Eiffel's Tower Jill Jonnes,2009-04-30 The story of the world-famous monument and the extraordinary world's fair that introduced it, by the author of *Conquering Gotham and Urban Forests* In this first general history of the Eiffel Tower in English, Jill Jonnes-acclaimed author of *Conquering Gotham*-offers an eye- opening look not only at the construction of one of the modern world's most iconic structures, but also the epochal event that surrounded its arrival as a wonder of the world. In this marvelously entertaining portrait of Belle Époque France, fear and loathing over Eiffel's brash design share the spotlight with the celebrities that made the 1889 Exposition Universelle an event to remember-including Buffalo Bill and his sharpshooter Annie Oakley, Thomas Edison, and artists Whistler, Gauguin, and van Gogh. Eiffel's Tower is a richly textured portrait of an era at the dawn of modernity, reveling in the limitless promise of the future.

Terrifying Storms Jim Pipe,2011-06 Savage storms at sea, giant hailstones and deadly lightening bolts – there is no doubt that storms are scary stuff! Terrifying Storms features giant walls of sand, a bizarre downpour of tadpoles and also looks at the devastating effect storms have on our world. On the Edge is a brand new series of high-interest non-fiction books that will appeal to struggling or reluctant readers. With stunning pictures and clear, simple text, The narrative focuses on extraordinary real life stories to engage readers and keep them on the edge of their seats! Each book features a fun quiz to see if the reader could take the same challenges.

Eye of the Storm Kate Messner, 2012-03-13 In the not-too-distant future, huge tornadoes and monster storms have become a part of everyday life. Sent to spend the summer in the heart of storm country with her meteorological engineer father, Jaden Meggs is surprised at the strides her father's company StormSafe, has made with custom shelters that keep her family safe in even the worst of storms. At her exclusive summer science camp, Eye On Tomorrow, Jaden meets Alex, a boy whose passion for science matches hers. Together, they discover that her father's company is steering storms away from the expensive neighborhoods and toward the organic farming communities that are in competition with his bio-engineered food company, NatureMade. Jaden must confront her father, but when she does, she uncovers a terrifying family secret and must call on both her scientific knowledge and her faith to save the people she loves most from one of her father's monster storms.

Second Century of the Skyscraper Council on Tall Buildings & Urban, 2012-12-06 tenant is looming in importance. The owner is having more influence on the building. As Gerald D. Hines has said, there are indications that the desire for more discretionary time will lead to more residential high-rises close to or in the midst of downtown office buildings. Downtown living could become the desired alternative. Tall buildings will be approached increasingly from the standpoint of an urban ecology - that what happens to a part can influence the whole. Providing for public as well as private needs in a tall building project is just one example (facilities for schools, shops, religious, and other needs). More attention will be paid to maintaining streets as lively and interesting places. Will a new world's tallest be built? Will we go a mile high? The answer is probably yes to the first, no to the second. With the recent spate of super-tall buildings on the drawing boards, going to greater heights was in the back of many people's minds at the Chicago conference. But in the United States, at least, buildings of 70 to 80 stories would appear to provide needed space consistent with economy. The future, then, is described in depth by papers that go into specific areas.
