at the intersection of religion and modernity.

**Santa Down** AM Sardar,

Speaking Better French Saul H. Rosenthal, 2008 This second book of key words and expressions gives you more of the absolutely essential words you'll need to know to navigate everyday French conversation. For example, it would be very difficult to get through a single day in France without hearing each of the words *truc*, *bise*, and *Pardon !* at least once. Well, these words are all here, and lots more, like *défense de*, *foutu*, *drôle de*, and *en liquid*. The use of each is discussed and illustrated with examples. After reading this book you will not only recognize these key words if you see or read them, but you will also be able to use them correctly yourself. This book will be a pleasure for you. It's one of those rare finds, a book that is both very useful and fun to read!

**Reframing Difference** Carrie Tarr, 2005-09-17 This is the first major study of two overlapping strands of contemporary French cinema, *cinéma beur* (films by young directors of Maghrebi immigrant origin) and *cinéma de banlieue* (films set in France's disadvantaged outer-city estates). Carrie Tarr's insightful account draws on a wide range of films, from directors such as Mehdi Charef, Mathieu Kassowitz and Djamel Bensalah. Foregrounding such issues as the quest for identity, the negotiation of space and the recourse to memory and history, she argues that these films challenge and reframe the symbolic spaces of French culture, addressing issues of ethnicity and difference which are central to today's debates about what it means to be French.

**Romance Languages and Linguistic Theory 2009** Janine Berns, Haike Jacobs, Tobias Scheer, 2011-11-30 The annual Going Romance conference has developed into the major European discussion forum for theoretically relevant research on Romance languages where current ideas about language in general and about Romance languages in particular are tested. The twenty-third Going Romance conference was a very special one: for the first time it was not hosted by one of the Dutch universities, but was co-organized by the Radboud University Nijmegen and the Université de Nice-Sophia Antipolis and held in France at the Maison du Séminaire in Nice from 3–5 December 2009. The present volume contains a broad range of peer-reviewed articles dealing with syntax, phonology, morphology, semantics and acquisition of the Romance languages as well as selected papers from the special workshop dealing with linguistic change in relation to linguistic theory.

Elements of Structural Syntax Lucien Tesnière, 2015-02-11 This volume appears now finally in English, sixty years after the death of its author, Lucien Tesnière. It has been translated from the French original into German, Spanish, Italian, and Russian, and now at long last into English as well. The volume contains a comprehensive approach to the syntax of natural languages, an approach that is foundational for an entire stream in the modern study of syntax and grammar. This stream is known today as dependency grammar (DG). Drawing examples from dozens of languages, many of which he was proficient in, Tesnière presents insightful analyses of numerous phenomena of syntax. Among the highlights are the concepts of valency and head-initial vs. head-final languages. These concepts are now taken for granted by most modern theories of syntax, even by phrase structure grammars, which represent, in a sense, the opposite sort of approach to syntax from what Tesnière was

advocating. Now Open Access as part of the Knowledge Unlatched 2017 Backlist Collection.

*La pomme : un drôle de duo* Elisabeth Le Quere,Catherine Levy,2006-02-01 E.Le Quéré et C.Levy mettent en scène deux femmes d'âge mûr, Marine et Claudine, fermement décidées à réaliser un bonheur tardif. Dans sa version noble le sentiment dit d'amour devrait pouvoir être le lot de tous... Il est un don de Dieu et il n'est jamais trop tard pour le rencontrer... Elles nous adressent un message d'espoir par le biais de personnages issus du quotidien mais avec une réflexion allant bien au delà. (Voir Le Galet)
