Were Our Mouths Filled With Song Eric L. Friedland,1997-11-01 Since the period in which the Jewish liturgy was standardized, there has hardly been a time when it was not somehow in a state of flux. Eric L. Friedland explores the countless ways that the Siddur, Mahzor, and Haggadah have been adjusted, amplified, or transformed so as to faithfully mirror modern Jews' understanding of themselves, their place in society, and their sancta. In the tradition of liturgologists such as Elbogen, Idelsohn, and Petuchowski, Friedland focuses on latter-day adaptations of the prayerbook, giving proper recognition to the recent concern for intellectual integrity, cultural congruity, group and individual self-redefinition, and honest speech in Jewish prayer. The prayerbooks themselves are witnesses to innovation in the Jewish liturgy. From David Einhorn's *Olath Tamid* (Baltimore 1855), to Isaac Mayer Wise's *Minhag Amerika* (Cincinnati 1857) and Marcus Jastrow's 1873 revision of Benjamin Szold's *Abodath Israel* (Baltimore 1864), Friedland analyzes evidence of creativity in British and American Reform Jewish liturgy. Various rites for the Days of Awe provide a particularly accurate glimpse of how Jewish communities here and abroad experience the sacred, consider eternal mysteries, and communicate with God. Friedland also sets the Reform Gates of Prayer in historical and denominational perspective by considering it alongside the Reconstructionist *Kol Haneshamah*, and the Israeli Progressive *HaAvodah shebaLev*. The state and direction of liturgical change emerges from a survey of commonalities and divergences in nineteenth- and twentieth-century prayerbooks in terms of Sephardic and mystical influences, attitudes toward the messianic hope, and collective sentiments of forgiveness or vengeance toward Israel's enemies. Liturgical approaches to the commemoration of the Ninth of Av suggest that even an ancient fast day can recover relevance, credibility, and authenticity for Liberal Jews in the postmodern era.

Minding the Weather Robert R. Hoffman, Daphne S. Ladue, H. Michael Mogil, Paul J. Roebber, J. Gregory Trafton, 2023-08-15 A detailed study of research on the psychology of expertise in weather forecasting, drawing on findings in cognitive science, meteorology, and computer science. This book argues that the human cognition system is the least understood, yet probably most important, component of forecasting accuracy. *Minding the Weather* investigates how people acquire massive and highly organized knowledge and develop the reasoning skills and strategies that enable them to achieve the highest levels of performance. The authors consider such topics as the forecasting workplace; atmospheric scientists' descriptions of their reasoning strategies; the nature of expertise; forecaster knowledge, perceptual skills, and reasoning; and expert systems designed to imitate forecaster reasoning. Drawing on research in cognitive science, meteorology, and computer science, the authors argue that forecasting involves an interdependence of humans and technologies. Human expertise will always be necessary.

Ten chapters, organized chronologically, include source materials that highlight the major thematic questions of each era and tell many stories about what it was like to immigrate and acculturate to American life, practice different forms of Judaism, engage with the larger political, economic, and social cultures that surrounded American Jews, and offer assistance to Jews in need around the world. At the beginning of each chapter, the editors provide a brief historical overview highlighting some of the most important developments in both American and American Jewish history during that particular era. Source materials in the collection are preceded by short headnotes that orient readers to the

documents historical context and significance.

Paul Celan Today Michael Eskin, Karen Leeder, Marko Pajević, 2021-08-23 Marking Paul Celan's 100th birthday and the 50th anniversary of his death, this volume endeavours to answer the following question: why does Celan still matter today – more than ever perhaps? And why should he continue to matter tomorrow? In other words, the volume explores and assesses the enduring significance of Celan's life and œuvre in and for the 21st century. Boasting cutting-edge research by international scholars together with original contributions by contemporary artists and writers, this book attests to, on the one hand, the extent to which large swathes of contemporary philosophy, poetics, literary scholarship, and aesthetics have been indebted to Celan's legacy and are simply unthinkable

without it, and, on the other hand, to the malleability, adaptability, breadth and depth of Celan's poetics, which, like the music of The Beatles, Led Zeppelin, or Queen, is reborn and rediscovered with every new generation.
