It is also ideal for students and professionals in statistics, economics, geography and the social sciences.

The Question of Red: A Novel (Edisi Bahasa Inggris)
Laksmi Pamuntjak, 2014-01-09 *The Question of Red* tells the story of two lovers, Amba and Bhisma, driven apart by one of the bloodiest Communist purges in the 20th century—the massacres that took place in Indonesia

between 1965 and 1968 in which some 1 million people were killed. From rural Java and Yogyakarta to the prison camps of Buru Island, where some 12,000 alleged Communists were incarcerated without trial during the Suharto administration, the lives of the central characters interpret the Mahabharata—that timeless allegory of war within a family—with a modern twist. Published in Indonesian last year as *Amba: Sebuah Novel*, Laksmi Pamuntjak's novel has enjoyed three reprinting within four months. Laksmi Pamuntjak has published two collections of poetry, *Ellipsis* (2005), recommended by Suhayl Saadi in the Herald UK Books of the Year pages, and *The Anagram* (2007), as well as *Perang, Langit dan Dua Perempuan* (2006), a treatise on violence and the Iliad, the short story collection *The Diary of R.S.: Musings on Art* (2006), and four editions of the award-winning Jakarta Good Food Guide. Co-founder of Aksara Bookstore, Pamuntjak has participated in numerous international literary events. Her poems, short stories and essays have also been published in several international journals, including the preface to *Not a Muse: International Anthology of Women's Poetry* (2008). In 2012 she was selected as the Indonesian representative at the Poetry Parnassus/ Cultural Olympiad in London, held in conjunction with the London Olympics.

A Simple Life (Edisi Bahasa Inggris) Desi

Anwar, 2015-01-13 If there's one thing we're good at, is making our lives complicated. We fill it with expectations, anxieties and fears. We fret about the past, we worry about the future, we ignore the present. We seek fulfillment in material things and happiness in wishful thinking, often at the expense of the riches that already surround us. *A Simple Life* is a collection of musings, observations and thoughts that Desi Anwar gathers from her experience, childhood recollections and perspectives, as well as habits

she tries to adopt in navigating the complexities of our every day life. Ordinary things such as appreciating Nature, finding time to sit back and relax, developing a cheerful and positive attitude, taking care of our physical and mental health, keeping an open mind and a host of other things that may seem simple on the surface, but often difficult to achieve because we seldom give ourselves the time for it. And yet, these are the very things that can make us feel truly content and give meaning to our lives. Read the essays at your leisure, find inspiration from the anecdotes and make the book a friend when you need comfort and cheering up anytime of the week.

Rampokan - Edisi Inggris Peter Van

Dongen, 2019-10-28 Indonesia declared independence on August 17, 1945. Driven from the Dutch East Indies when the Japanese landed in 1942, the Netherlands refuses to recognize this declaration and sets out to recover their colony. The Dutch government decides to send a contingent to fight those it calls "terrorists". Among them, Johan Knevel, who was born "in the Indies", hopes to regain the lost paradise of his childhood. He is faced with the reality of a war in which no one's hands are clean.

The Last Crowd *Edisi Bahasa Inggris Dari Kerumunan Terakhir Okky Madasari, 2017-07-31 A story of human confusion in the midst of a fast-changing digital era, when humans don't have much chance to stop, look back, and contemplate. Moving from one crowd to another, from connecting to alienating, we flock to the future and leave the past behind. Technology has transformed human civilisation. Social network is the new world, where tremendous amount of time is spent running away from the harsh reality of life filled with defeat and absurdity. The novel portrays a young Generation Y, who lives in two worlds with blurring boundaries. Unable to distinguish

what's real and what's virtual, Jayanegara falls into the trap of hope and illusion of cyberspace. As the first Indonesian novel that explores the pressing issue of human existence in an era where modern technology consumes our existence, *The Last Crowd* cleverly unravels our deepest fears and desires: loneliness, isolation, and an innate obsession to be whoever we want to be on screens.

Ground Zero (Edisi Bahasa Inggris `Titik Nol`)

Agustinus Wibowo, 2015-11-10 After ten years wandering the world, Agustinus Wibowo has finally come home. He is now forced to face a reality that he has always feared. His mother is on the brink of death, as cancer ravages her body. Not unlike Scherazade who reads through one thousand and one tales over as many nights, the traveller recounts his journey to his ailing mother, who has barely ever left their little village in Java, Indonesia. He talks about the illusory homeland of China, the holy Tibet, the spiritual Nepal, the dramatic India, the struggling Pakistan, and the surviving Afghanistan. And along with these stories, his mother finally finds a voice to recount her own life journey. Fragments of their lives come together, two distinctive roads spanning time and distance only to converge, to become a heart-wrenching tale of love and survival. "Relating his travels to his dying mother, Wibowo beautifully captures the bittersweet experience of solo travel. The excitement of discovery, the shadow of a changeling identity and the low-grade thrum of the road not taken combine to produce this lyrical journey through time and place." -Elizabeth Pisani, author of *Indonesia Etc.: Exploring the Improbable Nation*

Winter Dreams and the Invincible Summer (Edisi Bahasa Inggris) Maggie Tiojakin, 2015-09-16 On the day George W. Bush took his oath as the 43rd President of the United States, I began my life as an illegal alien. It was a

conscious decision and it felt a lot like I was crossing a line, invisible to others, though unmistakable in the eyes of the law. But this is America, I thought: life follows a different kind of logic here.” Nicky F. Rompa is a twenty-something Indonesian immigrant who comes to America with a bag of unresolved issues. To get away from his abusive father back home, Nicky goes on to stay with his relatives in Boston. Pretty soon, it seems as though he is living the dream: he meets a beautiful Russian girl, goes on road trips, gets a job, and finally experiences the America he had only seen on TV before. Yet, like any dream, it ends. And he is left with the choices of either going home or sticking around while hoping — against all odds — that the dream will return. Originally written in and translated from Bahasa Indonesia by Maggie Tiojakin, one of Indonesia’s emerging literary stars, *Winter Dreams* is a modern cautionary tale of a broken man in a broken country. Set against the backdrop of a full-on battle waged against illegal immigrants in the U.S. following the horrific events of 9/11 — told in restrained, understated and compelling prose — this is a story that offers a fresh, poignant look into the invisible lives of sojourners.

Practical Research Paul D. Leedy, Jeanne Ellis Ormrod, 2013-07-30 For undergraduate or graduate courses that include planning, conducting, and evaluating research. A do-it-yourself, understand-it-yourself manual designed to help students understand the fundamental structure of research and the methodical process that leads to valid, reliable results. Written in uncommonly engaging and elegant prose, this text guides the reader, step-by-step, from the selection of a problem, through the process of conducting authentic research, to the preparation of a completed report, with practical suggestions based on a solid theoretical framework and sound pedagogy. Suitable as the core text in any introductory research course or even for self-instruction, this text will show students two things: 1) that quality research demands planning and design; and, 2) how their own research projects can be executed effectively and professionally.

The Craft of Research, 2nd edition Wayne C. Booth, Gregory G. Colomb, Joseph M. Williams, 2008-04-15 Since 1995, more than 150,000 students and researchers have turned to The Craft of Research for clear and helpful guidance on how to conduct research and report it effectively. Now, master teachers Wayne C. Booth, Gregory G. Colomb, and Joseph M. Williams present a completely revised and updated version of their classic

handbook. Like its predecessor, this new edition reflects the way researchers actually work: in a complex circuit of thinking, writing, revising, and rethinking. It shows how each part of this process influences the others and how a successful research report is an orchestrated conversation between a researcher and a reader. Along with many other topics, *The Craft of Research* explains how to build an argument that motivates readers to accept a claim; how to anticipate the reservations of thoughtful yet critical readers and to respond to them appropriately; and how to create introductions and conclusions that answer that most demanding question, So what? Celebrated by reviewers for its logic and clarity, this popular book retains its five-part structure. Part 1 provides an orientation to the research process and begins the discussion of what motivates researchers and their readers. Part 2 focuses on finding a topic, planning the project, and locating appropriate sources. This section is brought up to date with new information on the role of the Internet in research, including how to find and evaluate sources, avoid their misuse, and test their reliability. Part 3 explains the art of making an argument and supporting it. The authors have extensively revised this section to present the structure of an argument in clearer and more accessible terms than in the first edition. New distinctions are made among reasons, evidence, and reports of evidence. The concepts of qualifications and rebuttals are recast as acknowledgment and response. Part 4 covers drafting and revising, and offers new information on the visual representation of data. Part 5 concludes the book with an updated discussion of the ethics of research, as well as an expanded bibliography that includes many electronic sources. The new edition retains the accessibility, insights, and directness that have made *The Craft of Research* an indispensable guide for

anyone doing research, from students in high school through advanced graduate study to businesspeople and government employees. The authors demonstrate convincingly that researching and reporting skills can be learned and used by all who undertake research projects. New to this edition: Extensive coverage of how to do research on the internet, including how to evaluate and test the reliability of sources New information on the visual representation of data Expanded bibliography with many electronic sources

The Adult Learner Malcolm S. Knowles, Elwood F. Holton III, Richard A. Swanson, Petra A. Robinson, 2020-12-21 How do you tailor education to the learning needs of adults? Do they learn differently from children? How does their life experience inform their learning processes? These were the questions at the heart of Malcolm Knowles' pioneering theory of andragogy which transformed education theory in the 1970s. The resulting principles of a self-directed, experiential, problem-centred approach to learning have been hugely influential and are still the basis of the learning practices we use today. Understanding these principles is the cornerstone of increasing motivation and enabling adult learners to achieve. The 9th edition of *The Adult Learner* has been revised to include: Updates to the book to reflect the very latest advancements in the field. The addition of two new chapters on diversity and inclusion in adult learning, and andragogy and the online adult learner. An updated supporting website. This website for the 9th edition of *The Adult Learner* will provide basic instructor aids. For each chapter, there will be a PowerPoint presentation, learning exercises, and added study questions. Revisions throughout to make it more readable and relevant to your practices. If you are a researcher, practitioner, or student

in education, an adult learning practitioner, training manager, or involved in human resource development, this is the definitive book in adult learning you should not be without.

How to Differentiate Instruction in Mixed-ability Classrooms Carol A. Tomlinson, 2001 Offers a definition of differentiated instruction, and provides principles and strategies designed to help teachers create learning environments that address the different learning styles, interests, and readiness levels found in a typical mixed-ability classroom.

What Video Games Have to Teach Us About Learning and Literacy. Second Edition James Paul Gee, 2014-12-02 James Paul Gee begins his classic book with I want to talk about video games--yes, even violent video games--and say some positive things about them. With this simple but explosive statement, one of America's most well-respected educators looks seriously at the good that can come from playing video games. In this revised edition of What Video Games Have to Teach Us About Learning and Literacy, new games like World of WarCraft and Half Life 2 are evaluated and theories of cognitive development are expanded. Gee looks at major cognitive activities including how individuals develop a sense of identity, how we grasp meaning, how we evaluate and follow a command, pick a role model, and perceive the world.
