The Year of the Storm John Mantooth,2013-06-04 In this haunting, suspenseful debut novel, John Mantooth takes readers to a town in rural Alabama where secrets are buried deep, reality is relative, and salvation requires a desperate act of faith. When Danny was fourteen, his mother and sister disappeared during a violent storm. The police were baffled. There were no clues, and most people figured they were dead. Only Danny still holds out hope that they’ll return. Months later, a disheveled Vietnam vet named Walter Pike shows up at Danny’s front door, claiming to know their whereabouts. The story he tells is so incredible that Danny knows he shouldn’t believe him. Others warn him about Walter Pike’s dark past, his shameful flight from town years ago, and the suspicious timing of his return. But he’s Danny’s last hope, and Danny needs to believe...

The Economics of the Yasuní Initiative Joseph Henry Vogel,2010-01-01 Climate change lends itself to both political economy and humor. Vogel argues that mainstream economics fails to recognize the thermodynamic nature of climate change, thereby missing the point of Northern appropriation of the atmospheric sink. The payment Ecuador seeks for not drilling in the Yasuní is equitable and efficient. Heeding the call of Deirdre (formerly Donald) McCloskey that economics needs humor, Vogel has written a scathing critique of economics-as-usual which also entertains.

Egghead Bo Burnham,2013-10-01 A strange and charming collection of hilariously absurd poetry, writing, and illustration from one of today's most popular young comedians... EGGHEAD: Or, You Can't Survive on Ideas Alone Bo Burnham was a precocious teenager living in his parents' attic when he started posting material on YouTube. 100 million people viewed those videos, turning Bo into an online sensation with a huge and dedicated following. Bo taped his first of two Comedy Central specials four days after his 18th birthday, making him the youngest to do so in the channel's history. Now Bo is a rising star in the comedy world, revered for his utterly original and intelligent voice. And, he can SIIIIIIING! In EGGHEAD, Bo brings his brand of brainy, emotional comedy to the page in the form of off-kilter poems, thoughts, and more. Teaming up with his longtime friend, artist, and illustrator Chance Bone, Bo takes on everything from death to farts in this weird book that will make you think, laugh and think, why did I just laugh?

Egghead Clare Scott,2008 The story of a boy who ends up with egg on his head - and who triumphs as a result! Paddy is excited when his teacher announces an experiment - a week-long experiment. Potions! Eruptions! Explosions! Awesome. Too bad this experiment is not what it's cracked up to be.

Waiting Out the Storm JoAnn Early Macken,Susan Gaber,2010 A mother reassures her child about the wind, lightning, and thunder when a storm passes through.

The Great Hurricane, 1938 Cherie Burns,2007-12-01 “Before there was the Perfect Storm, there was the Great Hurricane of 1938. A riveting and wonderfully written account.” —Nathaniel Philbrick On the night of September 21, 1938, news on the radio was full of the invasion of Czechoslovakia. There was no mention of any severe weather. By the time oceanfront residents noticed an ominous color in the sky, it was too late to escape. In an age before warning systems and the ubiquity of television, this unprecedented storm caught the Northeast off guard, obliterated coastal communities on Long Island and in New England, and killed nearly seven hundred people. The Great Hurricane, 1938 is a spellbinding hour-by-hour reconstruction of one of the most destructive and powerful storms ever to hit the United States. With riveting detail, Burns weaves together countless personal stories of loved ones lost and lives changed forever—from those of the Moore family, washed to sea on a raft formerly their attic floor, to Katharine Hepburn, holed up in her Connecticut mansion, watching her car take to the air like a bit of paper. “A very good book.” —The Washington Post

After the Storm Timothy Shay Arthur,1868

Hurricane Audrey Post, Cathy Cagle,2007-04-30 This narrative re-creates Hurricane Audrey through the eyes of the survivors in a combination of suspense, family drama, and the struggle for life over death. In the midnight hours of June 27, 1957, the hurricane exploded in intensity and speed, slamming into the sleeping coast at dawn 12 hours ahead of its predicted landfall. Many unsuspecting residents woke that morning to find water already inside their homes. Their ordeal transports the reader back to 1957 with a new appreciation and understanding of how Cameron Parish residents clung to life during the category-four storm.

Florida Man Tom Cooper,2022-02-08 “A riotous journey into the heart of insanity also known as the State of Florida. Bravo!”—Gary Shteyngart, author of *Lake Success Florida*, circa 1980. Reed Crowe, the eponymous Florida Man, is a middle-aged beach bum, beleaguered and disenfranchised, living on ill-gotten gains deep in the jungly heart of Florida. When sinkholes start opening on Emerald Island, not only are Reed Crowe's seedy businesses—a moribund motel and a shabby amusement park—endangered, but so are his secrets. Crowe, amateur spelunker, begins uncovering artifacts that change his understanding of the island’s history, as well as his understanding of his family’s birthright as pioneering homesteaders. Meanwhile, there are other Florida men with whom Crowe must contend. Hector “Catface” Morales, a Cuban refugee, trained assassin, and crack-addicted Marielito, is seeking revenge on Reed for stealing his stash of drugs and leaving him for dead (unbeknownst to Reed) in the wreckage of a plane crash in the Everglades decades ago. Loner and misanthrope Henry Yahchilane, a Seminole native, has something to hide on the island. So does irascible and pervy Wayne Wade, Reed Crowe’s childhood friend turned bad penny. Then there are the Florida women, including Heidi Karavas, Reed Crowe’s ex-wife, now a globe-trekking art curator, and Nina Arango, a Cuban refugee and fiercely protective woman with whom Reed Crowe falls in love. There are curses. There are sea monsters. There are biblical storms. There’s something called the Jupiter Effect. Ultimately, Florida Man is a generation-spanning story about how a man decides to live his life, and how despite staying landlocked and stubbornly in one place, the world nevertheless comes to him.

Storm Surge John F. Banas,2021-06-16 All is not what it seems. A lot can happen to a person in a Disaster Area... Brenda Meyers is having a bad day. Her daughter is trapped somewhere in New Orleans right before Hurricane Katrina strikes. Her increasingly estranged husband may be on the verge of losing yet another job. To top it all off, her cheating former fiancé is claiming to have evidence that his wife and Brenda’s husband are having an affair. But nothing matters more than finding and rescuing her daughter. Brenda insists that a rescue mission can be made before the storm hits. Her husband isn’t so keen on the idea - he’s heard that the city may flood, making the rescue even harder. So, when her former fiancé offers his boat and his help, Brenda reluctantly accepts, knowing full well that her husband and Ex cannot get along. Her worries prove correct; while racing the raging storm, she uncovers a fiendish plot to murder her well insured husband - who happens to harbor secrets of his own. Will she be able to survive the ravages of Katrina, find her daughter, and prevent a professional hit without painting a target on her own back?

Summer Snow Storm Stephen Marlowe,2014-02-01 It's no surprise that meteorologists sometimes make less-than-accurate predictions about the day's weather. But when a cadre of top-ranking weather experts fail to catch wind of a freak summer snow storm, all hell breaks loose. Amidst this turmoil, an unusual folk hero emerges who seems to have a preternatural knack for dead-on weather predictions. What's the source of this strange superpower?

Category 5 Ernest Zebrowski,Judith A. Howard,2007-05-08 The epic story of the real victims of a perfect storm—overwhelmingly the poor—left behind in the aftermath of a deadly hurricane “A riveting new book.” —Tallahassee Democrat “Not simply an historical account of a storm thirty-seven years ago but a living, breathing entity brimming with the modern-day reality that, yes, it can happen again.” —American Meteorological Society Bulletin Fascinating, easy-to-read, yet informative.” —Richmond Times-Dispatch “Almost like sitting in front of the television watching the events unfold. A page-turner from the very first page.” —Ruston Morning Paper “There is much we can all learn from this relevant and highly engaging chronicle.” —Biloxi Sun Herald “A must-read for anyone who wants to take an emotional stroll through the rubble of these Gulf Coast fishing communities and learn what happened.” —Apalachicola Times “Should be required reading for anyone living in the path of these terrible storms.” —Moondance.org As the unsettled social and political weather of summer 1969 played itself out amid the heat of antiwar marches and the battle for civil rights, three regions of the rural South were devastated by the horrifying force of Category 5 Hurricane Camille.

Camille’s nearly 200 mile per hour winds and 28-foot storm surge swept away thousands of homes and businesses along the Gulf Coast of Louisiana and Mississippi. Twenty-four oceangoing ships sank or were beached; six offshore drilling platforms collapsed; 198 people drowned. Two days later, Camille dropped 108 billion tons of moisture drawn from the Gulf onto the rural communities of Nelson County, Virginia—nearly three feet of rain in 24 hours. Mountainsides were washed away; quiet brooks became raging torrents; homes and whole communities were simply washed off the face of the earth. In this gripping account, Ernest Zebrowski and Judith Howard tell the heroic story of America’s forgotten rural underclass coping with immense adversity and inconceivable tragedy. Category 5 shows, through the riveting stories of Camille’s victims and survivors, the disproportionate impact of natural disasters on the nation’s poorest communities. It is, ultimately, a story of the lessons learned—and, in some cases, tragically unlearned—from that storm: hard lessons that were driven home once again in the awful wake of Hurricane Katrina. Ernest Zebrowski is founder of the doctoral program in science and math education at Southern University, a historically black university in Baton Rouge, Louisiana, and Professor of Physics at Pennsylvania State University’s Pennsylvania College of Technology. His previous books include *Perils of a Restless Planet: Scientific Perspectives on Natural Disasters*. Judith Howard earned her Ph.D. in clinical social work from UCLA, and writes a regular political column for the Ruston, Louisiana, Morning Paper.

Storm Surge Chris Everheart,2010 Jay and Emmi must navigate through a surging storm to fix a critical communications antenna for a top-secret government operation.

After the Storm Timothy Arthur,2019-05-22

The Great Storm Lisa Waller Rogers,2002 A teenage boy keeps a diary of events during the devastating hurricane which struck Galveston, Texas, in 1900, and of the rescue operations that followed.

Storm Warning Robert William Sandford,2015 Human beings and industrial-based society are changing the composition of our planet's atmosphere and causing it to warm at an unnatural and oftentimes astonishing rate. Much of that warmth is being absorbed by water which is causing an acceleration in the rate and manner in which water moves through the global hydrological cycle. A warmer atmosphere carries more water vapor which means as temperatures continue to rise storms will be more intense, last longer and cause more damage to our towns, cities and vital infrastructure. On the other side of the hydro-climate coin, we can also expect deeper, more persistent and damaging droughts throughout the world resulting in dramatic losses, difficult economic outcomes and fundamental alterations to landscape. This highly considered, accessible and readable book explains how changes in the water cycle have already begun to affect how we think about and value water security and climate stability and what we can do to ensure a sustainable future for our children and grandchildren.

Category 7 Bill Evans,Marianna Jameson,2007-07-10 A Category 4 hurricane, with winds of up to 155 miles per hour, tears roofs off buildings, smashes windows and doors, and can send floodwaters up to the second floor. Evacuation is suggested for up to six miles inland. Hurricane Katrina was a Category 4 when she made landfall. Hurricane Simone is a Category 7—the biggest, strongest storm in recorded history. When she hits New York City, skyscrapers will fall. Subways and tunnels will flood. Lower Manhattan and much of Queens and Brooklyn will disappear under more than thirty feet of water. All along the Eastern Seaboard, towns and cities are being evacuated as wind-driven rain lashes the coast and storm surges crash through seawalls. Roads are packed with fleeing motorists whose cars are jammed with every personal possession that can be crammed in, plus family members, friends, and beloved pets. A huge natural disaster is brewing in the Atlantic. Except that Simone isn't natural. She's the product of rogue weather science being wielded by billionaire Carter Thompson as part of a personal vendetta against US President Winslow Benson. Once Carter wanted to bring rain to the desert and feed the starving peoples of the planet. Now he wants to show Benson—and the rest of the world—just how powerful wind and water can be. If technology created Simone, perhaps technology can stop her. It's up to Kate Sherman, once a member of Carter's weather team; and Jake Baxter, a weatherman for the CIA, to try, using a secret US Navy weapon. The catch? It has to be deployed inside the hurricane. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Blizzard!! the Great White Hurricane Timothy Minnich,2019-12-30 THE BLIZZARD OF 1888, legendary in the annals of American weather history, was among the most ferocious winter storms ever to pound the Northeast. Many hundreds of people perished on land and sea during its three-day reign of terror, including some 200 in New York City alone - ground-zero for this storm. In his debut novel, Tim Minnich paints a vibrant New York City landscape in the weeks leading up to what has been coined The Great White Hurricane. Bound to fascinate weather enthusiasts, history buffs, and general readers alike, Minnich captures the suspense which culminates in this awesome display of nature, all while vividly depicting life in late Nineteenth Century Manhattan.On Sunday evening March 11th, the denizens of this great metropolis go to sleep completely unaware they'd be awakening to a howling blizzard. All except for young William Roebling, a brilliant meteorologist recently transferred to the New York Office of the US Army's fledgling Signal Service Corps - the agency responsible for the nation's first weather forecasts. Will has painstakingly developed an ingenious system allowing him to predict this historic event days in advance, but his unconvinced Commanding Officer, for political reasons, orders his silence. A conflicted Will feels he must alert his loved ones, and does - only to find himself in a battle for his life at the height of the storm.Minnich deftly combines the drama and excitement of the blizzard with its profound impact on those unfortunate enough to have been caught in its path, simultaneously weaving an engaging tale of true love, faith, and the indomitable human spirit.
