Partner Violence Zeev Winstok, 2012-09-18 As domestic violence continues to be a focus of social and psychological concern, two basic contradictory viewpoints endure: one rooted in male power dynamics, the other maintaining that both genders use and are victimized by violence. Although both sides have their merits, neither has adequately answered the crucial question: What causes conflict to escalate into violence? *Partner Violence: A New Paradigm for Understanding Conflict Escalation* adds a third, escalation-focused paradigm to the debate, addressing the limitations of the two dominant perspectives in a comprehensive scholarly approach. This concise yet comprehensive volume examines key gender- and non-gender-related violence issues and sets out a compelling behavioral argument that using violence to control others is a rational choice. Its theoretical and empirical foundations support an in-depth study of escalating aggression in violent relationships, both throughout periods of chronic conflict and in single violent episodes. This analysis promotes a broader and deeper understanding of partner violence, suitable to developing more finely targeted, effective, and lasting interventions. Among the key topics featured are: Gender differences in aggressive tendencies. Dominance, control, and violence. Partner violence as planned behavior. The process leading to partner violence. Partner conflict dynamics throughout relationship periods and within conflicts. Gender differences in escalatory intentions. *Partner Violence* is an important volume for researchers, graduate students, and clinicians/professionals across various disciplines, including personality and social psychology, criminology, public health, clinical psychology, sociology, and social work.

The Hero of Numbani (Overwatch #1) Nicky Drayden, 2020-06-02 The world still needs heroes. Are you with us? Enter the first-ever original novel for Overwatch, the worldwide gaming

sensation from Blizzard Entertainment! In the technologically advanced African city of Numbani, in the not-so-distant future, humans live in harmony with humanoid robots known as omnics. But when a terrorist tries to shatter that unity, a hero named Efi Oladele rises! Efi has been making robots since she was little -- machines to better her community and improve people's lives. But after she witnesses Doomfist's catastrophic attack on the city's OR15 security bots, Efi feels the call to build something greater: a true guardian of Numbani. While Doomfist sows discord between humans and omnics, Efi engineers an intelligent and compassionate robot, Orisa, named after the powerful spirits who guide her people. Orisa has a lot to learn before she's ready to defeat Doomfist, but Efi has some learning to do, too, especially when it comes to building -- and being -- a hero. With Doomfist rallying his forces, and the military powerless to stop him, can Efi mold Orisa into the hero of Numbani before it's too late? This action-packed novel features the fan-favorite characters Efi, Orisa, Doomfist, and Lúcio in an all-new, original story straight from the minds of the Overwatch game team and critically acclaimed author Nicky Drayden!

The Automobile and American Life, 2d ed. John Heitmann, 2018-08-03 Now revised and updated, this book tells the story of how the automobile transformed American life and how automotive design and technology have changed over time. It details cars' inception as a mechanical curiosity and later a plaything for the wealthy; racing and the promotion of the industry; Henry Ford and the advent of mass production; market competition during the 1920s; the development of roads and accompanying highway culture; the effects of the Great Depression and World War II; the automotive Golden Age of the 1950s; oil crises and the turbulent 1970s; the decline and then resurgence of the Big Three; and how American car culture has been represented in film, music and literature. Updated notes and a select bibliography serve as valuable resources to those interested in

automotive history.

Narratology Mieke Bal, Christine van Boheemen, 2009-01-01 Índice abreviado: 1. Text: words and other signs 2. Story: aspects 3. Fabula: elements. Afterword: theses on the use of narratology for cultural analysis.

Love Me, Love My Dog and Other Stories Shouhua Qi, 2009-07-20 The short stories collected here, all inspired by real-life events, are about people caught in the unsettling drama of a fast-changing China All of the stories were written in English first, and then translated (rewritten?) into Chinese The stories in this book have already been published in a collection in the United States with a different title: *Red Guard Fantasies and Other Stories* (Long River Press, 2006).--Page vi.

Ski ,1994-04

Durorp-English Dictionary Ekpe Inyang, 2013-08-26 Durorp-English Dictionary is probably the first attempt at compiling a comprehensive Dictionary of Durorp, the language of the people of Korup. It is a bilingual Dictionary aimed at stimulating literary interests in the study and development of Durorp as a linguistic entity in particular and promotion of Durorp literature in general. Durorp is an interesting and linguistically distinct semi-Bantu or Bantoid language spoken by a minority group of people known as Bororp or people of the Kororp ethnic group. A part of this ethnic group inhabits the Southwestern part of Cameroon while the other occupies the Southeastern tip of Nigeria. A minority group, Kororp has continued to suffer not only cultural and socio-economic shrinkage but also linguistic marginalisation characterised by an obvious erosion of some key elements of the language. Like any other language, however, Durorp has borrowings from languages such as Efik, Ejagham, and even English. This Dictionary has introduced quite a number of new but understandable words.

Total Recall | Anagba Jibunor, 2015-03-13 Total Recall 1 is not a one-story, coherent book though. This is to say that it does not zero in on one story from beginning to the end. Rather, it is a collection of different stories put together into a small book. From . . . the story of a kingdom, a small town, that divides against itself when the British brings their system of government in which political parties are formed to contest against each other. Members of the different political parties begin to fight. Members of one party would attack members of another party, both physically and diabolically. Then the military intervenes by staging a coup. The nation plunges into war. The same actors in the political party wars begin to use the military to try to destroy their erstwhile political enemies by inventing false accusations against one another. To . . . the story of a woman who marries into a land that's far away from her own. In the new environment she is just like an orphan. No mother, no father, no near next of kin. Circumstances of life play it well to take advantage of her helplessness by accusing her of murder by witchcraft To . . . stories of African mysticism. The stories are as diverse as they are many. Total Recall 1 is a new kid in the block. The stories are so unique there is a good chance you have not read any story like some of them before. It is written to introduce the world to Africa, the real, everyday Africa. Not the Africa of fiction or the Africa of twisted tales that early European explorers fed their kinsfolk at home. Strangely enough, these tales have stuck and refused to die. It is my hope that through the knowledge gained from this book, the world will begin to understand why Africans do their things the way the world has become accustomed to. The stories in this book will introduce the world to the factors that shape the everyday thinking process of the average African. This, I hope, will introduce a little respect in the arena of international politics.

American Printer, 2007

Cases in Competitive Strategy Michael E. Porter, 1983 Though the cases in Cases in

Competitive Strategy may be informative when studied on their own, they are designed to be read and analyzed in combination with the companion volume, Competitive Strategy. The conceptual materials and the cases are designed to reinforce each other, showing the connection between the theory and the practice of competitive strategy formulation.

Number in the World's Languages Paolo Acquaviva, Michael Daniel, 2022-06-21 The strong development in research on grammatical number in recent years has created a need for a unified perspective. The different frameworks, the ramifications of the theoretical questions, and the diversity of phenomena across typological systems, make this a significant challenge. This book addresses the challenge with a series of in-depth analyses of number across a typologically diverse sample, unified by a common set of descriptive and analytic questions from a semantic, morphological, syntactic, and discourse perspective. Each case study is devoted to a single language, or in a few cases to a language group. They are written by specialists who can rely on first-hand data or on material of difficult access, and can place the phenomena in the context of the respective system. The studies are preceded and concluded by critical overviews which frame the discussion and identify the main results and open questions. With specialist chapters breaking new ground, this book will help number specialists relate their results to other theoretical and empirical domains, and it will provide a reliable guide to all linguists and other researchers interested in number.

Macroeconomics and the History of Economic Thought H.M. Krämer, Heinz D. Kurz, H.-M. Trautwein, 2012-03-29 The essays in this Festschrift have been chosen to honour Harald Hagemann and his scientific work. They reflect his main contributions to economic research and his major fields of interest. The essays in the first part deal with various aspects within the history of economic thought. The second part is about the current state of macroeconomics. The essays in the third part

of the book cover topics on economic growth and structural dynamics.

Motorcycle Fuel Injection Handbook Adam Wade, 2004

The Story of Sex Philippe Brenot, 2017-10-31 The first graphic history of sex chronicles sexuality and human intimacy through the ages, from our primate pasts to our robotic futures. Humans have had sex on the brain since pre-civilization either for pleasure, power, revenge, a desire for children, or simply because it isn't allowed. Today, sex is all around us but it's rarely explained and almost never taught. In *The Story of Sex*, sexologist Phillipe Brenot combines anthropology, sociology, psychology and history with witty comics by Latetita Coryn for an in-depth explanation of this essential aspect of humanity. Organized chronologically into sections like Babylon: Free Love, The Middle Ages: Heaven and Hell, and The 20th Century: Sexual Liberation, Brenot explores what eroticism really is, how our ancestors behaved sexually, when the first couple was established, how superstition and morality laws shaped sexuality, the use of pornography in the digital age, and how some ancient civilizations were far ahead of their time when it came to gender equality. Full of fascinating details like Cleopatra's invention of the vibrator and a Dutch shopkeeper's accidental discovery of the existence of sperm--all accompanied by hilarious comics and dialogue -- *The Story of Sex* is informative, unique, and entertaining book.

Identity Politics on the Israeli Screen Yosefa Loshitzky, 2010-01-01 The struggle to forge a collective national identity at the expense of competing plural identities has preoccupied Israeli society since the founding of the state of Israel. In this book, Yosefa Loshitzky explores how major Israeli films of the 1980s and 1990s have contributed significantly to the process of identity formation by reflecting, projecting, and constructing debates around Israeli national identity. Loshitzky focuses on three major foundational sites of the struggle over Israeli identity: the Holocaust, the question of

the Orient, and the so-called (in an ironic historical twist of the Jewish question) Palestinian question. The films she discusses raise fundamental questions about the identity of Jewish Holocaust survivors and their children (the second generation), Jewish immigrants from Muslim countries or Mizrahim (particularly the second generation of Israeli Mizrahim), and Palestinians. Recognizing that victimhood marks all the identities represented in the films under discussion, Loshitzky does not treat each identity group as a separate and coherent entity, but rather attempts to see the conflation, interplay, and conflict among them.

How to Experiment in Education William Anderson McCall, 1926

Learning and Teaching about the History of Europe in the 20th Century Georg G. Iggers, Laurent Wirth, Council of Europe. Council for Cultural Co-operation, 2000-01-01

The Decision to Use the Atomic Bomb Gar Alperovitz, 2010-12-29 With a new preface by the author Controversial in nature, this book demonstrates that the United States did not need to use the atomic bomb against Japan. Alperovitz criticizes one of the most hotly debated precursory events to the Cold War, an event that was largely responsible for the evolution of post-World War II American politics and culture.

Mr. Mani A. B. Yehoshua, 1993-05-07 New York Times Notable Book: A story of six generations of a Jewish family, by an author Saul Bellow called “one of Israel’s world-class writers.” In this novel, a winner of both the National Jewish Book Award and the first Israeli Literature Prize, A. B. Yehoshua weaves a deeply affecting family saga and an portrait of Jewish life over the past two centuries. The story moves backward through time, unfolding over the course of five conversations. On a kibbutz in the Negev in 1982, a student describes her strange meeting with her boyfriend’s father, Judge Gavriel Mani. On German-occupied Crete in 1944, a Nazi soldier recounts his attempts to hunt down the Mani

family. In Jerusalem in 1918, a Jewish lawyer in the British army briefs his commanding officer on the forthcoming trial of the political agitator Yosef Mani. In a village in southern Poland in 1899, a young doctor reports back to his father on his travels, and on his sister's romance with Dr. Moshe Mani. And in Athens in 1848, Avraham Mani reveals the heartbreaking tale of the death of his son, Yonef, in Jerusalem. Alfred Kazin hailed Mr. Mani as "one of the most remarkable pieces of fiction I have ever read." Named as one of the best books of the year by Publishers Weekly, it is both an absorbing tale and a powerful statement about family, faith, and the weight of history. Translated from the Hebrew by Hillel Halkin
