*Fooling Some of the People All of the Time, A Long Short (and Now Complete) Story, Updated with New Epilogue* David Einhorn,2010-12-07 A revealing look at Wall Street, the financial media, and financial regulators by David Einhorn, the President of Greenlight Capital Could 2008's credit crisis have been minimized or even avoided? In 2002, David Einhorn-one of the country's top investors-was asked at a charity investment conference to share his best investment advice. Short sell Allied Capital. At the time, Allied was a leader in the private financing industry. Einhorn claimed Allied was using questionable accounting practices to prop itself up. Sound familiar? At the time of the original version of Fooling Some of the People All of the Time: A Long Short Story the outcome of his advice was unknown. Now, the story is complete and we know Einhorn was right. In 2008, Einhorn advised the same conference to short sell Lehman Brothers. And had the market been more open to his warnings, yes, the market meltdown might have been avoided, or at least minimized. Details the gripping battle between Allied Capital and Einhorn's Greenlight Capital Illuminates how questionable company practices are maintained and, at times, even protected by Wall Street Describes the failings of investment banks, analysts, journalists, and government regulators Describes how many parts of the Allied Capital story were replayed in the debate over Lehman Brothers Fooling Some of the People All of the Time is an important call for effective government regulation, free speech, and fair play.

American Taxation, American Slavery Robin L. Einhorn,2008-05-15 For all the recent attention to the slaveholding of the founding fathers, we still know remarkably little about the influence of slavery on American politics. American Taxation, American Slavery tackles this problem in a new way. Rather than parsing the ideological pronouncements of charismatic slaveholders, it examines the concrete policy decisions that slaveholders and non-slaveholders made in the critical realm of taxation. The result is surprising—that the enduring power of antigovernment rhetoric in the United States stems from the nation’s history of slavery rather than its history of liberty. We are all familiar with the states’ rights arguments of proslavery politicians who wanted to keep the federal government weak and decentralized. But here Robin Einhorn shows the deep, broad, and continuous influence of slavery on this idea in American politics. From the earliest colonial times right up to the Civil War, slaveholding elites feared strong democratic government as a threat to the institution of slavery. American Taxation, American Slavery shows how their heated battles over taxation, the power to tax, and the distribution of tax burdens were rooted not in debates over personal liberty but rather in the rights of slaveholders to hold human beings as property. Along the way, Einhorn exposes the antidemocratic origins of the popular Jeffersonian rhetoric about weak government by showing that governments were actually more democratic—and stronger—where most people were free. A strikingly original look at the role of slavery in the making of the United States, American Taxation, American Slavery will prove essential to anyone interested in the history of American government and politics.

**Fooling Some of the People All of the Time, A Long Short Story** David Einhorn,2008-05-02 In 2002, Einhorn spoke publicly about Allied Capital--a leader in the private finance industry--presenting it as an excellent short opportunity. Einhorn describes the incredible events that followed his speech and how Allied and the investment community attacked him to protect the company--and its stock price. Informative and intriguing, Fooling Some of the People All of the Time details how the current environment on Wall Street--and the world of hedge funds in particular-- not only allows for such behavior, but how it protects the companies and attacks those who attempt to uncover them.--Résumé de l'éditeur.

**Welcome, Wombat** Kama Einhorn,2018 Photo-packed series explores the stories and science behind animal sanctuaries. An up-close look at what life is like at a real wombat sanctuary in Australia--straight from a wombat herself in a nonfiction chapter book for elementary-aged readers. Includes full-color photos, graphics, and maps. When a new baby wombat shows up at Sleepy Burrows Sanctuary in Australia, Chance, the veteran wombat, is excited to show the new gal the ropes. Before any animal can be successfully released, many things have to happen. After rescue comes recovery, then rehabilitation, and finally, release. Those are animal-sanctuary tenets--an animal will remain safe until release or until it dies. For Chance and the new wombat, Panzer, this means learning how to find food, dig, and find a lifelong companion. Readers will love Chance, Panzer, and the crew of wombats. Other books in the photo-packed Sanctuary Stories series include Sweet Senior Pups.

Sweet Senior Pups Kama Einhorn,2018 Photo-packed series explores the stories and science behind animal sanctuaries. Who says you can't teach an old dog new tricks? Visit the Senior Dog Sanctuary of Maryland to meet three very special old dogs--Mino, Buffy, and Jack--who are ready and waiting to make new families very happy. Includes full-color photos, maps, and graphics throughout. At many animal shelters, older pets are often overlooked in favor of puppies and kittens. But you'll find only dogs over the age of six at the Senior Dog Sanctuary of Maryland. Mino, Jack, and Buffy are three dog roommates at the SDS, each having a unique personality but all of them in need of a new home. For every dog at SDS, the road to release is a different one but always features rescue, recovery, rehabilitation, and ultimately release. Join Mino as he shares stories about Buffy, Jack, and the SDS staff they get ready for their forever families. Other books in the photo-packed Sanctuary Stories series include Welcome, Wombat.

**The Pages In Between** Erin Einhorn,2009-04-07 Now available in paperback: “a moving account of one woman’s brave journey as she confronts her mother’s past in the cold reality of the present. Einhorn has written a unique holocaust story—part testimony and part detective story” (Martin Lemelman, author of Mendel’s Daughter). First aired as a segment of This American Life entitled “Settling the Score,” The Pages in Between is the moving story of Einhorn’s personal journey of reconciliation and discovery in modern-day Poland. Frustrated by her mother’s refusal to talk about her tragic and unusual childhood, Einhorn traveled to Poland to find the family that safeguarded her from the Nazis as an infant. What she uncovered was the legacy left behind by a sixtyyear- old promise made by her grandfather: to give the family that harbored her mother during the war everything he had—most importantly the deed to his own family’s house. In her attempt to fulfill that debt that saved her mother’s life, Einhorn comes face to face with the realities of present day Poland, where a dispute of this kind requires endless digging through painful and often hidden history. Along the way, she suffers her own personal losses and begins to question how much of the future should be jeopardized in order to right the wrongs of the past. Part family history, part personal and present coming of age memoir, The Pages in Between powerfully tells of a young woman’s quest for the “truth” about her mother’s life, and of learning the lesson that this truth might be impossible to find.

**The Curie Society** Heather Einhorn,Adam Staffaroni,Janet Harvey,2021-04-27 An action-packed graphic novel for the science lover—“with suspenseful espionage, nerdy humor, and a group of dauntless, eager trailblazers” following in the footsteps of Marie Curie (Shelf Awareness). The brilliant, diverse members of a covert society dedicated to women in STEM undertake high-stakes missions to save the world. An action-adventure original graphic novel, The Curie Society follows a team of young women recruited by an elite secret society—originally founded by Marie Curie—with the mission of supporting the most brilliant female scientists in the world. The heroines of the Curie Society use their smarts, gumption, and cutting-edge technology to protect the world from rogue scientists with nefarious plans. Readers can follow recruits Simone, Taj, and Maya as they decipher secret codes, clone extinct animals, develop autonomous robots, and go on high-stakes missions. “A fun comic starring heroines who find themselves solving one scientific puzzle after the next!” —Andy Weir, New York Times–bestselling author of The Martian

**Go, Goats!** Kama Einhorn,2019 Photo-packed series explores the stories and science behind animal sanctuaries. An up-close look at what life is like at a farm sanctuary in upstate New York, straight from a goat herself, in a nonfiction chapter book for elementary-aged readers. Includes full-color photos, graphics, and maps. It's summertime in Upstate New York and the Camp Kindness volunteers have arrived at Catskills Animal Sanctuary. Wise old goat Lucia knows everything about the farm sanctuary and its residents -- from the weeping willow tree with the best leaves to nibble on, to which goats are snugglers and which like their space, to the differences between goats and sheep (note: there are many! Start with the eyes!). Lucia is a member of what the farm staff calls the Underfoot Family. It's a group of more than fifty animals - goat, sheep, chickens, ducks, and even a pig - who have free reign of the farm. While the staff works hard to rescue, recover, rehabilitate and release all of the farm animals who come to the sanctuary, not every animal will leave -- Lucia is one who will spend the rest of her days in the comfort of the sanctuary, watching babies be born, new friends come and go, and welcoming a new group of campers every summer with a warm heart and a gentle head butt. What is life like at Catskills Animal Sanctuary? Lucia will tell you everything...!

**The Golem, Methuselah, and Shylock** Edward Einhorn,2005 Edward Einhorn blends absurdist humor with philosophy in these critically acclaimed plays about legendary Jewish figures. Golem Stories retells an old Kabalistic legend. It's a ghost story and a love story, about a childlike clay man who may be a demon inside. In The Living Methuselah, the oldest living man survives every disaster is human history, with the help of his wife Serach, the oldest living woman. But when a doctor tells him he will only live until the end of the play, will this be his final curtain? To find the title character of A Shylock, Jacob Levy interrogates every character in The Merchant of Venice, but oddly Hamlet may know the most-although this Hamlet is a woman. And in One-Eyed Moses and the Churning Red Sea, Rabbi Tzipporah Finestein dreams Moses is a pirate captain, but what do the dreams mean? Two congregants hold the key.

**Compassionate Fairy Tales** Lois Einhorn Ph. D.,Lois J. Einhorn,2011-03 Presents a collection of traditional fairy tales which have been retold to illustrate compassion toward others.

**The Jesus Mystery** Lena Einhorn,2007 In 'The Jesus Mystery', Lena Einhorn presents a new hypothesis about the relationship between Jesus and the apostle Paul. With page-turning suspense, she details a first-century chronology that resolves many persistent mysteries about the historical Jesus.

**Tiger Time** Kama Einhorn,2019 Go inside Wild Animal Sanctuary in Colorado, where you will meet a tiger named Kamal, one of 500 animals who has been rescued and now lives in safety. Includes full-color photos, graphics, and maps. Meet Kamal! He's a tiger, and a resident of Wild Animal Sanctuary (WAS) in Colorado, along with 500 other big animals. Most of these animals have never lived in the wild. They've come from roadside zoos, entertainment facilities, and even people's homes! But even though a tiger can be super adorable as a baby, big (and little) tigers should never be pets. That's where WAS steps in. Since 1980, WAS has rescued and cared for lions, tigers, bears, leopards, jaguars, mountain lions, and some smaller carnivores such as wolves, bobcats, lynxes, foxes, and coyotes. There are also alpacas and horses, a few emus, several ostriches, one porcupine, one raccoon, and one camel! While it may sound amazing to be surrounded by all these incredible animals of all shapes and sizes, the animals have often come from terrible situations, and lack instincts that would keep them alive if they were able to live where they belong. They have been malnourished, declawed, not properly vetted. They don't know how to hunt, have never been able to mate (or have mated too much), and, most of all, have no trust in humans. The staff at WAS changes all of that, slowly but surely, getting animals like Kamal the tiger healthy, trusting, and safe again--and as close to wild as they can be. Tigers are very smart, loyal, and independent; Kamal was living in a dog crate with a man in a trailer, posing for pictures. It was no way for a tiger to live. Now Kamal has a habitat with tall prairie grass and a pond the size of a football field. It may not be the wild, but WAS is as close to perfect as it gets.

**Fiasco** Frank Partnoy,1999-02-01 FIASCO is the shocking story of one man's education in the jungles of Wall Street. As a young derivatives salesman at Morgan Stanley, Frank Partnoy learned to buy and sell billions of dollars worth of securities that were so complex many traders themselves didn't understand them. In his behind-the-scenes look at the trading floor and the offices of one of the world's top investment firms, Partnoy recounts the macho attitudes and fiercely competitive ploys of his office mates. And he takes us to the annual drunken skeet-shooting competition, FIASCO, where he and his colleagues sharpen the killer instincts they are encouraged to use against their competitors, their clients, and each other. FIASCO is the first book to take on the derivatives trading industry, the most highly charged and risky sector of the stock market. More importantly, it is a blistering indictment of the largely unregulated market in derivatives and serves as a warning to unwary investors about real fiascos, which have cost billions of dollars.

**Problem Solved** Cheryl Strauss Einhorn,2017-04-17 \*International Book Awards Finalist It can be messy and overwhelming to figure out how to solve thorny problems. Where do you start? How do you know where to look for information and evaluate its quality and bias? How can you feel confident that you are making a careful and thoroughly researched decision? Whether you are deciding between colleges, navigating a career decision, helping your aging parents find the right housing, or expanding your business, Problem Solved will show you how to use the powerful AREA Method to make complex personal and professional decisions with confidence and conviction. Cheryl’s AREA Method coaches you to make smarter, better decisions because it: Recognizes

that research is a fundamental part of decision making and breaks down the process into a series of easy-to-follow steps. Solves for problematic mental shortcuts such as bias, judgment, and assumptions. Builds in strategic stops that help you chunk your learning, stay focused, and make your work work for you. Provides a flexible and repeatable process that acts as a feedback loop. Life is filled with uncertainty, but that uncertainty needn't hobble us. Problem Solved offers a proactive way to work with, and work through, ambiguity to make thoughtful, confident decisions despite our uncertain and volatile world.

Insights in Decision Making Robin M. Hogarth,1990-04-18 How do people make decisions? How can we help people make better decisions? How can we best study the processes of decision making? The growing field of behavioral decision research, which seeks to link observed decision behavior to underlying psychological mechanisms, may provide the answers to these questions. The volume is based on a recent conference held to honor the work and memory of the late Hillel J. Einhorn, a pioneering scholar in behavioral decision research. Composed of contributions by leading researchers, Insights in Decision Making provides a state-of-the-art image of work in this field. The range of topics covered includes conceptual and technical issues the bridge the gap between theory and the practical concern of improving decision making, difficulties in statistical thinking, experimental studies of processes of judgment and choice, and the emergence of new paradigms for studying decision behavior. Providing many avenues for future research, Insights in Decision Making will be essential reading for students of the psychology of decision making and will prove valuable to readers in psychology, economics, statistics, and management.
